

The new smart fortwo

# cabrio

» Let your city in.

Open up the soft top of your new smart fortwo cabrio and discover the city in a whole new light. Suddenly, there's something new and surprising to discover around every corner. And instead of just driving past it all, you're always in the thick of the action. Push the button and let's get moving.

## >> Highlights.

**The new smart fortwo cabrio:** The smart fortwo cabrio is packed full of ideas and innovations that make it a unique vehicle for getting around the city. Unmistakably smart, distinct and striking. When the roof bars have been removed and stowed away in the tailgate, the tridion safety cell points the way: forward, into the sun.

**FOR tighter turns:** Thanks to its length of just 2.69 m and the new Direct-Steer system with variable ratio, the turning circle of just 6.95 m measured from wheel to wheel takes some beating.

**FOR safer streets:** The smart fortwo cabrio is packed with features. The tridion safety cell is made of high-strength steels and encases the passengers like the hard shell of a nut.

**FOR fitting more fun:** With the smart fortwo cabrio it's not only the panorama that's larger than life. The interior is also generously dimensioned and offers plenty of air. Whatever you need every day – with a luggage compartment capacity of up to 340 L you can simply take it along with you!

**FOR more open air:** Opened or closed in 12 seconds flat. The smart soft top fully converts with the flick of a switch. If the sky opens up or you simply need some shade, it's operational at any speed, so you won't wait long. You can even partially pull it back with a special, sunroof setting.

**FOR a colourful city:** With over 60 possible exterior colour combinations and 5 interior upholsteries to choose from, you can really stand out from the pack.

## >> Colours.

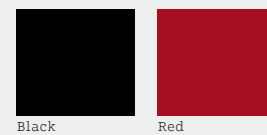

### bodypanel colours

### tridion safety cell
