

# Opel Insignia

Wir leben Autos.

## A declaration of intent.

Discover a design that promises driving dynamism. Discover innovative technology that fulfils the promise. Discover new levels of quality and refinement. Discover Opel Insignia.

## The attention to detail.

The skill and refinement that has been invested in the Opel Insignia is evident in every detail of the interior.

## The art of science.

A remarkable array of technologies enables Opel Insignia to respond to a driver's wishes, adapting within milliseconds to the subtlest input or change in road conditions. Even the headlights can distinguish between different situations and react accordingly.

## The body language.

The way a person stands or moves reveals inner depths. This applies equally to the Opel Insignia Sports Tourer as it does to every other Insignia. There is an unmistakable confidence about its relationship with the road that encourages enthusiastic driving.

## A question of choice.

The new Opel Insignia is available as a four-door saloon, five-door hatchback, or Sports Tourer station wagon and in four versions: Essentia, Edition, Sport, and Cosmo. Each has been carefully styled to create its own ambience while sharing the intrinsic Insignia philosophy.

## Discover the technology.

### Adaptive Forward Lighting.

Headlamps with nine different lighting patterns which change automatically according to your driving situation.

### Opel Eye.

Reads traffic signs which restrict speed or overtaking and displays them on your dashboard.

### FlexRide (Adaptive Stability Technology).

Three selectable driving modes, Sport, Tour, and Normal, with automatic override in extreme situations.

### Adaptive 4x4.

On-demand all-wheel drive maintains stability and prevents traction loss before it can happen.

### Drag coefficient.

Underbody spoilers and airflow-optimized suspension components complement the sleek overall shape, resulting in a class-leading drag coefficient.

### BiTurbo.

Turbo technology for the highest efficiency: two staged turbochargers work in series, eliminating turbo lag and providing maximum power output with reduced emissions.

### Ergonomic sports seat.

The fully ergonomic sports seat adjusts 8 ways and provides additional 4-way lumbar support.

### Top Tec.

Nanotechnology for fresher and cleaner interiors. Special coatings make fabrics both stain-resistant and water-repellent without compromising their "breathing" qualities.
