2022 4RUNNER

Choose your own adventure.

The best adventures in life aren't found on a map.

Toyota trucks are made for the kinds of conditions you'll find in Canada. They have been tested all over the world, in some of the toughest environments imaginable. That spirit continues with the 2022 4Runner. Even on uncharted roads, the 4Runner performs with the confidence of an SUV that's driven there a hundred times over. With several unique models to choose from, including the stylish SR5 and Limited, or the performance-tuned Trail, TRD Off Road, TRD Pro, or TRD Sport, there's a model suited for every type of explorer – the challenge is choosing what kind of adventure you want to create today.

[TRD PRO: Learn More](#)

INTERIOR DESIGN

Comfortably take charge.

Thoughtfully designed to handle every exciting moment.

4Runner comfortably seats up to seven passengers and offers an expansive cargo space when the rear seats are folded down flat. The premium interior features a host of convenient amenities such as Heated Front Seats, Backup Camera, Push Button Start, and Dual Zone Automatic Climate Control. 4Runner is also compatible with Apple CarPlay^{®1} and Android Auto^{™1}, which give you direct access to a range of helpful features that make the journey just as enjoyable as the destination.

[Learn More](#)

PERFORMANCE

Proven toughness.

The trail doesn't end until you tell it to.

An adventure spent planning every next move isn't an adventure. That's why we've thoughtfully engineered the 2022 4Runner for every unpredictable moment that lies ahead. It features a reinforced body-on-frame construction and 270 hp V6 engine, which has the outstanding power to tow up to 2,268 kg (5,000 lb.).² The available Full-Time 4-Wheel Drive and locking centre/rear differential give you the power and control you need to take on every type of trail. For unruly terrain, 4Runner also comes equipped with a standard Downhill Assist Control,³ and Active Traction Control gives you the added traction you need when handling descending slopes.

Water fording is prohibited and illegal in certain jurisdictions. Do not attempt without first checking local laws. Always obey all laws, use common sense and respect the rights of others.

PERFORMANCE

Face any challenge with confidence.

CRAWL CONTROL

The available Kinetic Dynamic Suspension System (KDSS) and Crawl Control are meant to help keep optimal traction, even on uneven terrain. KDSS automatically adjusts the suspension system for better wheel articulation, while Crawl Control automatically modulates the throttle and brakes on five low-speed settings.

LEVER-TYPE TRANSFER CASE

4WD vehicles require a system to transfer power from the transmission to all four wheels. 4Runner TRD Off Road has a lever-type transfer case that allows you to easily switch to low range to help clear the roughest challenges.

MULTI-TERRAIN SELECT

Available Multi-Terrain Select allows you to choose from four modes that will regulate wheel spin by adjusting the engine throttle setting and braking pressure to provide you with maximum traction in various off-road situations.

APPROACH WITH CONFIDENCE

4Runner encourages you to take on the toughest trails. Up to 9.6 inches of ground clearance, an approach angle of 33 degrees, and a departure angle of 26 degrees on 4Runner TRD Off Road help keep the adventure going.

SAFETY

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™⁴ (TSS-P) is always there to help keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2022 4Runner, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

DYNAMIC RADAR CRUISE CONTROL⁵

Using forward-sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

LANE DEPARTURE ALERT WITH STEERING ASSIST⁶

Alerts you if you start to drift out of your lane when visible lane markings are detected. The Steering Assist function may also provide small corrective steering inputs.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION⁷

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection may also help to detect pedestrians and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS⁸

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

DRIVETRAIN

- 4.0 Litre, V6 Engine with 270 hp @ 5,600 rpm & 278 lb. ft. of Torque @ 4,400 rpm
- Dual Variable Valve Timing with intelligence, Sequential Multiport Electronic Fuel Injection
- Part-Time 4WD System, One-Touch 4WD with Electronically Controlled Transfer Case, Trailer-Sway Control, Fuel Tank & Transfer Case Protector Plates
- Independent Front Coil Spring High-Mounted Suspension, Double-Wishbone with Stabilizer Bar & Gas-Filled Shock Absorbers
- 4-Link Rear Coil Spring Suspension & Gas-Filled Shock Absorbers
- 5-Speed, Automatic, Super Electronically Controlled Transmission, Lock-Up Torque Converter, Transmission Cooler
- Power-Assisted, 4-Wheel Ventilated Discs
- Towing Capacity: 2,268 kg (5,000 lb.)²
- Combined City & Highway Rating 13.8 L/100 km 20 mpg¹⁰

ENTERTAINMENT & CONNECTIVITY

- 8" Touch Screen, 8-Speakers
- Apple CarPlay^{®1} Compatibility
- Android Auto^{™1} Compatibility
- 1 USB Charging Port, Auxiliary Input Jack, Bluetooth[®]
- 4.2" Full Colour Multi-Information Display

INTERIOR

- Black Fabric Seat Material with Tan Stitching
- 5-Seat Capacity
- Manual Climate Control
- Power Adjustable 8-Way Driver & 4-Way Manual Front Passenger Seats
- 40/20/40 2nd-Row Rear Seat with Fold-Down Seat Back
- Leather-Wrapped Steering Wheel & Shift Knob
- Rear Sliding Cargo Tray

EXTERIOR

- Available Colours: Army Green (6V7)
- Yakima Roof Basket
- "TOYOTA" Cooler
- Running Boards, Silver Painted Roof Rails, Front & Rear Splash Guards
- LED Headlamps (Low Beam only), LED Fog Lamps
- Black Badging Overlays
- 17" TRD Dark Grey Off-Road Style Aluminum Alloy Wheels & P265/70R17 All-Season Tires

SAFETY

- Toyota Safety Sense[™] (TSS-P)
- Star Safety System[™]
- 8 Airbags
- Vehicle Anti-Theft System
- Tire Pressure Monitoring System
- Hill-start Assist Control, Downhill Assist Control³

Toyota Financial Services can help you get behind the wheel of a new Toyota faster with quick & easy online pre-approvals.

[Financial Services](#)

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (2) Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. Installation of a tow hitch receiver or other accessories located near the rear bumper may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. See Owner's Manual for limitations. (3) DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. (4) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (5) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (6) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (7) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (8) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (9) Not all exterior and interior colour options are available for every model. (10) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (11) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (12) Services are dependent upon connection to a compatible 4G wireless network, provided by a third-party wireless service provider. Toyota is not responsible for 4G cellular network discontinuance and will not provide compensation for reduced service availability. Based on current information, 4G network availability may end as early as 2029. (13) Active DCM required. DCM is active during connected services trial periods or with a paid subscription for connected services. Waiving your connected services will deactivate the DCM.

Details on the above features can be found in the Owner's Manual or through your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
