

SIMPLY CLEVER

ŠKODA

# ŠKODA Fabia

It's impressive how much this car has to offer: the ŠKODA Fabia with its nine model variants.

A compact car with great class: the ŠKODA Fabia hatchback.

The ŠKODA Fabia and Fabia Combi **design** is a blend of elegance and functionality. The distinctive **front grille** dominated by the ŠKODA logo creates a feel of dynamism as well as confidence. The **front headlamps** are three-dimensional and extend all the way to the wings/mudguards. The neatly shaped **front fog lamps** are available with **daytime running lights**.

The Fabia model can be equipped with a **longitudinal roof railing** in black or black/silver colour combination. Passengers in the rear seats will enjoy higher comfort provided by **SunSet**, a high-performance tinted glass.

**Rear combined lights**, with their characteristic C-shaped translucence, communicate a message of belonging to the ŠKODA brand.

Each day is full of possibilities. Seize them all with the ŠKODA Fabia Combi.

The essential feature of the Fabia models is **practicality**. It offers **extraordinary space** for both the crew and luggage. In addition, we offer you a whole range of **practical accessories**, which help you maximise the utilisation of the luggage compartment and keep the car tidy.

The **2-position luggage compartment cover** in Fabia allows, when fixed in the lower position, the transport of objects that would otherwise impede the driver's view.

With the **Net Programme** for Fabia Combi, consisting of 3 nets, your luggage will stay safely in place while you are driving.

The **interior bicycle holder** will allow you to comfortably transport two bicycles inside the Fabia Combi.

You may hang your shopping bags on **folding hooks** available on both sides of the luggage compartment.

The **flexible storage compartment** may be used to fix smaller objects.

The ŠKODA Fabia Combi is a pleasant family vehicle, which satisfies even the highest requirements for **space** and **storage options**. Thanks to its **variability** it's a great choice for families with small children as well as owners of four-legged passengers. The **luggage compartment** capacity is 505 litres, which can be expanded to **1,485 litres** after tilting the rear seats.

The **mid-level luggage compartment floor** for the Fabia Combi model places the bottom of the luggage compartment on the level of the loading edge, facilitating easier luggage handling. In addition, it provides a suitable storage place to keep things that you don't want to unload every day.

We deliver the **roof railing** in an exclusive black/silver design or in elegant black.

In addition to maintaining the preselected speed, **cruise control** enables you to increase or reduce speed without using the pedals. This function is controlled by a button on the side of the cruise control.

**Recommended gear shift** function is displayed in the top right corner of Maxi DOT or on the on-board computer display.

The **dashboard** has perfect ergonomics with optimal angling of the instruments towards the driver. Our offer includes steering wheels and comfort features, such as a **navigation system, radios** and **MDI** (Mobile Device Interface). The **multifunctional 4-spoke leather steering wheel**, which enables you to control the radio and phone, is also available in a 3-spoke sports design.

The **MDI** (Mobile Device Interface) enables (by means of interconnecting cables with terminals for the iPod, Aux-in or USB, available from ŠKODA Genuine Accessories) control of a connected external device through the radio or navigation system.

The **Climatronic air conditioning** with electronic regulation will quickly clear frost or steam covered windows.

The **Swing radio** is furnished with a dual antenna and music CD, CD-MP3 and CD-WMA player.

The **Amundsen+ navigation system**, equipped with navigation data and internal memory, is controlled via a 5" colour touch-screen.

**Comfort** is a matter of personal feeling as each of us has different expectations and requirements. For all of those who associate comfort with sufficient storage options we have a simple solution.

The **storage compartments in the dashboard** are available in two versions, either open or closed. The lower compartment may be illuminated and, in combination with the Climatronic air conditioning, cooled.

The **adjustable armrest** between the front seats houses an unexpectedly spacious storage compartment of 1.2 litres. The driver and passenger's comfort is further increased by the **heated front seats**.

The **storage compartments in both the driver and front passenger's door panelling** provide a 1.5-litre bottle holder and a practical rubber band to hold a map or magazines.

The **central console drinks holder** is a welcome addition, especially for the rear seat passengers, but is easily accessible from the front seats as well. Other storage options are provided by the **pockets on the front seat backrests** and **storage compartments in the rear door panelling**.

A hidden storage space for various small objects can be found in the **drawers with tilting lids** situated under the front seats.

Clever efficiency, and not only when it comes to size: the ŠKODA Fabia GreenLine.

The **Fabia and Fabia Combi GreenLine** owe for their extraordinarily low fuel consumption and CO<sub>2</sub> emission reduction especially to the **1.2 TDI CR DPF/55kW** diesel engine. The vehicles achieve a combined consumption of **3.4 l/100 km** at a CO<sub>2</sub> emission level of a mere **89 g/km**. Both models are offered with the **Domino interior** in black or grey design as standard (see equipment versions).

The original **GreenLine badge** can be found on the 5th door as well as on the front grille.

The improvement of the aerodynamic parameters of the Fabia GreenLine model is largely aided by the original **spoiler on the 5th door**.

The **Start-Stop system** automatically switches off the engine, for example while waiting at the traffic lights or when moving slowly in a queue of cars. By pressing the clutch pedal the engine automatically restarts. The driver can deactivate the Start-Stop system with a button located on the central console. Engine load reduction and more economical running are further assisted by the **energy recovery functionality**, which enables an effective use of the car's kinetic energy for battery recharging.

The GreenLine versions are equipped with the 15" steel wheels with **Hermes** hub covers with 185/60 R15 tyres as standard (see photo) or can be fitted with the optional 15" **Antares** alloy wheels. Both wheels come with tyres with low rolling resistance.

The **Fabia and Fabia Combi Green tec** vehicles are noted for economical operation leading to reduced CO<sub>2</sub> emission levels. The model has features, such as the **Start-Stop system** or **energy recovery functionality**, which ensure lower fuel consumption. You can choose from both diesel and petrol engine versions: 1.6 TDI CR DPF/66 kW (diesel) or 1.2 MPI/51 kW and 1.2 TSI/63 kW or 77 kW (petrol). The model is offered in all three equipment levels: Active, Ambition and Elegance (see equipment versions).

A **green element** in the engine version badge placed on the 5th door is a unique feature of the Green tec vehicles.

The car can be equipped with the 15" **Line** (see photo) or **Antares** alloy wheels. As standard it's fitted with the 15" steel wheels with **Satellite** hub covers or 15" steel wheels with **Hermes** hub covers (1.6 TDI CR DPF/66 kW) both with 185/60 R15 tyres. All wheels come with tyres with low rolling resistance.

Enough room for all your impressions: the ŠKODA Fabia Combi Scout.

The **ŠKODA Fabia Scout** is ready to offer you an unusual riding experience. Both the exterior and the interior will attract you with their distinctive equipment, including, among others, a **rear bumper** with a **diffuser**. The **Fabia Combi Scout** is also available.

The unique design of the Scout model is distinctively represented by the **front bumper**, which newly features either integrated **LED daytime running lights** (on the photo) or **round fog lamps**.

The **Scout interior** is designed in a grey/black colour with an Onyx/Silvergrey or Onyx/Onyx dashboard. Options also include the **Floss** interior (leather/artificial leather/fabric) or the **Pulse** interior with sports front seats.

The **noble steel foot pedal covers** as well as **removable woven carpets** with grey stitching give the interior a sporty and elegant style and enhance the feeling of comfort.

When the everyday stops, the adventure can begin: The ŠKODA Fabia Scout.

Life is a never ending contest. Show good sportsmanship: with the ŠKODA Fabia Monte Carlo.

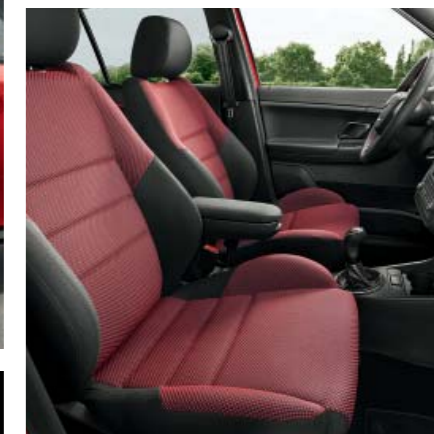

The original design of the ŠKODA Fabia Monte Carlo is based on a simple yet distinct solution: some exterior details are in an innovative black design. The main **headlamps** as well as the **front fog lamps with daytime running lights**, the vertical ribs of the **front grille** including the frame and the external **rear-view mirrors** have a black tint.

The **roof with a spoiler** is also in black. Other specific features of the model include black **plastic guards** with a glossy finish lining the lower part of the vehicle, **tinted windows**, **SunSet** (windows with a higher density of tint in the rear) and a **sports chassis**.

The distinct style of the car is underlined by alloy wheels in a black design: the 6.5J x 16" **Comet** wheels with a glossy peripheral line (see photo) or the 7.0J x 17" **Trinity** wheels.

If you decide for the **red interior** (see photo), the upholstery of the front sports seats will be in red in combination with black backrest sides. The **black interior**, which comes as standard, features front sports seats in grey/black combination. Both interiors feature a **3-spoke steering wheel** in black perforated leather decorated with red stitching, same as the **knob and sleeve of the manual gear stick** and the **handbrake handle**.

Every city has its pulse. Here's the heartbeat: the ŠKODA Fabia RS.

The **ŠKODA Fabia RS** is characterised by a robust **front bumper**. The front grille bears the **RS badge**. For an even more sporty appearance of the car, you may equip it with the newly designed **Black Package** (headlamps and front grille including the frame in black tint – see photo) and/or with **LED daytime running lights** instead of standard **circular fog lamps** (see photo). We offer the RS models both in the Fabia and Fabia Combi versions always with the **1.4 TSI/132kW** engine and the **7-speed DSG**.

The **Tempo interior**, with specially modelled sports front seats for the driver and passenger, is offered in a grey or red design.

A number of elements, such as the **5th door spoiler**, the **diffuser**, the **double exhaust tailpipe** and the **RS badge**, give the car rear a really sporty look. The 7.0J x 17" **Gigaro** alloy wheels with 205/40 R17 tyres were specially developed for the RS model. You may select from 4 colour variants: silver, anthracite, white and black.

The **3-spoke sports leather steering wheel** multiplies the driving pleasure.

The car may also be furnished with the **multifunctional leather steering wheel** allowing comfortable control of the automatic DSG, the radio and the phone.

Driving pleasure may also be spelt as RS: the ŠKODA Fabia Combi RS.

The **technology** innovations brought by the model are mainly represented by the engines, which offer excellent performance resulting in your driving pleasure. Technical development has led to a further **reduction of CO<sub>2</sub> emissions**, representing a responsible approach to the environment. The **1.2 TSI petrol engines** excel with their flexibility, low noise and economy. **Diesel engines**, supplied with the **common rail fuel injection system**, are noted for their quiet and refined operation and extraordinarily low consumption. All offered engines comply with the EU5 emissions standard.

The **automatic 7-speed DSG** (Direct Shift Gearbox), designed exclusively for the 1.2 TSI/77kW engine (Fabia, Fabia Combi) and 1.4 TSI/132kW engine (Fabia RS), guarantees comfortable yet dynamic drive with economic fuel consumption.

You may order additional features, such as **TPM** (Tyre Pressure Monitoring) and **start-up assistant**, supplementing the **ESP** (Electronic Stability Programme), which always includes **ASR** (Anti-Slip Regulation; deactivation button shown on the photo).

Driving dynamics and low fuel consumption, along with low CO<sub>2</sub> emissions, are the strengths of the **1.2 TSI/77kW** turbocharged petrol engine.

The highest performance diesel engine developed for the Fabia is the **1.6 TDI CR DPF/77kW** turbocharged 4-cylinder engine.

Your driving **safety** is determined by a variety of factors. As a car manufacturer we are able to positively influence some of them and so of course we haven't left anything to chance. In addition to the essential prerequisites of safety, such as the exceptionally **strong body** and **excellent driving characteristics** of the vehicle, we bring you a range of products for the protection of the whole crew. Since the feeling of safety is an individual matter and depends on, for example, whether you transport children in the car, you may select additional safety features that fit your specific requirements. In all Fabia models you may be protected by up to 6 airbags: **driver and front passenger airbags, front side airbags** and **head airbags**.

The **sun shields** will prevent unpleasant sun glare.

The rear seat passengers' safety is enhanced by three **height-adjustable headrests**.

The vehicle may also be equipped with **tilting halogen projector headlamps** for increased safety while cornering.

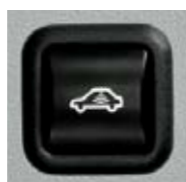

The standard safety equipment of the Fabia cars includes a **mount preparation for two child seats with the Isofix system** including special safety belt anchoring, which is an essential part of the **Top Tether child seat**. Child safety seats for children of all age groups can be found in the **ŠKODA Genuine Accessories** range.

The **fog lamps** with the **daytime running lights** are also available with the optional **Corner function**. This feature automatically switches on either the right or the left fog lamp, depending on the angle of the steering wheel and the activation of the turn indicators, at a maximum speed of 40 km/h.

If you wish to place the child seat on the front passenger seat, you will need to equip your car with the optional **deactivation of a passenger airbag**. Once installed, you can turn off the airbag with a key.

The car may be equipped with an **alarm** with interior monitoring, a horn with back-up power and an inclination sensor. Optional **deactivation of interior monitoring** (see photo) will especially be welcomed by dog owners.

When manoeuvring the vehicle in a tight space, you will appreciate the **parking sensors**, which monitor the distance of the rear bumper from a potential barrier.

Fabia **Elegance** represents the most attractive equipment version of the model. It comes with the Chess interior in black with the Onyx/Onyx dashboard or, at request (without extra charge), in beige with the Onyx/Ivory dashboard. The interior is decorated with a number of chrome details. The standard equipment of the Elegance version further includes an on-board computer, Climatic air conditioning, height-adjustable front seats, electrically adjustable heated external mirrors, rear reading lamps and removable woven carpets.

Fabia **Ambition** is an excellent version combining comfort with practicality. It's available with the Domino interior in grey or black with the Onyx/Silvergrey or Onyx/Onyx dashboard and with chrome details. The standard equipment of the Ambition version further includes an on-board computer, radio preparation, electric front windows, central locking, closed illuminated front passenger glove compartment and split rear seats.

Fabia **Active** is the basic equipment version and it's equipped with the nice Stone interior in blue or grey with the Onyx/Silvergrey or Onyx/Onyx dashboard.

**Pulse interior** in grey/black with sports seats and Onyx/Onyx or Onyx/Silvergrey dashboard (top left photo).

**Floss interior** in black in fabric/leather/artificial leather with Onyx/Silvergrey or Onyx/Onyx dashboard (top right photo).

**Drops Blue interior** with Onyx/Onyx or Onyx/Silvergrey dashboard (bottom left photo).

The interiors shown above are available as extra equipment, from which you can select other attractive products, such as the small leather package (steering wheel, handbrake handle and gear stick knob), Climatronic air conditioning with electronic regulation, Swing and Blues radios, Amundsen+ navigation system, roof racks, 14"-17" alloy wheels and so on. For up-to-date information on the wide range of extra equipment for the Fabia model versions contact your authorised ŠKODA partner.

\* Valid for Fabia Combi. If only one value is listed, it's valid for both models.

The **roof transportation systems** will especially be appreciated when carrying various sports equipment. A genuine ŠKODA box with 380-litre capacity, which successfully passed the City Crash test, is also available.

**ŠKODA Genuine Accessories** add style to your car while enhancing its utility. In our range, which is essentially an extended range of the extra equipment, you will find various products including spoilers, alloy wheels, radios and navigation systems, roof racks and much more. We also offer a **styling kit**, which includes front, rear and roof spoilers, stainless steel exhaust pipe end piece, alloy wheels and for Fabia decorative foil with chequered design. You can also choose from a wide palette of safety child seats for children of all age groups. To get a full overview of our range of products, ask any authorised ŠKODA partner for our special accessories catalogue.

The **thermo-electric cooling box** with 15-litre capacity will enable you to keep food and drinks fresh and refreshing in any weather.

The **decorative door sill covers** enhance the attractiveness of the car and at the same time protect the sills against mechanical damage.

## Merchandise

Slap-on watch with an analogue or digital display in gift packaging.

Neoprene pouch for a mobile phone fixable to a belt.

Ballpen in green with "ice" effect.

Small sports bag in black/green colour design.

## General information

### ŠKODA Service

Put your car in good hands. We give you good reasons to choose an authorised ŠKODA service partner.

#### We offer you first-class quality

Your car requires advanced technology. For this reason, all the ŠKODA authorised service partners have special tools and quality diagnostic systems at their disposal, which, in combination with the technological procedures prescribed by the manufacturer, ensure the perfect functionality and reliability of your car.

#### Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in the car requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the staff of the authorised service partners in order to provide them with up-to-date information important for their activities.

#### Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is of great importance to us in the same manner as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control of the provided services.

#### Comprehensive range of services:

##### › Service inspections

For your car to remain in top condition and functional for a long time and, optionally, not to forfeit warranty, it is essential for your ŠKODA authorised service partner to perform regular service inspections. The service schedule informs you when the service inspection must be done.

##### › Body and paintwork service

Damage to the body and painted areas following an accident will be fixed by your authorised ŠKODA service partner in an expert manner, in accordance with information from the manufacturer, using ŠKODA Genuine Parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

##### › Courtesy car

The authorised ŠKODA service partner can provide you with a courtesy car for the period of repair or service inspection.

##### › Pick-up and delivery service

If you are unable to take your vehicle to a ŠKODA service, an authorised ŠKODA service partner will arrange a date with you to pick up the car. The car will be delivered back after the service work has been completed.

The listed services represent only a part of the wide range of ŠKODA service offers, which may vary from country to country. Please contact your authorised ŠKODA service partner for further details and information on the range and specific conditions of services they offer.

### ŠKODA Genuine Accessories

ŠKODA Genuine Accessories offer you child safety seats, roof rails, alloy wheels, sunblinds and more. For more detailed information on the complete ŠKODA Genuine Accessories range see the individual ŠKODA model catalogues.

### ŠKODA Genuine Parts

#### Safety

ŠKODA Genuine Parts are identical to those used during the assembly of ŠKODA vehicles. The use of first-class materials and technologies guarantees safe and worry-free driving.

#### Availability

ŠKODA AUTO offers a comprehensive range of parts and equipment items that are used in the vehicle's batch production and does not merely focus on high-turnover parts. ŠKODA ensures the provision of genuine parts even after the relevant model is discontinued.

#### Long service life

The use of first-rate materials and production technologies in the manufacture of ŠKODA Genuine Parts ensure their maximum reliability and long life.

#### Environment protection

The ŠKODA Genuine Parts range includes exchange parts whose production has a low environmental impact in terms of waste, excess heat and water pollution.

### Information on the internet

Information is available at [www.skoda-auto.com](http://www.skoda-auto.com) to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models.

### ŠKODA Finance

ŠkoFIN offers solutions for both individuals and businesses. You can learn about the current offer through any authorised ŠKODA partner. The credit or lease contract can also be concluded online directly with the car dealer.

### Global fleet

The ŠKODA AUTO Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of ŠKODA cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and, as a result, excellent value for money. You can find more information about our products and services at [www.skoda-auto.com/fleet](http://www.skoda-auto.com/fleet).

One of the most important goals of ŠKODA AUTO is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All products made by ŠKODA AUTO adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.

Some models in this catalogue are shown fitted with optional or extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes without prior notice. The information included in this catalogue is for guidance only. Due to printing technology limitations, the colours of paints or other materials shown in this catalogue may differ from reality. For up-to-date information and further details on standard and optional equipment, current prices and delivery terms and conditions contact your authorised ŠKODA partner. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
