Limited AWD shown in Ooh La La Rouge Mica.

FRONT COVER
XLE AWD shown in Nautical Blue Metallic.

With this kind of comfort, you'll wish the drive was longer.

The 2015 Highlander's bold exterior shows off a sleek streamlined profile, aggressive wide rear stance, and available integrated roof rails that enhance its aerodynamic design. And the beauty doesn't fade once you step inside. The interior marries function and style with a variety of sleek and sophisticated features that are designed to impress. Premium materials and textures are featured throughout the cabin, including a soft-touch instrument panel, available heated leather steering wheel, and available smooth and perforated leather-trimmed seats. The interior was thoughtfully designed to make sure that every seat offers the utmost comfort, style, and convenience.

Technologically advanced from head to tail lamp.

Even those who can do it all appreciate a little help now and again. Highlander offers an array of advanced technology that lets you stay connected, especially when you need it most. Whether it's innovations like the Display Audio System⁴ with available Navigation⁵ that take the guesswork out of getting to where you're going, or handy features like an available auxiliary outlet on the second-row seats for electronic devices, Highlander has something for everyone. With a host of standard and available technology that are not only convenient but also incredibly easy to use, getting to your destination is half the fun – even for those times when you're still deciding on exactly where you're going.

Limited AWD shown in Ooh La La Rouge Mica.

DISPLAY AUDIO SYSTEM⁴ WITH NAVIGATION⁵ The Display Audio System⁴ with available Navigation⁵ offers a seamless way to stay connected. The system features an 8-inch touch-screen with Bluetooth^{®3} wireless music streaming, and a unique "text-to-speech" feature that converts text messages from your phone into voice messages which play through the vehicle's speaker system.

ALL AROUND CONVENIENCE Parents will appreciate the standard Conversation Mirror that lets you see what the kids are up to in the back. For added convenience, activate the available Driver Easy Speak and a hands-free microphone in the overhead console allows the driver's voice to be heard clearly through the rear speakers.

THREE-ZONE AUTOMATIC CLIMATE CONTROL Highlander comes with available Three-Zone Automatic Climate Control that lets the driver, front passenger and rear seat passengers select individual temperature settings.

MULTI-INFORMATION DISPLAY The Multi-Information Display provides valuable information on a variety of vehicle functions and systems, including fuel consumption history, average fuel economy, distance to empty, average speed, trip distance, and much more.

2,200 LITRES OF CARGO SPACE

Get where you need to go. Bring what you need to stay.

Highlander offers exceptional versatility to adapt to your ever-changing plans. For starters, the available power liftgate has an innovative height-adjustment memory feature that can be easily set to open to your preferred height every time. Inside, it comfortably seats up to 8 passengers, while the Limited models seat up to 7. The 1-step second-row sliding seat function makes it incredibly easy for third-row seat passengers to enter and exit the vehicle. The second and third-row seatbacks also recline so passengers can unwind on those especially long trips. We've even left enough room for a convenient foldable side table on the available second-row captain seats. Wherever your imagination takes you today, Highlander is ready to get you there.

ADJUSTABLE POWER LIFTGATE

SEATS 7 OR 8

ROLL-TOP CENTRE CONSOLE

AVAILABLE FLIP UP REAR GLASS HATCH WINDOW

Stop at your destination, not at the pumps.

As the world's first hybrid SUV, the Highlander Hybrid has an impressive and proven track record. With a combined fuel efficiency rating of 8.4 L/100 km (LE), constantly having to search for a pump is a thing of the past. And we didn't have to sacrifice power or performance in the process. It has an impressive 1,587 kg (3,500 lb.) of towing power and is equipped with electronic On Demand AWD-i. Highlander Hybrid generates as much as 280 total net horsepower¹⁴, which is more than many gas models on the road today. Highlander Hybrid proves that being friendlier to the environment doesn't mean having to give up the thrill of the drive.

VEHICLE PROXIMITY NOTIFICATION SYSTEM When travelling below 20 km/h and running solely on electric power, the Vehicle Proximity Notification System emits a series of tones to help alert pedestrians of the vehicle's presence.

EV OR ECO MODES Highlander Hybrid offers two different modes for different types of driving. EV mode drives solely on battery power for up to 1.6 km under certain conditions. For more economical operation in normal driving situations, ECO mode modifies throttle response to help reduce fuel consumption.

HYBRID SYSTEM INDICATOR Located in the instrument gauge panel is the Hybrid System Indicator, which provides the driver with a guideline to help optimize fuel efficiency.

ELECTRONICALLY CONTROLLED CONTINUOUSLY VARIABLE TRANSMISSION (ECVT) Highlander Hybrid comes equipped with ECVT, which delivers instantaneous power by seamlessly selecting the transmission ratio. This creates smoother acceleration for enhanced driving performance.

Hybrid Limited shown in Blizzard Pearl.

Off-road performance. On-road comfort.

Whether you're heading out on a long trip or just taking a spin around the block, the rugged and capable Highlander delivers an impressively smooth and comfortable ride – every time. Mated to its strong, stiff body structure is a retuned suspension system with optimized spring rates and shock absorbers. The MacPherson strut suspension up front is paired with a double-wishbone type suspension in the rear that enhances Highlander's handling, stability, performance, and overall ride quality and comfort. In addition to the impressive fuel efficiency you've come to expect from Toyota, is our reputation for reliability and durability, which is proven by the fact that over 85% of Toyotas sold in Canada in the last 20 years are still on the road today*. With the 2015 Highlander, taking the long, scenic route is now more rewarding than ever.

IMPRESSIVE TOWING Your experiences should never feel limited. With a towing capacity of up to 1,587 kg (3,500 lb.) on Highlander Hybrid, and up to 2,268 kg (5,000 lb.) on Highlander – you'll have more than enough power to pull a camping trailer with ease, or whatever else you may need while you're away.

6-SPEED AUTOMATIC TRANSMISSION Highlander features a 6-speed Electronically Controlled Automatic Transmission that improves fuel efficiency, while also enhancing acceleration performance. (Not available on Hybrid models).

AVAILABLE DYNAMIC TORQUE-CONTROL AWD
With the Highlander Dynamic Torque-Control AWD system, engine power is distributed from front-to-rear, giving the driver maximum control on a variety of surfaces. Highlander Hybrid offers Electronic On Demand AWD with intelligence. When additional traction is required, it automatically switches to AWD, utilizing an additional motor to drive the rear wheels.

Limited AWD shown in Ooh La La Rouge Mica.

It's got your back, your front, and your sides.

Keeping your family safe is our top priority. That's why the 2015 Highlander includes a long list of active and passive safety features designed to help give you the confidence you need to get to your destination safely. Inside you are surrounded by 8 standard airbags¹, so no matter what seat you're sitting in, we've got you covered. To optimize your vehicle's handling, the Tire Pressure Monitoring System evaluates your vehicle's tire pressure and issues a warning if one or more are critically low. And in the unlikely event of a collision, Highlander was designed with an impact-absorbing body structure that efficiently distributes impact energy, along with a high-strength body framework that reduces cabin deformation. With all of this and more, Highlander gives you the peace of mind to enjoy every drive.

DYNAMIC RADAR CRUISE CONTROL¹²/PRE-COLLISION SYSTEM¹¹ Highlander Hybrid is available with Dynamic Radar Cruise Control¹², which senses a vehicle ahead and automatically adjusts your vehicle speed to allow for a safe and comfortable distance between vehicles. Also available on Highlander Hybrid, the Pre-Collision System (PCS)¹¹ is designed to help recognize and anticipate unavoidable frontal collisions by automatically applying the brakes and retracting the front seatbelts to help you prepare for such a scenario.

LANE DEPARTURE ALERT¹⁰ The available Lane Departure Alert (LDA)¹⁰ on Highlander Hybrid uses a camera to monitor visible lane markings, alerting you if you are drifting.

BLIND SPOT MONITOR⁹ W/REAR CROSS TRAFFIC ALERT⁹ Highlander comes with an available Blind Spot Monitor (BSM)⁹ with Rear Cross-Traffic Alert (RCTA)⁹, which uses radar technology to help identify vehicles that may not be visible when changing lanes or backing out of a parking space. When a vehicle is detected, a warning indicator illuminates on the appropriate side view mirror.

BACKUP CAMERA When reversing, the 6.1-inch or available 8-inch touch-screen on the dash displays an image of what the camera sees behind you.

STAR SAFETY SYSTEM™

VSC VEHICLE STABILITY CONTROL

Helps prevent slips and loss of traction by reducing engine power and applying the brake force to the wheels that need it.⁶

TRAC TRACTION CONTROL

Helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).

ABS ANTI-LOCK BRAKE SYSTEM

Prevents brakes from locking up by "pulsing" brake pressure to each wheel to help you stay in control in emergency braking situations.

EBD ELECTRONIC BRAKE-FORCE DISTRIBUTION

Redistributes brake force to help keep the rear wheels from locking up during sudden braking situations.

BA BRAKE ASSIST

Detects sudden or "panic" braking and adds the full pressure needed to help prevent a collision.⁷

SST SMART STOP TECHNOLOGY

Smart Stop Technology is designed to reduce engine power when the brake is firmly applied helping to bring the vehicle to a stop, even if the accelerator pedal is fully depressed.⁸

8

AIRBAGS¹ Highlander comes standard with eight airbags, which include Dual-stage driver and front passenger airbags, Driver's knee airbag, Front passenger seat cushion airbag, Driver and front passenger seat-mounted side airbags, and Roll-sensing front and rear head/side curtain airbags.

Limited AWD shown in Ooh La La Rouge Mica.
LE AWD with Convenience Package shown in
Nautical Blue Metallic.

Nothing is more important than the safety of you and your family. And that's why every 2015 Toyota vehicle comes standard with the Star Safety System™. It integrates an array of active safety technologies that work together to protect occupants by helping drivers avoid accidents in the first place. Safety is our number one priority and that is why Toyota was the first manufacturer to make all of the elements of the Star Safety System™ standard on every new vehicle. No matter which Toyota you choose, you'll know it comes with peace of mind built right in.

Committed to Canadian Communities

Being a leader in the automotive industry does not simply start and finish with making great vehicles. It also means being a leader in the community. Toyota Canada and its dealerships across the country support non-profit programs that work to make a difference for Canadians in areas of environment, safety education and quality.

Together with Evergreen, we established the Toyota Evergreen Learning Grounds program, designed to transform Canadian school grounds into natural learning environments so students can have a healthy place to play, learn and develop a genuine respect for nature. Toyota also supports kartSTART, a program educating Canadian youth about vehicle safety in vehicles that fit them, go-karts. As part of our ongoing commitment to innovation, Toyota's Collaborative Safety Research Center is partnered with the University of Toronto in a study, designing feedback (alerts) in vehicles to help induce safer driving behaviours.

Visit us at toyota.ca to learn more about our programs and commitment to Canadian communities.

New vehicle warranty summary – No deductibles – no transfer fees

COMPREHENSIVE COVERAGE 3 years or 60,000 km. This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS 5 years or 100,000 km. This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS 8 years or 130,000 km. This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION 5 years/unlimited distance. This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

HYBRID-RELATED COMPONENTS** 8 years or 160,000 km. This warranty covers repairs to hybrid-related components that are defective in material or workmanship under normal use and maintenance.

**Includes: HV Battery, Battery Control Module, Hybrid Control Module and Inverter with Converter.

Disclaimers

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Toyota tests certain Bluetooth® capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual compatibility. Please see your Toyota Dealer for details. (4) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (5) The Toyota Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available for every city or roadway. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. (7) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. (9) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (10) Lane Departure Alert is not a collision-avoidance system or a substitute for safe and attentive driving. (11) The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system or a substitute for safe and attentive driving. (12) Dynamic Radar Cruise Control is not a collision-avoidance system or a substitute for safe and attentive driving practices. (13) DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. (14) The maximum output indicates engine plus HV battery output.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
