

# 2015 Jetta Turbocharged Hybrid

Some hybrids have all the fun.

Featuring our most advanced BlueMotion Technologies to date, the 2015 Jetta Turbocharged Hybrid takes a big step forward while leaving a small footprint behind. Start-Stop technology saves you fuel by shutting down the engine during complete stops and using the electric motor when coasting. And with an aerodynamically designed front end with active grille shutters, the Jetta Turbocharged Hybrid cuts through wind drag and cuts down fuel consumption incredibly well. The result is savings that prove our commitment to innovation is well worth the energy.

	Platinum Grey Metallic	ST
	Reflex Silver Metallic	ST
	Silk Blue Metallic	ST
	Deep Black Pearl	ST
	Oryx White Pearl*	ST

\*This feature exterior colour is available at extra cost.

## Key Features

### Bi-Xenon headlights with LED Daytime Running Lights (DRL) and LED tail lights

The Jetta Turbocharged Hybrid is designed to go further, even down to the lights. Its impressive LED DRL won't burn out as fast as traditional bulbs. Stylish LED tail lights shine brighter and get noticed, which is important when you're braking.

### Energy flow with zero-emissions mode

The Jetta Turbocharged Hybrid's touch screen helps you save fuel by showing your energy usage, battery charge status and time spent driving in zero-emissions mode.

### Climatronic® dual-zone electronic climate control

Control the climate to within 0.5 degrees of your set temperature for the entire car. Tailored temperatures mean happier passengers and happier drivers.

### 17" Buenos Aires wheels

Precise and stylish, these wheels bear the hallmark of Volkswagen. After all, carefully chosen details are paramount for a perfected look.

### Blind Spot Detection

The Blind Spot Detection uses radar sensors to detect when an object enters the blind spot on either the driver or passenger side of the vehicle.

### RNS 315 touch screen navigation system

When a car's this much fun to drive, you may not mind getting lost. But with touch screen navigation you'll always find your way.

### Jetta Turbocharged Hybrid

#### Engine:

1.4 TSI 150 hp, 7-speed automatic DSG with Tiptronic®

Maximum torque: 184 lb-ft at 1,600 rpm
