# colourful

When it comes to being noticed in a Santa Fe, you can take your pick from five standard colours and two exclusive special order colour options. Make your choice and put your own individual stamp on your new car.

A metallic finish is achieved by adding aluminium flakes to the paint and then applying a coat of clear lacquer. The mica finish adds an extra depth of lustre with the inclusion of mica particles in the paint layer.

Inside you can select from Black, Grey or Beige<sup>▼</sup> colour schemes, plus a choice of leather (standard on CDX and CDX+ models, optional extra on GSI) or cloth upholstery (standard on GSI only). Cherry wood and alloy effect fascia and door inserts are available on GSI models, whilst CDX and CDX+ benefit from rich maple and alloy effect finishes.

The Santa Fe is a car to be seen in and will turn heads as well as it turns corners.
