Never one to waste time showing off, you still know the importance of setting yourself apart. This makes the SX4 Sedan the perfect complement to the way you choose to live your life. As smart as it is stylish, the SX4 Sedan understands that enjoying the ride is as important as the final destination.

# The Attraction is Natural

The 2012 Suzuki SX4 Sedan is ready to prove it has what it takes. Made clear from the moment you lay eyes on the smooth European styling, it has a look all of its own. Have a seat in the well-appointed interior. Combine this with the sheer driving experience that only a highly responsive, European-tuned sport suspension can deliver. And let's not forget that all of these built-in features plus an impressive list of others, are made available at a price that won't break the bank. The end result is an impressive vehicle that defines success, and more importantly, allows you to do the same.

For a brighter and better view of the road, the added side windows and large side mirrors allow you to see more around you and feel more connected to the outdoors.

# Where the Advantage Begins

From the outside, the SX4 continues to exceed expectations. With smooth curves and sleek, sophisticated styling, it gets the looks. Compact and manoeuvrable enough to navigate narrow spaces, it makes parking and getting around the city a breeze, while still being spacious enough to carry all you need for a day out or a weekend getaway. Wherever your travels may take you, the SX4 invites all passengers to experience a ride in thoughtful, refined comfort.

## Illuminated information cluster and panel

Blue and red lights integrate your driving space to conveniently reveal not only your speed but also the outside temperature, fuel consumption and fuel range remaining.

## SmartPass™ keyless entry and start system

This impressive SmartPass™ system lets you lock or unlock the vehicle doors, at the press of a door handle button. Also, it lets you start the vehicle by turning the keyless ignition - all while your keys stay in your pocket or purse. Available on Sport model.

## Standard air conditioning

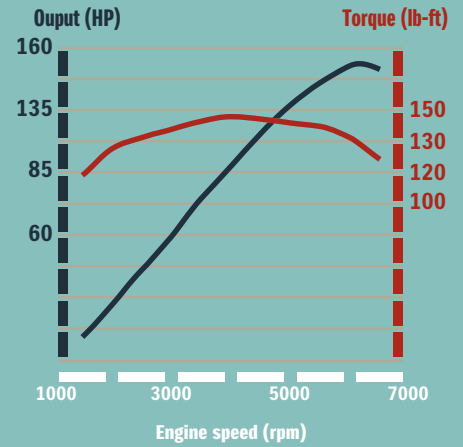

In the Sport model you'll enjoy the convenience of automatic climate control dials conveniently located for both the driver and front passenger, making it easy to adjust interior conditions exactly to your liking.

# Always looking out for you

## 2.0-litre VVT engine

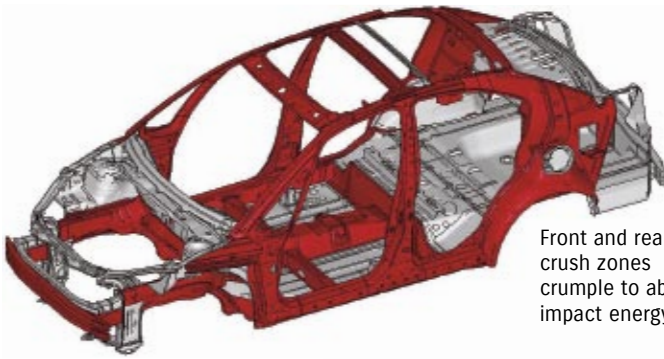

### 2.0-litre 16-valve DOHC VVT

The SX4 powertrain delivers high-energy excitement from the moment you start the ignition. At low ranges the variable valve timing (VVT) puts out ample torque for immediate responsiveness and quick acceleration that never feels sluggish. As the rev rate increases, the valve timing continuously varies to enable more effective fuel combustion and efficiency, putting an impressive 150HP of power at your command for highway cruising that feels sure and relaxed.

### Passive safety systems are ready when you need them

The SX4 also watches over you with passive safety systems. The rigid frame directs impact energy around the cabin and away from occupants, while crumple zones absorb and dissipate collision energy before it can reach the interior. The eight-airbag system combining two front airbags, front and rear side airbags and left and right curtain airbags comes standard. The front seats are equipped with three-point ELR seat belts with pretensioners and force limiters. The rear seats are equipped with right, left and centre three-point ELR seat belts.

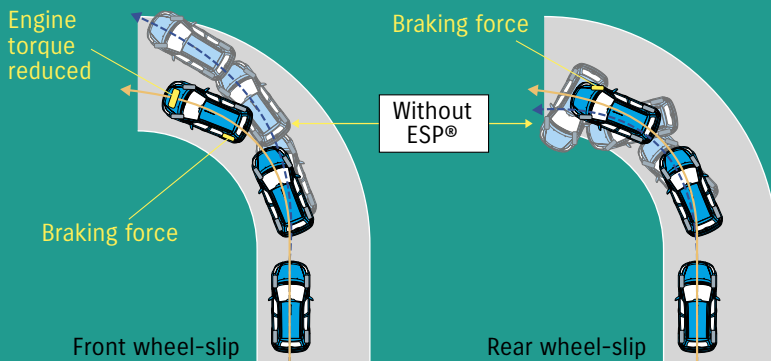

Front and rear crush zones crumple to absorb impact energy

### 4-wheel disc brakes with ABS

4-wheel disc brakes add to the standard anti-lock brakes (ABS) with brake assist and electronic brake-force distribution (EBD) functions.

### ESP® control system

Standard on all models, ESP® (Electronic Stability Program) supplements the Suzuki SX4's inherent stability with three major functions: ABS with EBD, traction control and stability control. ESP's Electronic Control Unit (ECU) uses various sensors to determine and hold the cornering line, greatly increasing traction and stability control while reducing front and rear wheel-slip for enhanced safety.

← Without ESP®

### Preventive measures

SX4 is designed to provide the driver with ample visibility to all sides by elevating the driver's seat position and minimizing blind spots. The eight-airbag system combining two front airbags, front and rear side airbags and left and right curtain airbags comes standard to help prevent injury in the event of a collision.

Note: The SRS airbags are shown inflated for illustrative purposes
