RRP (Recommended Retail Price)

* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at €38), petrol/diesel, and apply to the United Kingdom only.

** All vehicles will be subject to vehicle excise duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). The weight of a vehicle will influence the level of CO₂ emitted. As a result, vehicles with higher levels of specification may emit higher levels of CO₂. Once a car has been built it will be given its own specific CO₂ emission on which the Vehicle Excise Duty will be charged. The VED bands are shown in the table on the opposite page.

† Stock vehicles only, please speak to your local Škoda Retailer for details.

Standard Equipment

ABS + EDL (for 2.0 115bhp and 1.8T 150bhp only)

ABS + EDL + ASR + MSR

(for 1.9 TDI PD 100bhp and 1.9 TDI PD 130bhp only)

Škoda Superb features and benefits

Climatronic electronically regulated air-conditioning

Air conditioning offers great advantages over standard ventilation and the first is keeping your car cool during the summer months. But surprisingly becomes an effective tool in winter, demisting the windows faster than standard ventilation. Other added benefits include increased residual values and desirability. Standard on all models.

ESP - Safety

This is a completely automatic function, where the driver has the option of switching it on or off. The most remarkable characteristic of ESP is that it ensures the vehicle follows the path desired by you according to the rotation of the steering wheel. This makes some unorthodox driving manoeuvres difficult and near impossible (slides and spins). Standard on all V6 engines. Optional on Classic, Comfort and Elegance.

Rain sensor

The rains sensor provides you with comfort and safety whilst travelling. It's located on the inside of the windscreen, and detects rainfall, automatically activating the wipers at the appropriate speed. The sensor allows you to concentrate on the road ahead, whilst clearing the windscreen when necessary. Standard on Comfort and Elegance.

Bi-Xenon Headlights

Increase brightness up to 2.5 times more than halogen lights whilst using 35% less energy giving you the added benefit of increased visibility at night. Bi-Xenon headlights work on high and low beam. Standard on Elegance.

ABS + EDL - Safety

ABS requires no conscious thought, training or additional maintenance. Drivers simply have to react as they normally would in an emergency - jam on the brakes. but with ABS they retain steering control.

Cruise Control

Provides you with comfort on long journeys by assisting you to maintain safe driving speeds by setting your speed as the circumstances dictate. Standard on Comfort and Elegance.

Parking Sensors

These will assist you when parking your vehicle by informing you when you are approaching objects or other vehicles through an audible tone. This is always a better solution than bodywork repairs. Standard on Comfort and Elegance.

Height adjustable steering wheel + height adjustable driver's seat

Enables you to get comfortable in your car. This not only helps on a long journey but adds to your safety.

3 year / 60,000 Mile Warranty

ŠkodaAuto are pleased to provide a two year unlimited mileage warranty. In addition, ŠkodaAuto UK provides a further warranty on new vehicles supplied by them through their appointed retailer network which is valid until the vehicle has completed 60,000 miles or the end of the third year, whichever is the sooner (see page 21 for more details).

Inclusive AA cover for 3 years

Accessed through a dedicated Freephone number, this free back-up service covers your Superb for Roadside Assistance, Relay and Relay Plus, Home Start and includes European cover.

Cargoflex

A flexible storage system in the boot of the Superb. Flick a lever and click Cargoflex into position, pull towards you and open it up. A handy easy to use storage facility to stop your shopping sliding around. Optional on all models.

Driver and Passenger Front, Side and Curtain airbags

The airbags fitted will immediately inflate if your car is struck. This function will improve the safety of the occupants in the front seats at the time of any impact. Standard on all models.

6 CD autochanger

The 6 CD autochanger will aid your comfort on the longest and shortest of journeys. Concealed for security behind a cover in the boot, allows you to play 6 discs on the 'Symphony' stereo. Optional on Classic, Standard on Comfort and Elegance.

Umbrella in rear door

A full size umbrella in the rear door, enabling you to stay dry in the typical British climate. Water drains through channel in door so putting your wet umbrella in is not a problem. Standard on Comfort and Elegance.

Catvision

Two red LED's positioned in the roof of the Superb provides an ambience light at night highlighting the contours of the dashboard, so that the driver doesn't feel disorientated when looking for a button. Standard on all trims.

Remote control central locking - safety and assurance

This function enables you to unlock your car whilst you are walking towards your vehicle even with your hands full.

Solar Sunroof

When the vehicle is parked in direct sunshine, the solar units inside the sunroof generate electricity that is used to drive the ventilator keeping your vehicle cool. NB: All vents should be left open

Power transmission

Clutch Manual transmission: Hydraulically-activated single-plate dry clutch with diaphragm spring, asbestos-free coating. Automatic transmission: hydrodynamic torque converter.

Manual transmission Manual 5-speed fully synchronised (6-speed for V6 TDI, 6-speed 2.0 TDI PD)

Automatic transmission 5-speed tiptronic transmission

Chassis

Front axle/rear axle Multi-link with four transverse control arms and torsion stabiliser/compound link crank-axle with torsion stabiliser.

Braking system Hydraulic dual circuit braking system with diagonal interconnection, vacuum assisted.

Front brakes Disc brakes with hollow brake wheels, and single/piston floating calliper.

Rear brakes Disc brakes with full discs.

Handbrake Mechanical handbrake operating on rear wheels.

Steering Direct rack and pinion steering power assisted.

Turning circle (m) 11.8

The Superb's comprehensive range of petrol and diesel engines optimise power, performance and economy while providing choice to suit your individual driving style.

Transmission: Depending on the engine, the Superb is fitted as standard with either a five or six speed manual transmission. As an option, an adaptive Tiptronic automatic transmission is available for the 1.8T 20V 150bhp and V6 193bhp petrol engines and the 1.9 TDI PD 130bhp and the V6 TDI 160bhp diesel engines (see above for trim availability). This intelligent five-speed automatic system electronically adapts to both your driving style and the prevailing road conditions and can, if required, be switched to manual transmission without clutch pedal.

Tank

Fuel tank content 55/7 litres

Fuel Lead-free petrol with RON 95 or Lead-free petrol with RON 91[†].

Bodywork

Bodytype 5-seater, triple-space steel bodywork, 4-door, steel, fully galvanized (body)

Official fuel consumption for the Superb range in mpg (litres/100km):

urban 18.1 (15.6) – 39.2 (7.2);
extra urban 38.2 (7.4) – 60.1 (4.7);
combined 27.2 (10.4) – 50.4 (5.6).

[†] Lower efficiency when using lower RON petrol.

*** Please note that the 1.9 TDI PD 100bhp is being replaced by the new EUIV 1.9 TDI PD 105bhp engine. The 1.9 TDI PD PD 130bhp is being replaced by the new EUIV 2.0 TDI PD 140bhp engine. At this time there will be no replacement for the deleted 1.9 TDI PD Tip 130bhp engine. The new EUIV engines will start production in week 42, week beginning 17th October. Please speak to your local Retailer regarding availability of these models.

Škoda Superb and the environment

ŠkodaAuto views the development and manufacture of environmentally friendly products as one of its foremost priorities, and this in all phases of the products' life cycles. In order to fulfil this criterion we have taken the following steps in the manufacture of our vehicles:

We have placed the main emphasis on the use of recycled materials. The parts used in the Superb are marked according to appropriate standards. This allows their fast identification during disassembly and any subsequent separation of various groups of parts. Construction design of these parts is optimised with regard to their easy and fast disassembly when the vehicle is being dismantled at the end of its life cycle.

We manufacture Škoda vehicles using progressive technologies in the most modern production facilities which correspond to the highest and strictest criteria. For anti-corrosion protection of the painted part of the vehicle we always and without exception use leadless cathaphoresis (KTL) and waterbased colours.

Cutting the consumption of fuel and emissions is done within the framework of the concern strategy with both petrol and diesel engines. In the area of combustion we achieve lower consumption of fuel by minimising the frictional loss in wheel traction, optimising vehicle aerodynamics, reducing energetic consumption and decreasing the weight of parts and at the same time continuing to meet all of the required parameters. All engines we offer meet the current emission guidelines.

In construction of the vehicle we pay special attention to limiting the possibility of the escape of service fluids, in the framework of manufacturing of the vehicle, its operation and service. All products of ŠkodaAuto meet the requirements of laws and guidelines for the protection of the environment, both earth and water.

In consequence of using the most modern analytical methods and the follow-up measures, we are also able to decrease noise levels and improve sound quality.

The result of all of these activities is that the Škoda Superb car fulfils not only the requirements in the technical area, in safety and quality, but also in the area of protection of the environment. ŠkodaAuto thereby contributes to the preservation of a clean, healthy environment while at the same time guaranteeing the mobility and satisfaction of their customers.

Technical glossary

ABS: the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

MSR: the engine torque control system recognises when the wheels are subject to too much slippage and regulates the power supply by intervening in the engine management system. This prevents wheelspin when, for example, changing down on a smooth or wet road surface. MSR is a constituent part of the ASR system.

EDL: the electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.

MBA: the mechanical brake assist system increases brake effort under emergency braking conditions through a dual rate servo.

ASR: Anti-Slip Regulation traction control ensures the Superb's stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road-holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.

Xenon lamps: the Xenon lamps produce about 2.5 times the light of standard Halogen lamps with 35% less energy consumption.

ESP: Electronic Stability Programme is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESP constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESP reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine's output.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

Customer services

Helpful and dependable

Your Škoda Retailer will care for and cherish your new Superb as much as you do. Which is why in recent surveys, Škoda Retailers have come out top in Europe for customer care. It's not just that they service and maintain your Superb to the highest standards, not just that their technicians are specially trained in all aspects of Škoda cars, or that most spares are carried in stock or delivered within 24 hours. It's more that they believe in old fashioned service. You're not just a number to them but a valued customer. Which is why they are more than willing to listen and help with any enquiries or problems you may have.

3 year / 60,000 Mile Warranty

ŠkodaAuto are pleased to provide a two year unlimited mileage warranty. In addition, ŠkodaAuto UK provides a further warranty on new vehicles supplied by them through their appointed retailer network which is valid until the vehicle has completed 60,000 miles or the end of the third year, whichever is the sooner.

Your Superb also benefits from a 3 year paint and a 10 year Anti-Perforation warranty. We recommend that the car is serviced and maintained at an authorised Škoda Retailer or Repairer to ensure the warranty cover is maintained. Ask your Škoda Retailer for full details of this warranty.

Inclusive AA cover for 3 years

Accessed through a dedicated Freephone number, this free back-up service covers your Superb for Roadside Assistance, Relay and Relay Plus, Home Start and includes European cover.

Škoda Security

In addition to being fitted with an engine immobiliser, your Superb will be included in the International Security Register (ISR). This is a free 24

hour owner and mileage checking service available to the police and public. A single phone call can confirm if the person with the vehicle is the owner, deterring thieves. The ISR is registered under the Data Protection Act.

These offers are only available to Škodas imported by ŠkodaAuto UK and purchased from official ŠkodaAuto UK Retailers.

Around 160 Retailers in the UK

So there's bound to be one near you. Which means faster service, help and advice when you need it.

Exclusive Insurance Package

Attractive insurance rates are available to all Škoda owners from Škoda Insurance. Call the Quotations Hotline on 0845 602 6028

Attractive Finance

ŠkodaAuto Finance specialises in providing funding solutions for Škoda drivers. Whether your Škoda is for private or business use, you can choose from a range of funding options.

Here is our full range of finance products.

- New Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all of our finance products you can choose one of our fixed-cost maintenance plans designed to help you budget accurately.

No matter what finance product you choose, your local Škoda retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

ŠkodaAuto Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Škoda Solutions

Gives you flexibility and peace of mind. Right from the start you'll know the monthly cost, the initial deposit and even the final payment (Guaranteed Minimum Value). Subject to status, written details on request. Škoda solutions is offered by Škoda Finance, a trading branch of Volkswagen Financial Service (UK) Ltd.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from Škoda. Preferential prices on low cost Contract Hire are available through your local approved Motability Retailer. For full details, contact your Retailer.

Škoda Customer Services number

08457 745 745.

Calls may be monitored and/or recorded.

Accessories

A comprehensive range of Škoda Original and Škoda Approved accessories are available to suit most lifestyles available from your Škoda Retailer. Please ask for the separate Accessories brochure for further information. All Accessories are available with a three year warranty when purchased with a new vehicle.
