**Part coupe, part sedan: the epitome of a well-appointed vehicle.** The 2017 CC Wolfsburg Edition is generously outfitted and powerful, coming standard with 4MOTION® All-Wheel Drive and a wealth of technology, and delivering sports-tuned driving dynamics. It's a well-polished standout in a sea of sameness. And, as a Wolfsburg Edition, all this added value comes with a remarkably affordable price.

#### Design & interior

With its crisp lines, its sleek silhouette and a sculpted dash that puts everything at your fingertips, you'll discover an elegant sophistication that's well in keeping with your ideas of refinement.

#### Performance

Don't let the sophisticated persona and classic design make you think this is simply a luxury ride. Once you find just the right road, you'll discover the inner soul of a sports car.

#### Technology

The 2017 CC Wolfsburg Edition not only looks sophisticated, it acts that way too, with innovative and thoughtful technology inside and out.

# The sound of quality.

Sometimes it's what you don't hear that makes a lasting impression. The CC Wolfsburg Edition is built using advanced manufacturing techniques for a flawless precision build you can depend on.

## Laser seam welding

Precision lasers allow for weld seams to be extremely narrow and precise, resulting in higher joint strength. This, in turn, leads to an extremely stable, rigid and quiet frame.

## Frameless door design

A hallmark of luxury automobiles, the frameless doors create a sleek, streamlined appearance and look especially elegant with the doors opened.

Advanced technology should be effortless.  
We made it so.

The 2017 CC Wolfsburg Edition puts an array of advanced technology right where it belongs – at your fingertips. We also put it in your ears with a sound system that has to be heard to be believed.

#### App-Connect\*

Connecting to what matters has never been easier. The intuitive interface and voice command actions let you easily search online for songs, directions or even your favourite restaurant. You can also dictate text messages and have incoming texts read to you. So you can keep your eyes on the road, and not on your screen. Works via Android Auto™, Apple CarPlay™ and MirrorLink™.

#### Premium colour multifunction display\*

Conveniently displays vehicle information like fuel range, outside temperature, trip information, lighting and security settings and more. You can also display information from other systems like radio, navigation and phone.

#### Dynaudio® premium sound system

This sophisticated sound system features 600 watts and 10 custom-positioned speakers, including a centre loudspeaker that delivers precise power in a small space. Enjoy impressive and highly dynamic deep-bass sound and pure, undistorted mid-range tones.

\*Do not drive distracted.

## A luxury ride that's nothing short of spectacular.

### 3.6L VR6 engine

Enjoy the power and muscular sound of six cylinders in a compact engine compartment. The secret is the innovative design that lets six cylinders occupy a small space – a configuration that also allows for a more spacious cabin.

The 2017 CC Wolfsburg Edition delivers the refined ride one would expect of a luxury coupe. But it's not afraid to show off its performance pedigree and curve-hugging expertise when you take to the open road.

### 4MOTION® All-Wheel Drive

Under normal driving conditions, 100% of driving torque is sent to the front axle to save fuel. If road conditions change, the system automatically shifts power to the wheel that has the most grip to ensure optimum traction on most surfaces even in adverse weather conditions.

### Sport suspension

A suspension design that gives your car a lower profile while delivering higher stability, control and performance around corners. That's what we call the whole package.

Fuel Consumption*	Engine	City L/100 km	Highway L/100 km
Automatic with 4MOTION®	3.6L VR6	13.9	9.3

\*Fuel consumption figures are estimates based on Natural Resources Canada's approved criteria and testing methods. Your fuel consumption will vary.

### Integrated rear spoiler

Subtle yet bold at the same time, the integrated rear spoiler adds a sporty flair and further enhances the vehicle aerodynamics.

### Bi-Xenon headlights with Adaptive Front-light System

They're brighter. They last longer. They consume less energy. And they're smarter. In fact, the Bi-Xenon lights have an Adaptive Front-light System that turns up to 13 degrees around corners before you do. Smart indeed.

# A good sense of style never goes out of style.

A graceful yet bold profile and subtle design cues hint at the overall refinement and quality that lie beneath. The 2017 CC Wolfsburg Edition was created for those who appreciate true attention to detail.

# It's all in the details.

From the moment you open the door, you'll know the 2017 CC Wolfsburg Edition is something a little out of the ordinary. No detail has been overlooked, from the premium finishes to the clever design features.

## Top sport seats in Nappa leather

Soft, supple and luxurious to the touch. Once you sink into these perfectly proportioned seats, you'll want to go for a very, very long drive.

## Black headliner

The black headliner adds a sleek, sporty look while also giving the driver the sense of not just being in the perfect vehicle, but being part of it.

## How do you stay protected? Let us count the ways.

You'd expect a premium luxury car like the 2017 CC Wolfsburg Edition to have safety features galore. We don't disappoint. Whether active or passive, you've got very powerful technology taking care of you.

Dramatization.\*

### Safety cage

You can't see it, but if a collision becomes unavoidable you'll know it's there. Hidden pillars form a rigid safety cell around the cabin, helping to reduce risk of injury or death.

### Standard rearview camera\*

Rearview mirrors and turning your head only tell you part of the story. Get a better view of what's behind you so you can avoid otherwise unseen obstacles and reverse into parking spots with greater precision.

### Tire Pressure Monitoring System (TPMS)

Know when your tires need attention so you can take the appropriate action right away. If there is a sudden loss of pressure, the driver is alerted by a warning light and sound for whichever tire needs attention.

### Intelligent Crash Response System (ICRS)\*\*

Looking out for you when you need it most, this automatic safety system disables the fuel pump, turns on the hazard lights and unlocks all doors in the event of a collision.

### Side Assist\*

The 2017 CC Wolfsburg Edition covers all angles. Side Assist monitoring system warns the driver of a potentially hazardous situation to the left, to the right, and up to 50 metres behind the vehicle. We've got your back. And your side.

\*Not all airbags will deploy, and if multiple airbags do deploy, they will be in various stages of inflating/deflating.

\*Driver assistance feature. Drivers must continue to perform manual checks before proceeding and pay full attention to the road.

\*\*ICRS will only engage if an airbag is deployed or a safety belt tensioner fires.
