

Eos 2014

Das Auto.

Wrap yourself in sunshine.

Just when you thought there was nothing new under the sun, along comes the 2014 Eos. The only hardtop in its category with a sunroof, the Eos takes just 25 seconds to transform itself from a breathtakingly stylish coupe into an equally breathtakingly stylish convertible. You'll definitely want to keep the roof down when the sun's out though, if only to give others a good look as you whiz by. Because with style to spare, the Eos really does make a statement – no matter what the weather's like outside.

Enjoy the view.

Whether you've just dropped the unique hardtop in the Eos, or you're admiring it from afar, the view is just as good. Of course, the beauty of the Eos is more than skin deep. It's grounded on 17" alloy wheels for added stability, and offers advanced features like KESSY keyless access with push-button start. So, no matter how you look at it, the Eos is very attractive, indeed.

Think Blue. It's how we put more thought into what and how you drive.

Fuel Consumption*	Engine	City L/100 km	Highway L/100 km
Automatic DSG	2.0 TSI	9.5	6.7

DSG – A definite shift for the better. DSG stands for Direct Shift Gearbox. In essence, it gives you the convenience of an automatic with the performance and efficiency of a manual. Here's how it works: DSG is managed by dual electronically controlled clutches, so not only do you shift faster, you also get enhanced acceleration and reduced fuel consumption. In fact, thanks to DSG, each shift takes less than 4/100ths of a second. And if you're the manual type, a quick flip of the Tiptronic® function lets you shift into something a little sportier.

Comfort high, fuel consumption low. Air conditioning and other auxiliaries add comfort, but rapidly consume fuel. So when the weather is nice, open your windows for some fresh air and let the heat escape. In winter, turn off your seat heaters once warm and your defrosters once clear. Think Blue.

Think Blue.
