

# Golf GTI

## 2013

Das Auto.

## All systems go.

Take a good look. A real good look. Chances are if you catch a glimpse of the 2013 Golf GTI on the road, you won't be seeing its low-profile front grille and tailgate for long. Powered by the legendary 2.0 TSI 200-horsepower turbocharged engine and equipped with the Electronic Transverse Differential Lock (XDS for short) to maximize traction and minimize boredom, it's never in one place for long. Excluding the head of the pack, of course. You can always find it there.

## Adrenaline guzzler.

Buckle up then buckle down. Grab a hold of the leather-wrapped multifunction flat-bottom sport steering wheel, and watch as the road opens up in front of you. Whether you're in the 3-door or the 5-door, the feeling of being in the driver's seat of the 2013 Golf GTI is a sensation. Words just don't do it justice. But if you want to try, feel free to call someone with the hands-free Bluetooth® mobile phone connectivity with voice activation to describe the experience.

## Key Features

### Features

#### Bi-Xenon headlights with Adaptive Front-light System (AFS) and LED Daytime Running Lights

In every way, our lights go farther. Not only brighter than regular bulbs, the Bi-Xenon lights with AFS turn up to 13 degrees around corners before you do. On top of that, the LED Daytime Running Lights last significantly longer than traditional headlights.

#### 2.0 TSI 200-horsepower engine

This award-winning turbocharged engine has 200 horsepower and 207 lb-ft of torque. In plain English, it's fast and powerful.

#### Multifunction GTI sport steering wheel with available DSG paddle shifters

With the Golf GTI's leather-wrapped multifunction sport steering wheel, you'll never want to let it go.

#### Climatronic® dual-zone electronic climate control

Create a climate that's perfectly tailored to your needs, whether you're the driver or the passenger. Now that's what we call taming the elements.

#### Media Device Interface (MDI) with iPod® connectivity

Take all of your tunes with you. Just plug in the MDI with iPod® adapter to easily access all of your music via the in-dash touch screen.

#### Available 18" alloy wheels

Cast your eyes on the 18" alloy wheels with all-season tires. Careful, though – you might not be able to look away.

### More Features

#### Available RNS 510 navigation with 30 GB hard drive and voice activation

When a car's this much fun to drive, you may not mind getting lost. But with touch-screen navigation you'll always find your way.

#### Available power sunroof

Take the sun along for a spin with the simple twist of a dial.

#### Available KESSY keyless access with start and stop button

Unbelievably convenient – unlock and start your car without ever having to take your key out of your pocket.

**Think Blue.** It's how we put more thought into what and how you drive.

Fuel Consumption*	Engine	City L/100 km	Highway L/100 km
Manual	2.0 TSI	9.9	6.7
Automatic DSG	2.0 TSI	8.7	6.3

\* Fuel consumption figures are estimates based on Natural Resources Canada's approved criteria and testing methods. Your fuel consumption may vary.

**TSI** – TSI brings together the power of direct fuel injection with the boost of a turbocharger. The end result? An ultra-efficient engine that provides maximum torque from 1,700 to 5,000 rpm, gives you outstanding performance through a wide range of speeds, power when you need it, ultra-low fuel consumption and, ultimately, lower CO<sub>2</sub> emissions.

**DSG** – A definite shift for the better. DSG stands for Direct Shift Gearbox. In essence, it gives you the convenience of an automatic with the performance and efficiency of a manual. Here's how it works. DSG is managed by dual electronically controlled clutches, so not only do you shift faster, you also get enhanced acceleration and reduced fuel consumption. In fact, thanks to DSG, each shift takes less than 4/100ths of a second. And if you're the manual type, a quick flip of the Tiptronic® function lets you shift into something a little sportier.

**Lightly does it. The lighter you travel, the less fuel you consume. An extra 100 kg of stuff increases your fuel consumption by up to 0.3 L/100 km. So if you've got random items weighing you down, it's time to lighten the load. Just one way that we can all Think Blue.**
