

2015 Golf GTI

Live faster.

A blur when it gets going, the Golf GTI even looks fast when it's standing still. The classic red accents – red interior stitching and bright-red brake calipers – combine with the new available 18" Austin alloy wheels and LED fog lights for an aggressive look that's unmistakably GTI. And with a variable cargo load floor that can fit just about anything, it's practical, too. It's not science fiction; it's the new Golf GTI.

Key Features

Driver profile selection

Using the touch screen, you can choose between three different settings (Normal, Sport and Individual) for a drive that's tailored to you.*

Direct steering

With direct steering, it's possible to turn your Golf GTI with smaller movements of the steering wheel, making precision driving easier than ever.

Available 18" Austin alloy wheels**

Wide, aggressive 18" Austin alloy wheels grab hold of the road and help you corner like a pro.

Available front LED fog lights**

Not just nice to look at, front LED fog lights give you unparalleled visibility. And they are extra-efficient, using less energy and lasting longer than traditional bulbs.

Ambient interior lighting

The new interior LED lights put less stress on the car's electrical system and use less energy, saving you fuel.

5.8" touch screen infotainment system with proximity sensor

The intuitive touch screen infotainment system on the Golf GTI lets you swipe and pinch zoom, just like a tablet.*
