

SIMPLY CLEVER

ŠkodaFabia Sportline

ANOTHER FUN RIDE

It doesn't matter if you like in-line skating, bowling or go-karting. Neither is it important whether you know all of the cycle paths in your area or if you are learning Spanish, play the guitar or like rafting when you are on holiday... Simply put, the main thing is that you have good friends and like living life to the full. And now driving can be great fun too. The new Škoda Fabia Sportline.

The two-colour exterior (you can see the combination of exterior colours on the last page) gives the car a unique sporty and elegant style as do the black protective door strips, tinted windows, Corner design fog lamps and 16" Bear alloy wheels. For drivers who like a dynamic ride and who need more than a sports chassis to further emphasise the sporty character of their car, we can offer exclusive 17" Kentaur or Trinity alloy wheels. The Sportline logo on the boot provides another individual detail.

The interior will also get you into a great sporty mood. Among other things, the car is equipped with comfortable sports seats in the front, a 3-spoke

leather steering wheel and noble steel foot pedal covers. You can choose from two colour alternatives for the seats with a red or blue tone. The carpets are complemented with coloured stitching to match the colour of the seats and are a practical and stylish addition with the Sportline logo displayed in the front. If you also want to give your car a go-getting expression and one of healthy aggression, you can do so. In terms of Škoda Genuine Accessories we offer a Styling Kit, which includes a spoiler for the front bumper, a diffuser for the rear bumper, a noble steel end piece for the exhaust pipe and a roof spoiler. Decorative door sill covers with the Sportline logo make your vehicle even more attractive while protecting the sills from damage; they can also be found in the range of accessories.

Thanks to a harmonious combination of sporty spirit and the advantages of a smaller yet spacious car, the Fabia Sportline represents an attractive alternative for an active lifestyle. The car is not only attractive to look at, but also offers you excellent driving characteristics. And you will enjoy driving it...
