

# 2016 Jetta Turbocharged Hybrid

Unforgettable innovation.

From the beginning, our goal with the 2016 Jetta Turbocharged Hybrid was to give drivers a state-of-the-art fuel-electric vehicle that combines the efficiency of a hybrid with the incredible performance you expect of a turbo. So we equipped this Jetta with a 1.4L hybrid engine, added a turbocharger, and then topped it off with other innovative BlueMotion Technologies®, like a lighter and stronger chassis, Start-Stop technology, and regenerative braking. The result? A turbocharged hybrid – the only one in its class – that helps you save on fuel, but more importantly, gives you the feeling of exhilaration you’ve come to expect of a German-engineered car. Goal achieved.

## Exteriors & Interiors

	Titan Black Vienna leather
Pure White	✓
Platinum Grey Metallic	✓
Reflex Silver Metallic	✓
Ruby Red Metallic	✓
Silk Blue Metallic	✓
Deep Black Pearl	✓
Oryx White Pearl*	✓

\*This feature exterior colour is available at extra cost.

## Key Features

### Hybrid Start-Stop technology

Start-Stop technology saves fuel by shutting down the engine when the vehicle stops and restarting it when it accelerates. When coasting, hybrid Start-Stop technology shuts off the engine and decides whether or not the electric motor is required. If more power is needed, the engine kicks back in.

### Energy flow with zero-emissions menu<sup>†</sup>

The Jetta Turbocharged Hybrid's touchscreen helps you save fuel by showing your energy usage, battery charge status and time spent driving in zero-emissions mode.

### Bi-Xenon headlights with LED Daytime Running Lights (DRL) and LED tail lights

The Jetta Turbocharged Hybrid is designed to go further, even down to the lights. Its impressive LED DRL won't burn out as fast as traditional bulbs. Stylish LED tail lights shine brighter and get noticed, which is important when you're braking.

### 17" Buenos Aires wheels

Precise and stylish, these wheels bear the hallmark of Volkswagen. After all, carefully chosen details are paramount for a perfected look.

### App-Connect<sup>†</sup>

Think smart, with App-Connect, using either Android Auto™ from Google®, CarPlay™ from Apple®, or MirrorLink™. Its intuitive interface and powerful voice command actions let you easily search online for songs, directions or even your favourite restaurant, so you'll keep your eyes on the road, and not on your screen.

### Blind Spot Detection<sup>††</sup>

The Blind Spot Detection uses radar sensors to detect when an object enters the blind spot on either the driver or passenger side of the vehicle.

<sup>†</sup>Do not drive distracted. <sup>††</sup>Driver assistance feature. Drivers must continue to perform manual checks before proceeding.

### Jetta Turbocharged Hybrid

#### Engine:

- 1.4 TSI® 170 HP, 7-speed automatic DSG® with Tiptronic®
- Maximum torque: 184 lb-ft at 1,600 rpm

#### Includes from Jetta Comfortline:

- 4-wheel ABS (Anti-lock Braking System)
- 60/40 split folding rear seats with centre armrest and pass-through
- Alarm system
- App-Connect smartphone integration (Android Auto™, Apple CarPlay™, MirrorLink™)
- Auxiliary input
- Bluetooth® mobile phone connectivity
- Body-coloured bumpers and door handles
- Chrome grille
- Chrome window trim
- Climatronic® dual-zone electronic climate control
- Composition Media – 6.33" touchscreen infotainment system with proximity sensor, CD player, 6 speakers, and 1 SD card slot
- Cooled glove box
- Cruise control
- Darkened tail lights
- Diversity antenna
