

SUBARU

The All-New
FORESTER

The SUV That Drive Differently

Unit shown variant S-EyeSight

Drive into adventure.

Face new challenges. Explore the great outdoors. Do all the things you always wanted to do. It's easy with the Forester's tough and powerful look that triggers your desire for adventure. Enjoy all your outdoor adventures while keeping everyone happy, comfortable, and safe. Drive the Forester, drive differently.

#DriveDifferently

Go anywhere. Try anything.

The redesigned Forester offers comfort, safety, and versatility to support you through all your daily adventures—while encouraging you to go on new ones. With a bolder, more powerful SUV design and the capability to back it up, the Forester gives you the peace of mind from knowing everyone's enjoying their time.

Unit shown variant S-EyeSight

Unit shown variant S-EyeSight

Performance you can trust. Capability you can feel.

The Forester gives you total driving confidence with its fun-to-drive nature, responsive handling, and outstanding ride comfort. Balanced and stable around turns even with its SUV height, the Forester's compact body is easily manoeuvrable and carefully engineered to reduce fatigue on extended adventures for an enjoyable driving experience for all. And with Symmetrical All-Wheel Drive and the improved X-MODE, you can reach your destination with comfort and peace of mind.

X-MODE and Hill Descent Control

Choose between [SNOW/DIRT] or [D.SNOW/MUD] for confident and secure driving on rough roads with the dual-function X-MODE. Instead of turning off at increased speeds, the improved system keeps your selected mode on standby to automatically restore it once you return to lower speeds, so you can focus on driving without having to keep turning it back on. Plus, Hill Descent Control helps maintain a controlled and constant speed even on slippery downhills, adding even more peace of mind to your drive.*1*2

SI-DRIVE

Select Intelligent Mode for balanced, smooth, and environmentally friendly performance, or Sport Mode for an immediate and linear torque-rich throttle response for sporty and smooth driving at any speed.

High Ground Clearance

The Forester was designed for not only high SUV ground clearance, but also with careful consideration for approach, departure, and break-over angles. All have been optimised to help you conquer obstacles without sustaining damage or getting stuck.

*1 Dual-function X-MODE only available only on S-ES variant.

*2 Driver is always responsible for safe and attentive driving. Effectiveness of Hill Descent Control depends on many factors such as vehicle maintenance, weather, tyre, and road conditions.

Plenty of space for all your memories.

An expanded cargo area, easier-to-use power rear gate*1, a cargo light, and upper cargo hooks*2 are just some of the things that make the Forester the most versatile and convenient yet. Supportive of even the most active lifestyle, Forester is ready to help you do all the things you love doing, and make each adventure more meaningful.

01 Cargo Area

The wide opening and square design make it easier to organise, load, and unload even large objects without need to tilt them. The backs of the 60/40-split folding rear seats have been optimised for a flat cargo floor that makes loading long items easy. Plus, the sides of the cargo area are made of easily wiped-clean, durable material on which dirt and scratches are hardly noticeable, so you can enjoy any outdoor activity with peace of mind.

02 Power Rear Gate*1

The power rear gate allows access to the cargo space with a single switch, even when your hands are full. The inner lock switch lets you conveniently close the rear gate and lock all doors at the same time.

03 Cargo Hooks

The 12V power supply, rear seat folding switch, and bag hooks are consolidated in the same area for ease of use. Cargo net hooks allow convenient luggage net use while two upper cargo hooks*2 allow more effective use of the tall cargo area when parked. (Cargo net is not provided)

*1 Available only on S-ES variant.
 *2 Not for hanging heavy items. Loading capacity of each upper hook is 3kg. Please ask your authorised Subaru retailer for more details.

Enjoyment for everyone on the road.

The Forester provides comfort to every passenger, in every seat. Its convenience begins even before you enter the vehicle, as the door openings were designed for easy seat access for anyone.

Centre Console Box

The centre console box compartment is large enough to store your electronic devices like small tablets. There's also a 12V power socket inside for your convenience.

Power Sunroof*

The available inner-sliding sunroof's large opening provides a sense of spaciousness while leaving plenty of headroom for all passengers.

Convenient Seat Access

Seat height, side sill placement, and door pillar design allow smooth seat access for rear passengers.

Side Sill Steps

The rear side sill steps are wide, flat, and have a slip-resistant surface for convenient roof rail use.

* Available only on S-ES variant.

Feel connected, wherever you go.

Safely enjoy the conveniences of smartphone connectivity while on the go, with services such as Apple CarPlay*1 and Android Auto*2. Designed with both advanced functionality and ease of use in mind, the Forester provides you with advanced infotainment functions and intuitive controls. Combined with comfortable front seats that encourage a natural driving position, you'll feel right at home, no matter how far you go.

Apple CarPlay*1 and Android Auto*2

Use today's most popular apps with Apple CarPlay*1 and Android Auto*2. Voice recognition capabilities allow hands-free use, keeping everybody safe while reducing distractions when you're on the road.

Multifunction Display

The 6.3-inch LCD multifunction display at the top of the instrument panel provides you and your passengers with useful information in an easy-to-understand view. When the navigation system is in use, it connects to the multifunction display and shows turn-by-turn information when approaching intersections or turns.

Meter Display

The 4.2-inch full-colour LCD meter display helps you understand useful driving information with a quick glance so you can keep your eyes on the road.

Front and Side View Monitors*3

The front grille camera can project the vehicle's front view via the multifunction display, increasing front visibility at intersections and when parking facing a wall. The Side View Monitor displays blind spots diagonally in front of the passenger side to make navigating narrow roads easier and street parking more convenient.

Premium Audio System with Harman/Kardon Speakers*3

Featuring Harman/Kardon's latest technology, GreenEdge, the premium audio system includes 9 Harman/Kardon speakers and improved acoustics for a richer audio experience.

Interior Decorations

Stylish instrument panel and door trim decorations complement the interior to create an refined atmosphere that's also active and sporty.

*1 Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

*2 Android and Android Auto are trademarks of Google Inc.

*3 Available only on S-ES variant.

Apple CarPlay and/or Android Auto may not be available for all models and regions.

Please contact your local authorised Subaru retailer for more details.

Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen while driving.

Trust What's Inside

Subaru's core technologies provide every Subaru with the performance, comfort, safety, and reliability that deliver enjoyment and peace of mind to every passenger.

01

SUBARU BOXER Engine

A boxer engine, or a horizontally opposed engine, is an engine configuration in which its pistons move toward each other in a horizontal direction. Subaru has been committed to the SUBARU BOXER engine for over 50 years for its many advantages over other engine types, providing durability and reliable performance in its vehicles.

Naturally Balanced
The engine's flat design is inherently rigid and self-balancing, generating less vibration than other engine types.

Increased Stability
The low centre of gravity and flat design give it better side-to-side stability than other engine types.

02

Symmetrical All-Wheel Drive (AWD)

Subaru's Symmetrical AWD distributes power to all wheels for better traction on wet and slippery roads. Laid out in a horizontally symmetrical plane, this system has a well-balanced low centre of gravity design for a more stable and safer ride.

03

Lineartronic + Active Torque Split AWD

Lineartronic adjusts to any ratio in its range for smooth and stepless gear changes that keep the engine in its most efficient range for efficient and smooth acceleration, driving performance and better fuel efficiency. It comes paired with Subaru's active torque split AWD system. Its default torque is well-balanced front to rear and adjusts in response to real-time traction conditions.

04

Subaru Global Platform

The Subaru Global Platform (SGP) is the underlying platform that will underpin the next generation of Subaru vehicles. Enhancing all-around safety and performance, it goes beyond better performance to offer a driving feel you can only find in a Subaru. It's the future of Subaru—and delivers even more enjoyment and peace of mind to all drivers and passengers.

More Fun to Drive

More responsive handling allows you to steer the car just as intended for better hazard avoidance. Even with its high ground clearance, the Forester securely hugs the road around turns, resulting in a car that's safer and more fun to drive, even on long trips.

Ride Comfort

Improvements in chassis rigidity, suspension, and stabilisers efficiently absorb shocks from the road and hide uneven surfaces, allowing more comfort and less fatigue on long rides.

Comfortable Cabin Space

Unpleasant vibrations and noise have been reduced to ensure all passengers enjoy the ride. Suspension improvements and a highly rigid chassis allow for a comfortable cabin interior for all.

Subaru All-Around Safety

At Subaru, safety comes first. That's why Subaru has been fine-tuning, testing, and retesting its advanced safety features for over 50 years. With the latest in collision protection/avoidance systems and core technologies like Subaru Global Platform and Symmetrical AWD, Subaru continues its 'people first' policy by improving All-Around Safety and envisions an accident-free future.

The Forester achieved the maximum 5-star overall rating in the 2019 Euro NCAP safety performance tests.

PRIMARY

Outstanding visibility, optimal driving position, and intuitive controls help keep you safe from the moment you enter your vehicle.

ACTIVE

Core technologies like Symmetrical AWD and SGP allow precise control of the basic elements of driving—driving, turning, and braking.

PREVENTIVE

Advanced safety technologies such as EyeSight*1 helps avoid collisions before they happen.

PASSIVE

Designed to keep you safe in the event of a collision with features such as the cabin-protecting engine layout and SRS*2 airbags.

PREVENTIVE

Steering Responsive Headlights (SRH)

See better around corners in the dark for safer nighttime driving. These headlights turn with steering input to aim your lights in the direction your vehicle is turning.

PASSIVE

Supplemental Restraint System (SRS)*2 Airbags

Front SRS*2 airbags, front side SRS*2 airbags, curtain SRS*2 airbags, and a knee SRS*2 airbag come standard on the Forester to give all passengers a higher level of protection in the event of a collision.

PREVENTIVE

Subaru Rear Vehicle Detection (SRVD)*3*4

Sensors in the rear corners alert you of vehicles in your rear blind spots for safer lane changes and warns you of potential collision danger while driving in reverse.

PREVENTIVE

High Beam Assist (HBA)*3*4

Increases visibility and safety when driving at night by toggling the high beams on and off automatically, depending on driving conditions.

PRIMARY

Visibility in all directions

Easily check your surroundings. Optimal driving position, window heights, and carefully arranged pillars provide excellent visibility in all directions to reduce blind spots.

ACTIVE

Auto Vehicle Hold (AVH)

Reduces driver fatigue when stopped at a signal, in traffic jams, or on a slope. AVH holds the vehicle in place even with your foot off the pedal when at a complete stop.

PASSIVE

Ring-shaped Reinforcement Frame

Protects the cabin area with structurally redesigned high-tensile steel panels for better collision impact energy absorption from all directions.

PASSIVE

Cabin-protecting Layout

The reinforced pillars and frame all work together within the Forester's SGP design to absorb collision impact from all sides to protect all passengers. In the event of a frontal collision, the engine and gearbox are designed to be pushed below the vehicle instead of crashing into the cabin.

ACTIVE

Vehicle Dynamics Control System

Adjusts AWD torque distribution, engine output, and brakes at each wheel to help keep the vehicle on course when making turns.

ACTIVE

Hazard Avoidance

The low centre of gravity design, enhanced suspension system, and rigidity improvements provide a vehicle that responds immediately to driver input, helping avoid hazards on the road.

*1 EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight, including functions in this brochure.

*2 Effective when used in conjunction with seatbelts.

*3 Available only on S-ES variant.

*4 The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on the Advanced Safety Package features for safe driving. There are limitations to the features of this system. See Owner's Manual for complete details on system operation and limitations. Please ask your retailer for more details.

Subaru EyeSight Driver Assist Technology

Available only on S-ES variant.

Completely re-engineered with a host of new and advanced functions, EyeSight provides drivers with even more peace of mind on the road. Updates to both image recognition and control software, plus hardware improvements like windshield integration, enable even more confident and safer driving in many real-world driving situations.

Pre-Collision Braking System

A new stereo camera with a wider angle of view and improved image recognition and control software helps avoid collisions at intersections.

Adaptive Cruise Control

A comfort and convenience on long drives, Adaptive Cruise Control maintains a set distance from the vehicle ahead by continuously monitoring the distance and speed difference. Useful on freeways, highways, and similar roads, it can detect a lead vehicle and its brake lamps to keep pace in stop-and-go highway traffic.

Lane Departure Prevention

Makes long drives stress-free by helping you stay in your lane. By recognising lane markings, and assisting with steering wheel operation, it can help keep your vehicle in the lane.

Lane Keep Assist

Reduces driver fatigue and stress by recognising lane markings and the vehicle ahead to assist with steering wheel operation and help stay in the centre of the road.

Pre-Collision Throttle Management

When there is an object in front and you put the gear in Drive instead of Reverse, the system can alert you with a buzzer and flashing indicator and cuts engine power to minimise possible frontal impact force and damage.

VARIANT

FORESTER 2.0i-S EyeSight

DIMENSIONS..... L x W x H: 4640 x 1815 x 1730 mm
ENGINE..... Horizontally opposed, 4-cylinder, 4-stroke,
DOHC 16-valve, petrol
CAPACITY..... 1995 cc
MAX OUTPUT..... 115 kW (156 PS) / 6,000 rpm
MAX TORQUE..... 196 Nm (20.0 kgfm) / 4,000 rpm
