

The 2021 Golf GTI

Often imitated Never surpassed

The iconic, versatile hatch has reached new heights. Power, style and versatility find perfect harmony in the iconic Golf GTI. The thrilling turbocharged engine with 228 horsepower, sport-tuned adaptive suspension and a flurry of performance features prove European muscle is not an oxymoron. Case in point.

Top Features

228 HP turbocharged engine

Accelerating gets exhilarating with 228 horsepower. To make matters more thrilling, a 6-speed manual transmission provides a great level of driver involvement, adding to the GTI's fun character. You can also choose the 7-speed dual-clutch (DSG) automatic gearbox, which offers near-instantaneous gear changes and can shift gears by itself, or via steering-wheel mounted paddles.†

258 lb-ft of torque

Widely acclaimed as the original "hot hatch", the GTI delivers on that promise with a punchy 258 lb-ft of torque available from 1,500 rpm – just above idle – all the way up to 4,400 rpm.

Dynamic Chassis Control

This advanced system allows you to adjust suspension damping firmness according to road conditions and driving style. Enjoy a smooth ride on your commute one day, or a sharp, responsive chassis on your favourite road the next.

Rear seat pass-through

This too shall pass. In addition to the folding rear seats, the Golf GTI comes with a rear seat pass-through, letting you slide and transport your longer items through the centre armrest.

Mechanical limited-slip differential

Turn the corner with confidence thanks to the Golf GTI's computer-controlled mechanical differential, known as Vorderachsquersperre – or VAQ for short. By precisely controlling the torque distribution between the front wheels, VAQ ensures confidence-inspiring traction when accelerating out of a corner or in slippery conditions.

†Please drive safely and obey all traffic laws, including speed limits.
