

NEW
CITROËN ë-SPACETOURER ELECTRIC
AND CITROËN SPACETOURER

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

1974

Citroën launches CX. It's the ultimate mix of technical innovation and advanced design with the engine and gearbox positioned together at the front. Sophisticated hydropneumatic suspension, concave rear screen and a futuristic dashboard help it to succeed amongst more ordinary rivals.

2019

The spectacular design of the 100% electric 19_19 Concept is inspired by aeronautics and pushes comfort to the extreme, with a lounge on-the-move experience created by intelligent suspension. It also provides autonomous driving, a personal assistant and a range of 500 miles.

CITROËN Origins

CLICK ON THE LOGO TO FIND OUT MORE

Discover the models that make up Citroën's extraordinary history, from 1919 to the present day.

1934

Citroën revolutionises the automotive landscape with Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

1939

Citroën launches 'TUB', a supremely practical modern design with a sliding side door: its successor is the famous Type H, above, launched in 1948.

1948

The much-loved 2 CV is created as a "safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage". More than 5 million are made.

1955

Unveiled to a stunned public at the 1955 Paris Motor Show, DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertone, earns it the nickname 'flying saucer'. Under the skin it's just as advanced.

1968

It's a golden age for light and agile vehicles like Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

1970

The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this hatchback will go on to sell around 2.5 million units.

ELECTRIC

OR DIESEL

New Citroën ë-SpaceTourer electric and Citroën SpaceTourer both offer the same fantastic features when it comes to modularity, interior space, boot volume and driver assistance systems, but New Citroën ë-SpaceTourer electric provides a shorter-length option and access to the increasing number of town centre low emissions zones. New Citroën ë-SpaceTourer electric has everything you want, making it the perfect companion.

ENGINE
FROM 120 TO 180 HP

EAT8

ELECTRIC POWER

Instant torque is the secret to the smooth performance of New Citroën ë-SpaceTourer electric. The electric motor provides power of 100kW, the equivalent of 136hp, and a maximum speed of 81mph. Three driving modes let you tailor performance to your mood or need: Normal is the best compromise between range and dynamic performance; Eco optimises energy consumption; and Power delivers an identical performance to the unladen vehicle, even when fully loaded.

The lack of noise and vibration makes Citroën ë-SpaceTourer electric particularly comfortable, whilst the selector on the centre console makes it easy to control the Park, Reverse, Neutral, Drive and Brake functions. "Brake" mode captures regenerative braking energy captured during braking and deceleration, returning it to the traction battery.

**RANGE OF UP TO
136 MILES WLTP***
**UP TO 80% CHARGE
IN 30 MINUTES****
**BATTERY WARRANTY
8 YEARS / 100,000 MILES**

* Depending on version. ** You can obtain 15-80% of the vehicle charge in 30 minutes from a 100kW rapid charging station. The vehicle will rapid charge at a rate of up to 100kW, depending on the power of a rapid charging station used and will take longer to charge at a lower power.

DIESEL POWER

Each of Citroën SpaceTourer's four available engines features BlueHDi diesel technology. This new generation of engines dramatically reduces emissions of nitrogen oxides (NOX), while also reducing CO₂ emissions and fuel consumption.

The EAT8 (Efficient Automatic Transmission 8-speed) automatic gearbox combines driving pleasure with environmental efficiency. Thanks to Quickshift technology it provides fast and fluid gear changes, offering exceptional dynamism and driving pleasure, both on main roads and in town. By optimising the gear-change speeds, the EAT8 automatic gearbox makes it possible to achieve fuel consumption and CO₂ emissions amongst the lowest in the category.

DESIGNED TO BE PRACTICAL

OPENING REAR SCREEN

Citroën SpaceTourer is here to simplify your life. Its opening rear screen*, makes it easy to put things in the boot, take them out or just retrieve something from the parcel shelf without having to open the full tailgate. It's so simple.

'HANDS-FREE' SLIDING SIDE DOORS

How do you open and close your car's doors with your hands full? With Citroën SpaceTourer's 'Hands-free' sliding side doors technology*, simply pass your foot under the corner of the rear bumper to automatically unlock and open the side door you're next to. Practical, ingenious and unique. You can also close the door and lock the vehicle with the same movement.

EXCEPTIONAL MODULARITY

Citroën SpaceTourer's intelligent, flexible design ensures everyone and everything onboard travels safely, securely and in comfort. The second- and third-row '2 + 1' bench seats slide to give maximum legroom. These seats and the front passenger seat are all independently foldable, making it simple to fit long loads inside. If you need a pure load carrier, all of the back seats are removable, leaving a flat floor and large amounts of space. There's an impressive 4900 litres (4554 litres VDA) inside the XL. There are also side window blinds and aircraft-style tables with cup holders and numerous other storage compartments to enhance the feeling of comfort and utility*. Finally, USB sockets, 12 V or 230 V, are accessible for charging multiple portable devices in the passenger compartment.

** Depending on version.*

CONNECTIVITY

CITROËN CONNECT NAV

Citroën SpaceTourer gives you advanced technologies which make driving easier. The 7" colour capacitive touchscreen connects you to all of the car's functions, your media, phone and navigation. Citroën Connect Nav with voice control* brings you a wealth of real-time traffic information, the location of fuel stops and prices, car parks⁽¹⁾ and even the latest weather. A 'Speed Camera Alert' option sends audible and visible alerts throughout your journey, while the 180° Colour Reversing Camera* displays an aerial view of the rear part of the car to help you park precisely in even the tightest spots.

CITROËN CONNECT ASSIST

Help whenever and wherever you need it with a Geolocated Emergency and Assistance Call system, free of charge, without subscription and available 24/7. The appropriate emergency services are called, either automatically or by pressing the "SOS" or "Assistance" button in the vehicle.

CITROËN CONNECT PLAY

With the Mirror Screen function you can enjoy your smartphone safely, controlling compatible apps through the 7" touchscreen using Apple CarPlay™ or Android Auto⁽²⁾.

** Available as an option or standard on selected versions.*

AUTO

INTELLIGENT BEAM HEADLIGHTS

When another vehicle is detected at night, this system instantly switches from full beam to dipped and then back again once the oncoming vehicle has passed. It works from 15mph upwards.

FOG LIGHTS WITH STATIC CORNERING FUNCTION*

ADAPTIVE CRUISE CONTROL WITH STOP FUNCTION (ACC STOP)

Providing an additional light beam on the inside of bends, this innovation makes tricky bends and junctions safer and easier to navigate.

COLLISION RISK ALERT

COFFEE BREAK ALERT

Using a radar sensor, the system detects the vehicle in front and automatically maintains whichever safe distance has been chosen in advance by the driver. The system can use engine braking to reduce the vehicle's speed.

(Citroën e-SpaceTourer: conventional cruise control/speed limiter only.)

COLOUR HEAD UP DISPLAY

DRIVER ATTENTION WARNING

If there's any risk of collision with a vehicle or pedestrian, Collision Risk Alert sends an immediate audible and visible warning. It works above 18mph using a camera fixed to the front of the car.

BLIND SPOT MONITORING SYSTEM

DRIVER ATTENTION WARNING

Using a transparent strip to display key driving information (current and recommended speed, cruise control or speed limiter setting, navigation guidance and collision risk alert) within the driver's field of vision, the Colour Head-Up Display helps the driver to keep their eyes on the road.

COFFEE BREAK ALERT

DRIVER ATTENTION WARNING

When it's time to take a break from your journey, this system lets you know. It works after two hours of continuous driving over 40mph.

DRIVER ATTENTION WARNING

BLIND SPOT MONITORING SYSTEM

This system monitors the attention levels of the driver via the multifunction camera located at the top of the windscreen. An audible and visual alert warns the driver if their attention drops.

BLIND SPOT MONITORING SYSTEM

BLIND SPOT MONITORING SYSTEM

The ultrasonic Blind Spot Monitoring system lets the driver know if there is a vehicle in the blind spot by showing an orange light in the corner of the door mirror.

* Depending on version.

⊘ CAN BE DEACTIVATED

LANE DEPARTURE WARNING SYSTEM (LDWS)

This alerts the driver with an audible and visual warning when the car crosses a solid or broken lane-marker line, without the indicator being used.

SPEED LIMIT SIGN RECOGNITION AND RECOMMENDATION

Using the camera to detect speed limit signs, this system continually indicates the current legal limit. The driver can use the indicated speed as the new cruise control or speed limiter setting.

Citroën ë-SpaceTourer: extended recognition to include "Stop", "No Entry" and "No Overtaking" signs.

TRAILER STABILITY CONTROL

If you're towing a trailer, this additional function of the ESP detects any swaying movement of it and acts on the vehicle's braking system to stabilise it.

(Not available on Citroën ë-SpaceTourer.)

ACTIVE SAFETY BRAKE

This advanced safety feature is designed to reduce physical injury to passengers, using information from the multifunction camera at the top of the windscreen to brake for the driver. It functions from 0 to 19mph to help avoid collisions with moving or stationary obstacles or pedestrians, and above 19mph to help reduce speed before impact.

HILL START ASSIST

This system prevents your vehicle moving on a slope when the brake pedal is released. Hill start assist is activated on slopes of more than 3%, stabilising the vehicle for around two seconds, giving you time to move calmly from the brake pedal to the accelerator pedal.

180° COLOUR REVERSING CAMERA

In reverse gear, the touch screen uses the camera to show a 180° view of the rear of the vehicle and its surroundings, with coloured lines representing obstacles and their distance from you.

KEYLESS ENTRY AND START

This system allows you to lock, unlock and start your vehicle without having to take the key out of your pocket or bag.

* Depending on version.

INTUITIVE INTERFACE

New Citroën ë-SpaceTourer electric has been designed with one priority: to make its day-to-day use easier. A dedicated instrument panel continuously displays the battery charge status gauge and the power consumption gauge for electrical equipment such as the heating and air conditioning. This is supported by the information the 7" capacitive touchscreen provides, including among other things, an "Energy" section grouping together all of the information dedicated to the special electrical features of New Citroën ë-SpaceTourer electric: the energy flow with, in particular, the battery charge level, your consumption statistics and the programming of deferred charging.

STATISTICS : know your electric consumption so that you can optimise your driving.

ENERGY FLOW : view the operation of the electric technology.

DEFERRED CHARGING : programme charging to start at the time you choose.

EASY RECHARGING

Again with the focus on ease of use, New Citroën ë-SpaceTourer electric has three battery charging methods, as well as a complete ecosystem of practical services. The charging flap is located on the front-left wing and incorporates an LED so that you can visually monitor progress. Note that Citroën guarantees the traction battery for eight years or 100,000 miles for 70% of its charging capacity.

THREE WAYS TO CHARGE

Of the three charging options, the fastest is to use a Wall Box or public terminal. A Wall Box installed at your home or work provides a 0 to 100% charge in less than eight hours. On a 100kW public terminal, the 50kWh battery in New Citroën e-Spacetourer electric can achieve up to 80% charge in just 30 minutes**, leading its segment for super-fast charging times.

To help you install your charging solution, Citroën recommends its charging partner, Pod Point. You can be confident of obtaining a quality installation, fully approved under the government Homecharge scheme, at the best price. Following the consultation* for your electrical installation, the terminal will be installed using a special network of certified technicians at your service throughout the UK.

** In the unlikely event that a charging solution can't be installed, you will have the option of cancelling your order.
** You can obtain 15-80% of the vehicle charge in 30 minutes from a 100kW rapid charging station.
The vehicle will rapid charge at a rate of up to 100kW, depending on the power of a rapid charging station used and will take longer to charge at a lower power.*

	50KWH BATTERY XS
SINGLE PHASE 32A WALL BOX (7.4KW)	7 HOURS 30 MINUTES
THREE PHASE 16A WALL BOX (11KW)	4 HOURS 45 MINUTES

ULTRA-MODULAR

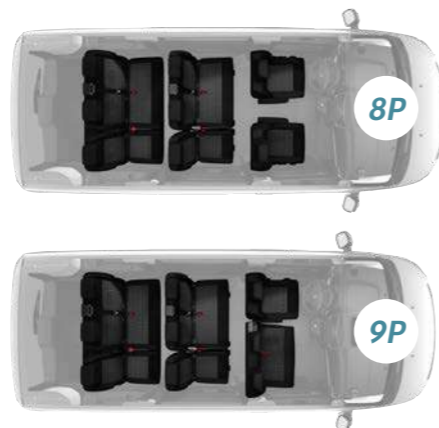

CITROËN SPACETOURER

Citroën SpaceTourer is available in two lengths and two trim levels, with eight seats. Interiors offer real modularity thanks to the rail-mounted removable seats, which mean optimum boot volume and generous passenger legroom. With its foldable seats making it easy to maximise space, Citroën SpaceTourer is ready to accommodate bulky items for leisure or home in minutes.

CITROËN SPACETOURER BUSINESS & BUSINESS EDITION

Citroën SpaceTourer Business is offered in a single length (M) and Citroën SpaceTourer Business Edition is offered in both M and XL lengths. Both versions are available with up to nine seats. These stylish versions are perfect for passenger transport professionals (hotel shuttles, taxis, etc.), as it can be tailored to suit your specific seat configuration and equipment requirements.

SELECTION OF ACCESSORIES

By choosing Citroën, you are entering a world where quality, safety, style and performance combine as one. The range of Genuine Citroën Accessories has been developed specifically for your vehicle, so you can personalise your vehicle to reflect your desires and needs.

But that's not all...

Tested in the most demanding conditions, Citroën Genuine Accessories offer an excellent level of quality and safety. And, to accompany you on all your journeys, Citroën has selected, for you, in addition to its genuine accessories, a wide range of additional accessories from the best manufacturers. Tested and validated by our engineers, all Citroën accessories are guaranteed for one year. You can see the complete range in our Accessories Brochure.

• CITROËN WARRANTY

Every new Citroën car has the benefit of a 3 year* warranty package, plus a 12 year anti-perforation** warranty and a 3 year paint warranty. We now offer selected Citroën models with a 5 year or 100,000 mile (whichever comes first) fully transferable warranty on all vehicles ordered online. Visit <https://www.citroen.co.uk/how-to-order-online> for details

• CITROËN ASSISTANCE

Citroën Assistance brings rapid expert roadside assistance to you in an emergency in response to a telephone call. It comes free of charge for a full year and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. Please note, Citroën Assistance only applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out of fuel, misfuelling, loss of keys, lock-ins, road traffic accidents and punctures/wheel changes. For more details, please contact Citroën at <https://www.citroen.co.uk/owner-services/emergency-assistance>

* 2 years' unlimited warranty. No-fee customer option of 1 year's retailer provided warranty, only on cars sourced from Citroën UK Limited. Note: Retailer provided warranty is limited to 60,000 miles for cars.

** Against all internal to external perforation to bodywork or underbody.

• CITROËN MAINTENANCE

From roadside assistance to replacing wear and tear parts or regular servicing, with Citroën Maintenance you have total peace of mind. For a one-off fee or low monthly payment, our experienced engineers will take care of your Citroën, whatever happens. To find out more, contact your Citroën retailer or Citroën Authorised Repairer.

• CITROËN SERVICING

Available up to 1 year from your vehicle's registration date, but before its first chargeable service, a Citroën Servicing Package enables you to pay in advance for your vehicle's servicing needs for 3 years/35,000 miles. For further information, please contact your Citroën retailer.

• CITROËN MOT TEST

Once your vehicle is three years old, it requires an annual MOT Test. This is a legal requirement to check that it meets road safety and environmental standards. Our nationwide network of Citroën Authorised Repairers know your Citroën best, so if your vehicle's MOT Test is due, why not contact your local Citroën retailer? You can be confident that your vehicle will be looked after by one of our expert trained Citroën Technicians, nominated by DVSA as accredited MOT Testers. Plus, whilst your vehicle is with us, we'll carry out a free manufacturer diagnostic test, check for any new technical updates and carry them out for free - that's the advantage of getting your test done by the people who really know your Citroën.

DOWNLOAD THE MYCITROËN APP

on your smartphone and benefit from information and services personalised to your Citroën vehicle.

DOWNLOAD THE SCAN MY CITROËN MOBILE APP

Get all the vital information at your fingertips. Scan features and components and access details of the exact new Citroën that you're interested in.

Prices quoted above are for the standard 8 seat version. See the options list for alternative configurations.

Insurance groups (1-50) are an indication only, please consult your insurance company for further details.

CO₂ figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO₂ figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO₂ emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

For further information on CO₂ and pricing for vehicles with optional equipment, please visit <https://www.citroen.co.uk/configurator.html>

+ Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load.

The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures.

* 'On the Road' MRRP includes registration plates and delivery to dealer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the Government). Please see our Prices and Specifications brochures or contact your local Citroën dealer for the most up-to-date prices and specification details for all models.

Some options may change CO₂ emissions, please check with your local dealer.

¹ Please refer to Technical Specification Pages for impact on vehicle CO₂ emissions, weights and MPG data.

² Subject to subscription – please visit <https://services-store.citroen.co.uk/> to subscribe.

³ The SpeedCam/Danger Zones package helps you identify situations which require increased attention by sending you both audible and visual alerts (subject to settings). Within the UK the service highlights different types of speed cameras, and red light cameras, as well as accident blackspots. While the service is operational across most of Europe, it adapts as necessary when

travelling in different countries to ensure the local laws with respect to Speed Camera identification are followed. This option can be added to your Citroën Connect Nav subscription at any time. Please visit <https://services-store.citroen.co.uk/> to subscribe.
