

2015

VENZA

**The 2015 Venza. Everything
you ever wanted and more than
you could ever imagine.**

*V6 AWD with Limited Package
shown in Cosmic Grey Mica.*

*FRONT COVER
Venza V6 AWD with Limited Package
shown in Blizzard Pearl.*

BLACK LEATHER INTERIOR

iPOD®/MP3 PLAYER HOLDER WITH USB PORT AND AUXILIARY AUDIO JACK

DISPLAY AUDIO SYSTEM*

Surround yourself with a scenic view.

Connected and comfortable – that’s what you’ll be in the 2015 Venza. A seamlessly integrated LCD screen displays key vehicle functions like climate control and fuel economy, while the available premium leather interior ensures that every drive feels first class. But that’s not where the refinement stops. A Display Audio System⁴ with Bluetooth^{®3} and wireless music streaming technology means you can stay connected to what’s important to you, no matter where you happen to be. And with you and your passengers sitting under the available panoramic glass roof with power tilt/slide moonroof, you’ll always be somewhere breathtaking.

PANORAMIC GLASS ROOF
Go ahead, lay back and stare at the sky through the available power tilt/slide moonroof above the front seats and a panoramic glass roof above the rear seats.

Venza AWD with XLE Package
shown in Magnetic Grey Metallic.

It can handle whatever the road throws at it. And whatever you throw in it.

If you need a vehicle that offers seemingly limitless versatility, you'll find it in the 2015 Venza. With an unbelievable 1,990 litres (70.1 cubic feet) of cargo space you can easily load in the stroller, pack the car full of groceries, or fill it up with all the camping gear you need for a weekend in the woods. And for those times when you need to carry passengers as well as cargo, rear 60/40 split seats means both can now travel comfortably together. Being able to easily stow your stuff is a big deal when you have a lot of stuff to store. That's why we created a deep, LED illuminated centre storage console where you can put and more importantly, quickly find items you need to bring on your journey. But the Venza isn't all about storage; it's also about comfort. And no one will appreciate that more than your passengers, who can enjoy a first class ride in the second row thanks to rear reclining seats and rear facing vents.

RECLINING REAR SEATS

EXTRA STORAGE

REAR SEAT VENTS

1,990 LITRES OF CARGO SPACE

It delivers performance inside and out.

Power. It's not easy to come by. That is unless you find yourself behind the wheel of a Toyota Venza. Getting to where you're going is always more enjoyable when you can press the accelerator and immediately feel the horsepower. Which is why when you're behind the wheel of our 268 hp V6, or our incredibly fuel-efficient 182 hp 4-cylinder, you're sure to have a smile on your face. Power is nothing without control. Built with a low centre of gravity, the Venza hugs the road in the corners. Its available All Wheel Drive (AWD) enhances stability and optimizes traction, which can come in handy when you're dealing with less than ideal road conditions. But what's maybe even more impressive than all the power and control that comes standard with every Venza is that over 85% of Toyotas sold in Canada in the last 20 years are still on the road today*. That sounds like another win.

4-CYLINDER AND V6 ENGINE

Venza's 182 hp 4-cylinder and 268 hp V6 engines are connected to a 6-speed Super Electronically Controlled Transmission that helps manage the engine's power. This means Venza will always offer smooth, seamless shifts and excellent fuel efficiency.

*Based on IHS Automotive: Polk Canadian vehicles in operation and new registrations MY 1995-2014 as of June 30, 2014.

V6 AWD with Limited Package shown in Blizzard Pearl.

Accidents happen in a fraction of a second. That's why we spent years perfecting our safety features.

7

AIRBAGS¹ Venza comes standard with seven airbags, including driver and front passenger airbags, a driver's knee airbag, front seat-mounted side airbags for the front occupants and front and rear head/side curtain airbags.

Your safety is our number one concern, that's why the 2015 Venza comes with a number of active and passive safety features. It's engineered with an impact-absorbing body structure that efficiently distributes impact energy in the event of a collision, along with a high-strength body framework that reduces cabin deformation. Active front headrests adjust to provide better head and neck support during certain low speed collisions. And of course, the Venza comes equipped with seven airbags. We've put a lot of innovative thinking into all of our safety features so that you can think about other things, like simply enjoying the drive.

1 CRUMPLE ZONES Front and rear energy-absorbing crumple zones and a collapsible steering column are designed to help dissipate impact force in a collision.

2 ACTIVE FRONT HEADRESTS Venza comes standard with active headrests on the front seats that adjust to better support the front occupants' heads during certain lower-speed rear-end collisions.

3 ANCHOR POINTS FOR CHILD RESTRAINT SEATS To help make installing child seats easier, Venza comes standard with lower anchors on the outboard rear seats and tether anchors on all rear seats.

4 TIRE PRESSURE MONITORING SYSTEM (TPMS) One of the best ways to help fuel efficiency and performance is to make sure tires are inflated correctly. TPMS is designed to alert the driver if one or more of the tires are critically low.

BLIND SPOT CONVEX MIRRORS The Blind-Spot Convex Mirrors extend your field of view on both the left and right side of the vehicle, allowing you to see if another car is approaching from either side.

AUTOMATIC HIGH BEAM SYSTEM A sensor located behind the rear view mirror helps enhance visibility at night by detecting oncoming vehicles, and depending on the circumstances, automatically switches your high beams off and on. (Limited Package)

BACKUP CAMERA When reversing, the 6.1-inch touch-screen on the dash displays an image of what the camera sees behind you.

STAR
SAFETY SYSTEM™

VSC VEHICLE STABILITY CONTROL

Helps prevent slips and loss of traction by reducing engine power and applying the brake force to the wheels that need it.⁶

TRAC TRACTION CONTROL

Helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).

ABS ANTI-LOCK BRAKE SYSTEM

Prevents brakes from locking up by "pulsing" brake pressure to each wheel to help you stay in control in emergency braking situations.

EBD ELECTRONIC BRAKE-FORCE DISTRIBUTION

Redistributes brake force to help keep the rear wheels from locking up during sudden braking situations.

BA BRAKE ASSIST

Detects sudden or "panic" braking and adds the full pressure needed to help prevent a collision.⁷

SST SMART STOP TECHNOLOGY

Smart Stop Technology is designed to reduce engine power when the brake is firmly applied helping to bring the vehicle to a stop, even if the accelerator pedal is fully depressed.⁸

Nothing is more important than the safety of you and your family. And that's why every 2015 Toyota vehicle comes standard with the Star Safety System™. It integrates an array of active safety technologies that work together to protect occupants by helping drivers avoid accidents in the first place. Safety is our number one priority and that is why Toyota was the first manufacturer to make all of the elements of the Star Safety System™ standard on every new vehicle. No matter which Toyota you choose, you'll know it comes with peace of mind built right in.

Committed to Canadian Communities

Being a leader in the automotive industry does not simply start and finish with making great vehicles. It also means being a leader in the community. Toyota Canada and its dealerships across the country support non-profit programs that work to make a difference for Canadians in areas of environment, safety education and quality.

Together with Evergreen, we established the Toyota Evergreen Learning Grounds program, designed to transform Canadian school grounds into natural learning environments so students can have a healthy place to play, learn and develop a genuine respect for nature. Toyota also supports kartSTART, a program educating Canadian youth about vehicle safety in vehicles that fit them, go-karts. As part of our ongoing commitment to innovation, Toyota's Collaborative Safety Research Center is partnered with the University of Toronto in a study, designing feedback (alerts) in vehicles to help induce safer driving behaviours.

Visit us at toyota.ca to learn more about our programs and commitment to Canadian communities.

New vehicle warranty summary – No deductibles – no transfer fees

COMPREHENSIVE COVERAGE 3 years or 60,000 km. This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS 5 years or 100,000 km. This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS 8 years or 130,000 km. This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION 5 years/unlimited distance. This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

Disclaimers

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Toyota tests certain Bluetooth® capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual compatibility. Please see your Toyota Dealer for details. (4) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (5) The Toyota Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available for every city or roadway. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. (7) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. (9) HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your Owner's Manual for further details.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
