

THE NEW OPEL

ASTRA

THE NEW BENCHMARK

IN GERMAN ENGINEERING.

The new Astra is more than Opel's new flagship compact. It's a masterpiece of German engineering and iconic design.

The Astra marries premium-class features with sporty handling and unprecedented connectivity. It's a new benchmark in the compact class.

FORM FOLLOWS DESIRE.

Sharp lines, athletic sculpting and the striking curve of the 'flying' roof – the design of the new Astra captures the dynamic potential within.

MADE-TO-MEASURE.

The Astra is tailor-made to put you at ease. Its premium interior effectively creates a new category in the compact car class.

First-rate materials and options complement new, stylish trims. For example, an ergonomically certified¹ AGR leather front seat with in-seat massage and ventilation to enhance your well-being.

Add a little Astra luxury to your day:

- Ergonomic AGR¹ front seats with adjustable back and thigh support
- Wellness AGR¹ driver's seat with massage, ventilation and memory
- Heated front and rear seats for a cosy start on cold days
- Electronic Climate Control for custom setting the temperature
- Innovative AirWellness feature diffuses selected scents

¹Optional AGR seats are certified by the German AGR (Campaign for Healthier Backs), a centre of excellence for ergonomics. The certificate is a seal of quality awarded by an independent testing committee made up of experts from various medical disciplines.

INNOVATIVE BY TRADE.

The new Astra sets the standard for others to follow with a number of segment firsts. Premium-class innovations make driving easier, safer – and more fun.

1. **First-in-class IntelliLux LED® Matrix headlights.** Enjoy high-beam visibility without disturbing other drivers – for safer, stress-free driving at night.

2. **Opel Eye.** This camera-based safety system includes intelligent features like Lane Keep Assist with steering-wheel pushback and Traffic Sign Assist, Following Distance Indicator and Forward Collision Alert with automatic emergency braking.

3. **IntelliLink.** Opel's state-of-the-art infotainment system ensures wireless access to digital devices.

4. **Segment-leading seating.** In-seat ventilation and massage options ensure you finish long trips refreshed.

5. **Parking for pros.** Inch-perfect parking is quicker with Advanced Park Assist.

INTELLILUX LED[®] MATRIX HEADLIGHTS. SEE AND BE SEEN.

The new Astra brings premium-class features to the compact car class and IntelliLux LED[®] Matrix headlights are another segment first. They adjust automatically so you can drive on high beam without the possibility of disturbing other drivers.

With halogen headlights. To avoid dazzling other drivers, you switch manually between low and high beam.

With IntelliLux LED[®] Matrix headlights. Your high beam dips around other vehicles and you enjoy a wider, perfectly lit field of view.

Opel puts intelligent technology to work where it counts:

- Your headlights comprise 16 separate LED elements
- They react to other vehicles by cutting out single LEDs
- Your high beam is glare-free all the time
- The beam is wider and longer for maximum visibility
- You enjoy optimum lighting in any situation
- Driving at night is safer and much more relaxed
- Outstanding reliability ensures maximum longevity
- Cornering lights further enhance safety

ENGINES THAT ENERGIZE.

German engineering is admired all over the world and a drive in the new Astra is a thrilling reminder of why. The new generation of Opel engines are sporty, smooth and responsive. But they're also economical, so you can always look forward to your exceptional drive.

- Cutting-edge engineering delivers agility and economy
- The lightweight Astra ensures a precise and responsive ride
- Next-gen ECOTEC® engines help cut fuel bills and emissions

Push your pulse. With 110 kW (150 hp), 1.4 litres and a 215 km/h top speed.

Fuel consumption in l/100 km: urban 6,3–6,2, extra-urban 4,3–4,2, combined 5,1–4,9; CO₂ emission in g/km: combined 117–114 g/km. According to regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable).

YOUR PERSONAL CONNECTIVITY AND SERVICE ASSISTANT.

24/7, 365 days a year, Opel OnStar¹ gives you access to our unique services virtually anywhere in Europe².

Best of all, it's free of charge – including Wi-Fi Hotspot – for the first 12 months!

Driving will never be the same.

Please fill in your local specifications!

¹The OnStar Services rely on wireless communication networks and satellite positioning systems.

²Please check [[OnStar country website](#)] for a current list of countries covered.

³An embedded Opel navigation unit is prerequisite for this service.

WHAT ONSTAR CAN DO FOR YOU.

Automatic Crash Response. In the event of a crash, built-in vehicle sensors automatically alert an OnStar advisor, who will be immediately connected to your car. The advisor will assess the situation and if needed notify the emergency services and provide them with your exact GPS location.

Wi-Fi Hotspot.² Your car is online! The extra-powerful OnStar roof antenna gives you a stable and quick Internet connection and creates a Wi-Fi Hotspot for up to 7 devices.

Smartphone App. At the touch of a button, remotely lock/unlock your doors, check your oil **life or honk the horn and flash the lights.**

Stolen Vehicle Assistance. If someone steals your car, call our OnStar advisors and give them the reference number the police gave you. The advisor will then provide the police with the location and prevent your car from being restarted so it can be recovered.

Vehicle Diagnostics. Whenever you want, you can ask OnStar to remotely check some of the key systems of your car like engine, transmission, emissions or airbags. If you wish, OnStar can also send you a monthly e-mail with those key data.

Destination Download. Searching for an alternative route, a restaurant, a petrol station or anywhere else you might need? Just press the Service Button! Our advisors will provide you with the address. They can automatically download the location to your Opel's navigation system, too.³

HOW CAN I GET ONSTAR?

OnStar is available as an option in every new Opel Astra and even comes standard with the new **Innovation** and Dynamic Trim Levels.

To get it:

1. Request OnStar when you order your new Opel Astra.
2. OnStar will send you an e-mail invitation so you can activate your account.
3. Complete your registration and set up your preferences.
4. OnStar is ready to go!

After the 12-month free trial period, you can decide to order a continuation of the OnStar Services. This will be subject to a fee.

Please fill in your local specifications!

Fuel consumption in l/100 km: urban 7,3-3,9, extra-urban 4,5-3,1, combined 5,5-3,4; CO₂ emission in g/km: combined 128-90 g/km. According to regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable).

All information was accurate and up to date at the time of going to print. The company reserves the right to alter engine specifications at any time, which may influence the content of the shown data. Please consult your Opel dealer for the latest information. All figures quoted relate to the EU base model with standard equipment. Fuel consumption data and CO₂ emission data are determined according to regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable), taking into consideration the vehicle weight in running order, as specified by the regulations. Additional equipment and factory-fitted options may lead to slightly higher results than the stated consumption and CO₂ figures. The figures for fuel consumption and CO₂ emissions do not relate to a specific vehicle and are not part of an offer. They are provided only for the purpose of comparison between different vehicles but may differ from the actual fuel consumption achieved in real-world driving conditions which are greatly influenced by driving style and operating conditions. Additional equipment and factory-fitted options may increase the weight of the vehicle when empty and in some cases the permissible axle weights as well as the permissible total weight of the vehicle and reduce the permissible towing weights. This may lead to a reduction in top speed and increased acceleration time. Driving performance figures assume a 75 kg driver plus a 125 kg load.

Some feature descriptions in this brochure may refer to, and some illustrations may show, optional equipment not included in the standard delivery. The information contained in this brochure was accurate at the time of going to print. We reserve the right to make changes in design and equipment. The colours printed in the brochure only approximate actual colours. Illustrated optional equipment is available at extra charge. Availability, technical features and equipment provided on our vehicles can vary outside the Federal Republic of Germany. Information about Design for Recycling, take-back locations of End of Life Vehicles (ELVs) and the recycling of ELVs can be found on the Internet page www.opel.com. For precise information on the equipment provided on our vehicles, please contact your local Opel partner.
