Golf R

Das Auto.

Unforgettable rush.

When you drive the Golf R, you won't be on cloud nine. You'll be on cloud ten. With an incredibly powerful engine, 4MOTION[®] All-Wheel Drive, and driving mode selection, it's the closest you'll get to a race car in a hatchback. That's why they call it a hot hatch.

Technology

You'll never be behind the times in a hatchback that's this far ahead. It's all the technology you'd want to make every road trip memorable. And when you have a Golf R, you'll want to be on the road a lot.

Performance

Excitement. It's what you'll feel when you start the ignition. It's what you'll feel when you drive. It's what you'll feel in your Golf R.

Design

You don't want a showboat. You want a hatchback. So we designed every Golf R with a tasteful aesthetic that says sporty where it counts.

Technology with forward momentum.

Get ready for a ride that isn't just up to speed with the latest technology – it outpaces it. With features like the standard App-Connect and rearview camera, you'll be able to keep up with what's going on in the world almost as fast as you leave it behind.

App-Connect (Android Auto™, Apple CarPlay™, MirrorLink™)*

Connect to the things that matter most. The intuitive interface and voice command actions let you easily search online for songs, directions or even your favourite restaurant. So you'll keep your eyes on the road, and not on your screen.

Driving mode selection

Race, normal and comfort: three preset driving modes for three different driving experiences. It's said that good things come in threes, and we happen to agree.

Available Discover Pro*

Your technological hub. This 8" infotainment touchscreen with proximity sensors puts satellite navigation and music playback all at your fingertips.

*Do not drive distracted.

More power to you.

The Golf R has a ride you'll have to feel to believe – if you can keep up. With a powerful 292 HP 2.0 TSI® engine under the hood, and 4MOTION® All-Wheel Drive at your fingertips, performance isn't just a mantra. It's a way of life.

292 HP 2.0 TSI® engine

We've engineered the 2.0 TSI® engine to inject fuel precisely for maximum performance and maximum efficiency.

Fuel Consumption*	Engine	City L/100 km	Highway L/100 km
Manual	2.0 TSI®	10.9	7.7
Automatic DSG®	2.0 TSI®	10.4	7.9

*Fuel consumption figures are estimates based on Natural Resources Canada's approved criteria and testing methods. Your fuel consumption will vary.

Dynamic Chassis Control

You don't have to settle for a middle-of-the-road ride when you can opt for a dynamic one. Whether it's sport, normal or comfort, the suspension of your Golf R allows you to enjoy better steering responsiveness to handle any driving situation.

4MOTION® All-Wheel Drive

With 4MOTION® All-Wheel Drive, the 2016 Golf R can navigate unfriendly terrain with ease by instantly reacting to changes in traction at each individual wheel and redirecting power accordingly. The result is better grip, smoother handling and a more peaceful drive.

Cross Differential System (XDS)

Turn the corner on cornering with our standard wheel lock/stabilizer system. If a wheel spins after turning a corner, XDS will apply that wheel's brake while directing better grip to it. Sporty never felt so safe.

Available DSG® paddle shifters

Enjoy the convenience of an automatic with the thrill of a manual. Our DSG® paddle shifters allow faster shifting and unbroken acceleration for – you guessed it – unbridled fun.

Style that follows no one.

With its tasteful “R” design grille, bumpers and side skirts, the Golf R says sporty in an intense whisper, rather than a raucous yell. Because we know you don’t want a vehicle that’s flashy – you want a vehicle that’s a flash.

Black painted brake calipers with “R” logo

Our black painted brake calipers with “R” logo make you look fast even when you’re standing still. The irony isn’t lost on us.

“R” design front grille, bumpers and side skirts

Turn heads with our “R” design aesthetic features. Your Golf R won’t just be fast – it’ll look fast too.

Bi-Xenon headlights with Adaptive Front-light System

They’re brighter. They last longer. They consume less energy. And they’re smarter. In fact, the Bi-Xenon lights have an Adaptive Front-light System that turns up to 13 degrees around corners before you do. Smart indeed.

Comfort that's up to speed.

You're going to know your Golf R inside out. First you'll notice its leather top sport seats. And then you'll see the aesthetically pleasing "R" accents – a reminder of the unforgettable urban thrill ride to come.

Leather top sport seating surfaces with "R" accents

Wherever you're sitting in the Golf R, the leather-topped seats and "R" accents will make your seat feel like the driver's seat – especially if it's the driver's seat.

Interior ambient lighting

There's nothing worse than bad lighting. So we made sure to have good lighting. Suffice to say, it's easy on the eyes.

Safety in the hot seat.

It's easy to get a handle on safety in the Golf R – and not just because it handles like a dream. When you're in a vehicle that's filled with cutting-edge safety features like our available Lane Assist and available Adaptive Cruise Control, it's the safe way on the highway.

Available Park Distance Control*

Go ahead, try and fit in that spot. Sensors in the front and rear of the car will indicate if you're getting too close to surrounding vehicles.

Available Lane Assist*

Sensors send a vibration to your steering wheel when you drift outside of your lane, making sure that when you hit the road, you always stay the course.

Available Adaptive Cruise Control*

Adaptive Cruise Control is genius (if we may say so). It uses sensors to detect the vehicle ahead, and then automatically adjusts your speed to help keep you at a safe distance without ever needing to adjust the gas or brakes – even in stop-and-go traffic.

Standard rearview camera*

See what lies on the road behind. With a camera installed behind the Volkswagen emblem on the back of the car, you'll be able to see what's behind you when you're reversing.

*Driver assistance feature. Drivers must continue to perform manual checks before proceeding and pay full attention to the road.

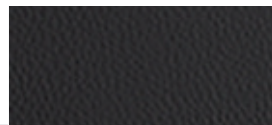

Standard Wheels

19" Cadiz alloy wheel
5-door

Exterior & Interior Colours

Volkswagen Canada is not responsible for errors in typography or photography. Some features may be unavailable when your vehicle is built or available at extra cost. Although we endeavour to ensure that the information is accurate, as errors may occur from time to time, customers should contact their local Volkswagen dealer for details. Tires are supplied and warranted by their manufacturer. The vehicle is sold equipped with summer performance tires. Appropriate all-season or winter weather tires are required for driving during cold, snowy or icy weather conditions. Please remember that the use of winter tires may be mandatory in your province or territory. Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear seats, using restraint systems appropriate for their size and age. The navigation system depends upon signals from the GPS network and is designed to provide you with suggested routes only. Discrepancies may occur between the mapping and the actual location due to changes in street names, construction or other road system changes which are beyond the control of Volkswagen Canada. Please rely on your individual judgment in determining whether or not to follow a suggested navigation route. Fuel consumption ratings are estimates based on Natural Resources Canada's (NRCAN) fuel consumption criteria and testing methods for 2016 model year vehicles and are provided for comparison purposes only. Please note that comparisons to seemingly similar vehicles pre-2015 model year will show discrepancies due to the difference in NRCAN approved calculation methods for 2014 model year and older vehicles. Please refer to NRCAN's Fuel Consumption Guide 2016 for estimated fuel consumption figures. Actual fuel consumption will vary based on driving conditions, driver habits and the vehicle's condition, weight carried and additional equipment.
