

2016

# TACOMA

TOYOTA

# Adventure? Yeah, it's up for that.

The all-new 2016 Toyota Tacoma is a piece of serious engineering that's ready for some serious adventure. It has 80 years of global truck heritage backing it up, with the kind of power and muscle you've come to expect from Toyota. The Tacoma is built to outperform, so you can do more than you ever thought possible. And Tacoma looks as good as it works, with sculpted, aggressive lines on the outside, and premium accents and convenient features on the inside. The redesigned 2016 Tacoma. It's built for adventure, today and tomorrow.

FRONT COVER/PAGE 2  
4X4 Double Cab V6 TRD Sport  
shown in Blazing Blue Metallic.

# Tough on the outside. Refined on the inside.

The redesign of the new 2016 Tacoma isn't just skin deep – it goes all the way inside as well. Every opportunity was taken to make sure you get the most out of your trip, while giving you an outstanding ride wherever you go. You'll see it in the premium soft-touch materials and sophisticated metallic accents. And you'll feel it in the comfort of available leather-trimmed upholstery, and dual zone climate controls. Best of all, Tacoma includes a host of advanced technology and convenient features right at your fingertips, so you can always stay connected to the things that matter to you most.

#### MULTI-INFORMATION DISPLAY

The available 4.2-inch colour Multi-Information Display can be customized to show info like your current kilometres, song selection, individual tire pressure and Multi-Terrain Select setting.

#### GoPro® MOUNT ON WINDSHIELD

Tacoma comes standard with an integrated GoPro® mount on the windshield, so you and your crew can share the good times with the world.

#### AVAILABLE Qi WIRELESS CHARGER

Leave the charging cable at home. Simply place your Qi-compatible device on top of the nonslip surface to charge up.

#### DISPLAY AUDIO SYSTEM<sup>4</sup>

The available Display Audio System<sup>4</sup> with Navigation<sup>5</sup> features a 7-inch touch-screen with Bluetooth<sup>®3</sup> wireless music streaming and a unique "text-to-speech" feature that converts text messages from your phone into voice messages, which play through the vehicle's speaker system.

#### AVAILABLE MOONROOF

An available power moonroof helps bring the outside in, giving you everything from a cool breeze to an epic view of the stars.

# Tough. Smart. In just the right combination.

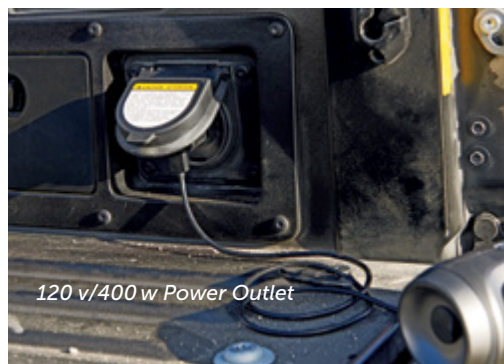

Like you, Toyota Pickups are ingeniously capable. Tacoma was built with serious engineering to allow for serious adventures, so you can take on any challenge with confidence. Tacoma is designed with a high strength steel triple tech frame to improve frame rigidity, as well as ride and handling. The bed features the durability you demand to take on heavy loads and endless use. Made from fibre-reinforced Sheet-Moulded Composite surface, the bed is dent-resistant, and corrosion-free – to keep your truck looking good for years to come. And you'll find that kind of attention to detail all over the vehicle, with convenient features that allow you to strap your gear down with ease to make sure when you're playing hard, nothing gets out of place. Then there's the easy lower tailgate, which opens using just two fingers, and can be quickly removed when needed. And as a final testament to its quality and durability, it's worth remembering over 90% of Toyota Pick-Ups sold in Canada in the last 20 years are still on the road today.<sup>12</sup> So you can count on Tacoma to outperform for many tomorrows to come.

**Performance.  
It's what Toyota trucks have been  
about for a long, long time.**

*4X4 Double Cab V6 TRD Sport  
shown in Blazing Blue Metallic.*

**80 years of  
global truck  
heritage make  
Tacoma the truck  
you can count on.**

Performance, quality, and durability are in Tacoma's DNA. In fact, Toyota trucks are backed by a legendary, storied heritage, with 80 years of proven dependability in the world's toughest terrain. Toyota trucks have had more entries in the Dakar Rally than any other brand. They were the first trucks ever driven to the Magnetic North Pole. And the South Pole. With a storied racing heritage that includes 304 off-road wins, 27 manufacturers championships, and 28 off-road drivers' championships, Toyota trucks are winners wherever they travel. Tested the world over, Toyota trucks are the perfect truck for Canada, giving you peace of mind year after year, from coast to coast.

*Toyota Hilux at the Dakar Rally.*

# Power and Strength. Just what working in Canada needs.

Tacoma offers the ingenious pairing of power and brute strength that you need to traverse Canada's toughest off-road obstacles and terrain. With both 4-cylinder and V6 options available and with your choice of Access Cab and Double Cab configurations, you can have the Tacoma that meets your needs perfectly. The all-new 3.5L Atkinson cycle V6 engine with D-4S Fuel Injection is particularly impressive, offering 278 hp and 265 lb.ft. of torque at 4,600 rpm. Tacoma also features a new 6-speed automatic transmission with electronic shift to help deliver quick and easy shifting. Couple that with Tacoma's finely-tuned suspension for smooth on-road and "go anywhere" off-road performance, and you'll be able to make the most out of any obstacle. But as nice as the drive is, the Tacoma pulls its weight where it counts, with a massive towing capacity of up to 6,500 lb. (4x4 Access Cab V6). That's the kind of strength you can count on today, and tomorrow.

**MULTI-TERRAIN SELECT** The available Multi-Terrain Select system regulates wheelspin by automatically adjusting the engine throttle and brakes, helping improve traction.

**BILSTEIN SHOCKS** Available Bilstein shocks help soak up the heavy dips and bumps to deliver a ride so capable, you'll mistake the off-road for the blacktop. Tacoma also offers ventilated front disc brakes that deliver confident stopping power no matter how bad the road or weather conditions are.

**TRAILER SWAY CONTROL (TSC)** When a vehicle is towing a trailer, various weather, road, and steering conditions can result in dangerous trailer sway. Standard on all V6 models, Tacoma's TSC is a system that detects trailer sway and applies brake pressure at individual wheels and controls engine torque to help stabilize the trailer. The system also illuminates the stop lamps to alert drivers to the fact that your vehicle is decelerating.

**ELECTRONICALLY CONTROLLED LOCKING REAR DIFFERENTIAL** Tacoma's available Electronically Controlled Locking Rear Differential distributes power evenly to both rear wheels, providing more grip in low-traction conditions. A steel sleeve actuator locks the slide gear into the ring gear, locking the rear axles. Once locked, the rear axle can apply all of its traction to help get you moving in the right direction.

**CRAWL CONTROL** Crawl Control automatically adjusts acceleration and braking when driving over jagged off-road terrain or on slippery surfaces and minimizes wheelspin and wheel lock-up enabling you to focus on the road ahead.

4x4 Access Cab V6 TRD Off-Road shown in Quicksand.

# All roads lead to safety. Even off-roads.

**8 AIRBAGS<sup>1</sup>** Tacoma comes standard with 8 airbags,<sup>1</sup> including: dual-stage driver and front passenger airbags, front seat-mounted side airbags, driver and front passenger knee airbags, roll-sensing front and rear head/side curtain airbags.

4X4 Double Cab V6 TRD Sport  
shown in Blazing Blue Metallic.

Tacoma is capable in every way – but especially when it comes to keeping you safe. Tacoma offers active and passive safety technology designed to give you and your passengers the confidence and peace of mind you need. In a collision, Tacoma's body structure absorbs and disperses the impact energy. It's also engineered with high tensile strength steel impact door beams to minimize cabin deformation in the event of a side-on collision. And that sense of safety and peace of mind continues with the Star Safety System™, which comes standard on the Tacoma. It offers advanced integration of safety technologies that includes Vehicle Stability Control,<sup>6</sup> Traction Control, Anti-Lock Brake System, Electronic Brake-force Distribution, Brake Assist,<sup>7</sup> and Smart Stop Technology.<sup>8</sup> All designed to help keep you safe and secure no matter where the road takes you.

**STAR**  
SAFETY SYSTEM™

**BLIND SPOT MONITOR<sup>9</sup> WITH REAR CROSS-TRAFFIC ALERT<sup>9</sup>** Tacoma comes with an available Blind Spot Monitor (BSM)<sup>9</sup> with Rear Cross-Traffic Alert (RCTA),<sup>9</sup> which uses radar technology to help you identify vehicles that may not be visible when changing lanes or backing out of a parking space. When a vehicle is detected, a warning indicator illuminates on the appropriate side view mirror.

**REAR PARKING ASSIST SONARS** Tacoma's available rear sonars notify you of obstacles that are detected behind the vehicle.

**BACKUP CAMERA** When reversing, the 6.1-inch or 7.0-inch touch-screen on the dash displays an image of what the camera sees behind you.

**TIRE PRESSURE MONITORING SYSTEM** The TPMS monitors whether one or more of the tires are critically low.

## Genuine Accessories

Personalize your Tacoma to enhance both its appearance and performance. Many of Toyota's Genuine Accessories can be residualized or advanced through Toyota Financial Services when purchased at the same time as your new vehicle, and yes, they are all backed by a Toyota Warranty. For a complete list of vehicle-specific accessories, visit [accessories.toyota.ca](https://accessories.toyota.ca) or your local Dealer.

## New Vehicle Warranty Summary – No deductibles – no transfer fees

### COMPREHENSIVE COVERAGE 3 years or 60,000 km.

This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

### POWERTRAIN COMPONENTS 5 years or 100,000 km.

This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

### MAJOR EMISSION CONTROL COMPONENTS 8 years or 130,000 km.

This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

### CORROSION PERFORATION 5 years/unlimited distance.

This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

## Disclaimers

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Do not use the hands-free phone system if it will distract you. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends upon software, coverage and carrier. (4) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (5) Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your Dealer. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. (7) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. (9) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (10) HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. (11) Payload = Passengers, Equipment, Luggage and Cargo. (12) Based on IHS Automotive: Polk Canadian (vehicles in operation and new registrations MY 1996-2015 as of June 30, 2015). (13) ®Aeroplan and the Aeroplan logo are registered trademarks of Aimia Canada Inc.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website [toyota.ca](http://toyota.ca) – or your Toyota Dealer is your best source for up-to-date information.
