Y P S I L O N

THE ALL NEW 5 DOOR SUPERMINI FROM CHRYSLER

WELCOME TO LUXURY LIBERATED

Ypsilon is the first 5 door supermini from Chrysler. With its effortless elegance and youthful flair, this is a car that beautifully encapsulates our philosophy of purposeful design, striking looks and a specification that suits your lifestyle.

LUXURY HAS A NEW SIZE

The new Ypsilon is the perfect definition of microluxury: a car that offers incredible comfort and innovative features beyond its size.

Model shown: Ypsilon Limited with optional Panoramic sunroof, Xenon headlamps and optional alloy wheels.

THE YPSILON ARRIVES,

Model shown: Ypsilon Limited with optional Panoramic sunroof and Xenon headlamps.

The practicality of a 5-door

The new Ypsilon offers 3-door coupe looks with 5-door practicality. The rear door handles are seamlessly integrated into the bodywork to create chic coupe styling.

Spacious luggage compartment

Careful attention to the use of space means the Ypsilon proudly offers 245 litres of luggage capacity. Perfect for the weekly shop, an indulgent session of retail therapy or a weekend escape from the city.

Panoramic sunroof

Ypsilon's elegant style offers impressive views for those on the outside. Its panoramic sunroof covers 70% of the roof space providing just as impressive views from the inside.

WITH LUXURY FOR ALL

Model shown: Ypsilon Limited with optional Panoramic sunroof and Xenon headlamps.

LIFE ISN'T ALWAYS BLACK AND WHITE

16 luxurious colours

Make the new Ypsilon your own with a series of luxurious all-new shades and head-turning colours.

Tri-Coat

The New Ypsilon boasts two tri-coat versions for beautiful depth of colour.

Bi-Colour

Make a statement with a choice of four high-impact Bi-Colour options.

Beautiful colour combinations

With a multitude of colour combinations, the Ypsilon allows you to express your true colours. Choose your shades and colours for a car that perfectly reflects your unique personality and lifestyle.

MAKE EVERY JOURNEY AN INDULGENCE

Enjoy a better quality of life with the all new Ypsilon. With a myriad of options you can tailor your Ypsilon to your own style. Available with three trim levels - S, SE and Limited - and three interior finishes, Premium Fabric, Romantic Gold and Urban Black. The New Ypsilon offers a tailor-made driving style.

Premium Fabric – S trim level

This finish gives a feeling of energy and sportiness. The distinguishing graphics make a striking contrast that's finished with a 3-dimensional textured Ypsilon logo.

Castiglio® Fabric – SE trim level

This finish offers a dynamic interior featuring 3D textures and colour contrasts.

URBAN BLACK

The 'anthracite grey' highlights the sculpted graphics and clearly defines the logo and the 3D marks.

ROMANTIC GOLD

Refined and elegant, the fashion-inspired details and weaves enhance the classic colours and organic graphics.

Leather – Limited trim level

URBAN BLACK

Aggressive, determined and strikingly stylish, the contemporary all-over black conveys a luxurious style and an adventurous spirit.

ROMANTIC GOLD

In soft-to-touch leather, the Romantic Gold interior becomes metallic and iridescent. The outcome is a rich, highly expressive look that creates a heightened sense of luxury on every journey.

Premium fabric seats in grey. Panoramic sunroof is not available on the S model.

Castiglio® fabric seats in Romantic Gold.

Leather seats in Urban Black.

TAILORED TO YOUR LIFESTYLE

The new made-to-measure driving style.

S

Young and dynamic, with premium fabric-upholstered seats and graphics with contrasting materials and colours.

SE

Available in a choice of two colour schemes - Romantic Gold or Urban Black – the former refined and elegant, the latter modern and striking.

Limited

Fashion inspired Romantic Gold and high impact Urban Black evolve into the most luxurious leather.

Model shown: Ypsilon Limited note: Limited models have 3 rear seats. Blue&Me™ TOMTOM LIVE available as accessory.

LUXURY MEETS TECHNOLOGY

Adorned with today's most innovative equipment, the New Ypsilon is a compact car offering a luxurious level of technology, married with hi-tech safety features and an unrivalled respect for the environment.

360° Hi-Fi music

The new Ypsilon features a hi-tech audio system, specially designed for your car's interior with each speaker intelligently arranged for a 360° wraparound effect. Experience the joy of your very own opera house, nightclub or concert hall on every journey.

Eco trend

View your driving efficiency whenever and wherever you journey. The Ypsilon's accessory smart indicator monitors your car's performance and clearly shows your fuel consumption and level of emissions as you drive.

Smart Fuel

Evolved from the traditional fuel cap, Smart Fuel makes refuelling easier whilst also eliminating the risk of gas and fuel leaks. The result? Driving in complete confidence.

Blue&Me™ with USB port

Enjoy the luxury of complete control with Blue&Me™ - an interactive infotainment system that responds to your voice as well as standard controls. Manage your telephone and media player, your Bluetooth® hands-free kit, incoming SMS messages and enjoy direct connectivity with iPod™ and iPhone™ as well as a USB port for MP3 and MP4 audio tracks.

Blue&Me™ TOM TOM LIVE

Never lose sight of your destination with the accessory navigation system boasting 4.3" HD fluid colour touch screen and all the functions of BLUE&ME™ technology. The addition of an integrated SIM means you can also access online content, including up-to-the-minute traffic news, weather reports or places to visit on your journey.

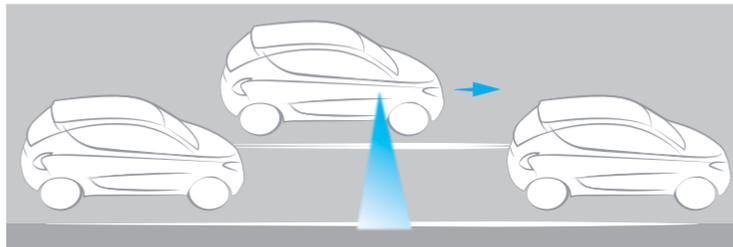

Model shown: Ypsilon Limited with Urban Black leather seats.

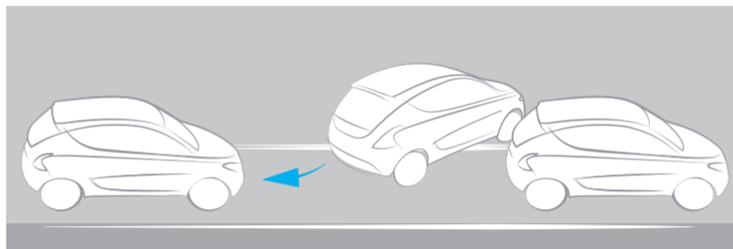

INTUITIVE AND INTELLIGENT FEATURES TO MAKE LIFE A LITTLE SIMPLER

THE PLEASURE OF MAGIC PARKING

New Ypsilon with Magic Parking. You concentrate on the driving, let your car do the parking.

The semi-assisted parking system enables you to find a parking space big enough for your car then helps you park by acting automatically on the steering.

Magic Parking is activated by the touch of a button. Press it, and the new Ypsilon's system enables automatic "multi-manoevre" parking. This 'multi-manoevre' system is new, and a move on from basic magic parking that performed a straight parallel park. Using radar sensors on each side of the car it is able to gain all the information to park in just 4.6 metres of space. Naturally, you remain in ultimate control of the car, and you can deactivate it at the touch of a button. Magic Parking is available on both manual and auto gearbox models.

START&STOP

Switch off at every traffic light.

Start&Stop technology is available on all models as standard. Specially designed for driving in the city, the system automatically switches off the engine when traffic conditions require you to temporarily stop. It is designed to reduce fuel consumption, lower CO₂ emissions and noise pollution, making it the perfect companion on urban drives.

New Ypsilon with Start&Stop. Drive more, spend less.

The device can be de-activated when necessary by using the conveniently located dashboard button. There is also a Gear Shift Indicator (GSI) that helps you find the optimum time to change gear, and save fuel.

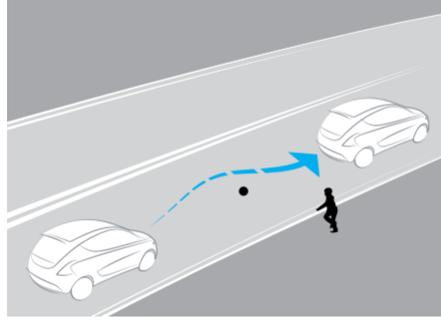

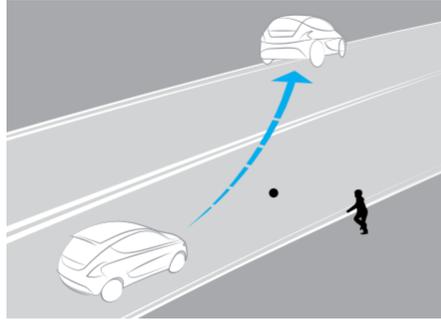

THE LUXURY OF PURE PEACE OF MIND

The New Ypsilon SE and Limited trims come with six airbags as standard: two front airbags, two curtain bags for head protection and two side airbags.

Model shown: Ypsilon SE. Note: SE models have 3 rear seats

VDC

DYNAMIC STABILITY CONTROL (VDC)

The optional stability control system works by regulating engine power and distributing braking force differently over the four wheels. With Ypsilon you can expect exceptional handling with features that correct the car's trajectory in the event of sudden steering movements, thus preventing skidding. In addition, the Hill Holder feature enables smoother hill starts, while ASR – electronic traction control – prevents the driving wheels from slipping during acceleration.

ISOFIX

ISOFIX

A car that thinks about your family, with universal child-seat fittings as standard.

Model shown: Ypsilon SE. Note: SE models have 3 rear seats

THE
LUXURY
OF BEING
SEEN

AND BEING NOTICED

LED

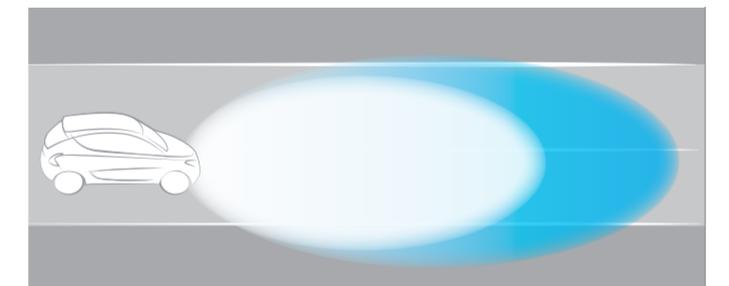

LED REAR LIGHTS

The innovative rear LED lighting clusters with beam guide offer a more intense beam and greater safety, wherever you choose to travel.

BI-XENON

BI-XENON HEADLIGHTS

The optional Bi-Xenon front headlights ensure a greater field of view, with a wider, deeper beam. **Illuminating up to three times more**, they last up to three times longer and consume less energy than traditional halogen lights. In addition, the circular elliptical design gives the car a more striking front.

LUXURY THAT RESPECTS THE ENVIRONMENT

Model shown: Ypsilon Limited with optional Xenon headlamps and accessory wheels.

1.2 8v Fire Evo II 69 hp

The famous Fire engine has evolved. This new unit uses a continuous phase variator that optimises the timing for valve opening and closing at all engine speeds, reducing fuel consumption and improving performance.

0.9 8v TwinAir 85 hp

Packing more of a punch than the traditional 1.2 8v, the new Ypsilon employs revolutionary MultiAir technology – the electro-hydraulic valve management system – to reduce both fuel consumption and emissions by up to 30%, while increasing power by up to 10%. Also available with the automated manual gearbox.

1.3 16v MultiJet II 95 hp

A second-generation MultiJet using new Common Rail injectors for better fuel consumption, emissions and noise reduction. The result? A thrilling ride, every time.

Equipped with a comprehensive range of Euro 5 engines, including petrol and diesel units, the new Ypsilon combines outstanding performance with low emissions and fuel consumption.

All petrol and diesel engines are fitted with Start&Stop as standard.
