

One of the most important goals of Škoda Auto is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our Škoda cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cataphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines of Škoda Auto meet the current emission regulations. We also offer diesel engines with Diesel Particulate Filters (DPF). All products made by Škoda Auto adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, Škoda cars meet technical, safety, quality and environmental requirements. Škoda Auto contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses Škoda Auto's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.

The new Škoda Octavia

Some models in this catalogue are shown fitted with extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes

(including changes of technical parameters or individual model equipment). Please consult your authorised Škoda partner for further details on standard and extra equipment, current prices and delivery terms and conditions. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.

A LITTLE DESIGN TWIST HERE FOR A BIG EMOTIONAL CHANGE THERE.

We started somewhere timeless and went somewhere more exciting, giving classic lines a new character, and familiar shapes a new life. All while remaining true to what was right about the Škoda Octavia all along.

1. The headlamps, elegantly extending all the way to the wings, give the car a completely unique expression. The Octavia emblem is an original detail to be found on closer inspection inside the headlamps.

2. The rear lights cannot be overlooked. When the lights are on, the traditional letter C appears, which forms a characteristic element of modern Škoda cars as well as the lettering used for the model name on the fifth door.

ADDITIONAL COMFORTS. NEW PEACE OF MIND.

Feeling comfortable and feeling safe often go hand in hand. Feeling one can increase the feeling of the other. So we introduced a few new features that increase your feeling of comfort without wavering on our commitment to your well-being.

1. Retractable external mirrors will be welcomed mainly by drivers who park on city streets. By holding down the "lock" button on the remote control, the mirrors retract and so are protected from damage.

2. Interior can be selected from a range of colour and material designs, including a leather finish, according to your taste.

3. The rear bumper is single-piece with integrated linear reflective surfaces called "cat's eyes".

REFLECTING THE AGE WE LIVE IN.

Times are constantly changing. Each year brings new wonders and exciting advancements. The technological offering of the new Škoda Octavia reflects a strong tendency towards the future, but with a respect to what the Octavia stood for in the past.

1. The front fog lamps are available in four versions. The top fog lamps offer feature the Corner functionality and daytime running lights, "Day Light".

2. The dashboard with Maxi DOT display and white background illumination results in perfect legibility of the data directly in the driver's field of vision.

3. The 4-spoke multifunctional leather steering wheel will enable you to control the radio and phone.

4. Automatic 7-speed DSG transmission (Direct Shift Gearbox) is exclusively designed for 1.4 TSI/90 kW and 1.8 TSI/118 kW engines.

5. Alloy wheels for the new Octavia model are available in various sizes and designs (Crateris 6.5J x 16" on the photo).

Engine	Comb. consumption l/100 km	CO ₂ emissions g/km
1.4 MPI/59 kW	7.0	167
1.4 TSI/90 kW	6.6 (6.3)	154 (147)
1.6 MPI/75 kW	7.4 (7.9)	176 (188)
1.8 TSI/118 kW	7.0 (6.6) [7.7]	163 (155) [180]
1.9 TDI PD/77 kW*	4.9 (5.9) [6.0]	130 (155) [159]
1.9 TDI PD DPF/77 kW A	(6.1)	(159)
2.0 TDI PD/103 kW	5.5 (6.0)	145 (158)
2.0 TDI PD DPF/103 kW	5.7 (5.9) [6.3]	150 (156) [165]

A Automatic transmission.

() Applies to versions with automatic transmission.

[] Applies to Octavia Combi 4x4.

* For 1.9 TDI PD/77 kW with manual transmission, values for Combi differ from limousine -
- combined consumption: 5.1 l/100 km, CO₂ emissions: 135 g/km.
