ICON OF HIGH-TECH STYLE

SCULPTURAL...

DS 3 CROSSBACK is the luxury compact SUV, combining refinement and advanced technology. With its striking design, DS 3 CROSSBACK stands out as modern, sophisticated and elegant.

At the front, the iconic DS WINGS surrounding the grille give a chiselled and sculpted appearance. The vertical LED Daytime Running Lights with their 'Pearl' design and the unique DS MATRIX LED VISION headlights express modernity and performance.

... AND POWERFUL

From the rear, a muscular shoulder-line evokes powerful performance. There is elegance too, thanks to the slim rear lights, connected by a chrome strip featuring the CROSSBACK signature. When you're driving DS 3 CROSSBACK you'll be the centre of attention.

DS PILOT

DS 3 CROSSBACK, DS Inspiration OPÉRA, Millennium Blue body colour, Black Onyx roof, 18 inch 'SHANGHAI' alloy wheels

DS PARK PILOT

Thanks to DS PARK PILOT, your car will park itself without you touching the steering wheel or pedals. DS 3 CROSSBACK can identify a suitable parking space as you drive past. To park, simply keep the button pressed and wait for DS 3 CROSSBACK to do the rest. It then carries out the manoeuvre either parallel to the kerb or in a parking bay.

Coming soon

DS DRIVE ASSIST

A step closer to autonomous driving, DS DRIVE ASSIST makes long journeys easier by combining several different driving aids. Active Cruise Control with Stop & Go function maintains your speed, as well as a safe distance to the car in front, while also positioning DS 3 CROSSBACK in the centre of its lane, thanks to Lane Keeping Assist.

When the traffic slows, the Stop & Go function* can even bring the car to a complete stop and set off again as the traffic moves. By bringing all of these technologies together, DS DRIVE ASSIST takes the stress out of motorway driving.

*Only available with the automatic gearbox

HEAD-UP DISPLAY

Speed, cruise control, speed limits, driver aids and navigation: Head-up display gives you the information you need, without the need to take your eyes off the road.

Inspired by fighter planes, this technology projects all the essential information in colour onto a transparent strip on the dash, in your field of vision.

DS ACCESS

FLUSH FITTING DOOR HANDLES

You'll be amazed by FLUSH FITTING DOOR HANDLES that only appear when you need them. The rest of the time they're concealed, slotting neatly into the bodywork to enhance the sophisticated silhouette of your DS 3 CROSSBACK.

PROXIMITY KEYLESS ENTRY & START

All you have to do is walk up to DS 3 CROSSBACK; when you are 1.5m away, the car unlocks itself and the four door handles appear. Simply open the door, get in and drive off. When you walk away, the door handles retract and the car locks itself automatically.

DS SMART ACCESS

The way we use our cars is evolving and more of us want to share our car with others. DS SMART ACCESS allows you to grant access to your car via the MyDS App. Easily allow up to five friends or family to use your car, or withdraw access at any time, all within the app. *Coming soon.*

DS SAFETY

DS MATRIX LED VISION

The latest generation of smart lighting technology from DS Automobiles, DS MATRIX LED VISION headlights give you something incredible; the ability to drive with your lights constantly on main beam, without ever dazzling other drivers.

Using a camera at the top of the windscreen, these intelligent headlights automatically adapt to prevailing traffic conditions by selectively dimming any part of the beam that would dazzle other drivers.

The DS MATRIX LED VISION headlights are made up of three LED projector modules for dipped beam, as well as a MATRIX BEAM module for driving. This is composed of 15 identical but independent lighting elements that illuminate and dim progressively depending on road conditions.

SPEED LIMIT RECOGNITION AND RECOMMENDATION

This system reads speed limit and traffic signs, immediately alerting you if you exceed the limit. You can also change the setting of the cruise control/speed limiter to adapt your speed to the prescribed limit.

ACTIVE BLIND SPOT DETECTION

This technology actively adjusts the course of your vehicle to help avoid collisions. As well as a warning light in the mirror on the relevant side, you will feel the steering change direction if you continue to move towards another vehicle (with your indicator on).

EXTENDED LANE KEEPING ASSIST

As well as warning you when you are drifting out of your lane, EXTENDED LANE KEEPING ASSIST will also automatically correct the steering to keep you on the right track.

REVERSING CAMERA WITH 180° VIEW

DS 3 CROSSBACK features a reversing camera to make reversing manoeuvres easy, aided by a panoramic 180° view.

EXTENDED EMERGENCY BRAKING SYSTEM

The EXTENDED EMERGENCY BRAKING SYSTEM is an automatic safety feature, designed to make driving safer for you and those around you. Using sensors and a camera in the windscreen, this system anticipates a collision with cars or objects* in front of you, whether it's day or night. The system starts with a visual and audible warning, before applying the brakes automatically if you're not able to react in time.

** Detectable objects include vehicles (driving in the same direction or stopped), pedestrians, cyclists and motorbikes on the road.*

FOCAL ELECTRA® HIFI SYSTEM

Experience pure sound with our signature FOCAL Electra® HiFi System. This high-end sound system was developed with FOCAL, a premium home and automotive audio company that has become a long-time partner for DS Automobiles.

Together, our engineers and technicians have developed this outstanding sound system with 12 speakers, a subwoofer and a 515-Watt amplifier, putting DS 3 CROSSBACK at the cutting edge of in-car audio technology.

Conceived and implemented like an auditorium, the speakers have been perfectly positioned around the cockpit, including a prominent front central speaker in the dashboard and tweeters placed inside the shark's fin. The result is a unique acoustic signature, designed specifically for DS 3 CROSSBACK, providing remarkably powerful, precise sound and an exceptionally immersive listening experience.

A FEELING OF WELL-BEING

Whether on short or long journeys, comfort inside DS 3 CROSSBACK is exceptional. In front and rear seats alike, our engineers have incorporated double density foam using an innovative treatment to give a base that is enveloping and high quality.

And because moments of peace are precious, especially around town, our engineers have made sure that DS 3 CROSSBACK provides superior insulation from road noise and vibration.

E • TENSE

ELECTRIC INNOVATION

THE FUTURE
WITHOUT COMPROMISE

Available to order in 2019, DS 3 CROSSBACK E-TENSE opens the door to a new generation of electric cars.

It features a range of more than 180 miles (300 kilometres*) and the ability to recharge 80% of the battery in 30 minutes at a 100kW charging port.

Clever integration of the battery means interior space isn't compromised, while the 100kW engine delivers dynamic performance and driver enjoyment in silence.

* WLTP cycle, 2019 standard, corresponding to 450 kilometres of the NEDC cycle.

ENGINES

THREE POWERTRAIN CHOICES ARE AVAILABLE FOR DS 3 CROSSBACK: PURETECH PETROL, BLUEHDI DIESEL AND E-TENSE ELECTRIC.

LIGHTWEIGHT & HIGH PERFORMANCE – PETROL
Powerful and efficient, our PureTech petrol engines offer dynamic driving with particularly low emissions.

EFFICIENT & FLEXIBLE – DIESEL

Fitted with the latest generation of innovative pollution control system, our BlueHDi diesel engines are recognised for their high level of efficiency. Less polluting and higher performing, our engines already comply with the emissions standards of the future.

ELECTRIC MOTOR

Enjoy a sensational and entirely new driving experience at the wheel of DS 3 CROSSBACK E-TENSE with its 100% electric motor that combines power and flexibility in complete silence.

DS 3 CROSSBACK is available with an eight-speed automatic or six-speed manual gearbox depending on the engine.

A driving mode* selector on the centre console enables you to adapt the vehicle to your driving style and needs. There are up to seven types of driving and traction modes, depending on your chosen model and options. Driving modes include Manual, Sport, Normal and Eco. Advanced Traction Control modes include Sand, Mud and Snow.

Inspired by you, created for you; Only You is a bespoke programme that makes owning a DS unique.

ONLY YOU SERVICES ⁽¹⁾

MYDS APP - THE KEY TO YOUR WORLD OF DS

Your essential everyday assistant, the MyDS App lets you access the wide range of exclusive Only You services and keeps you permanently connected with your DS. Compatible with every DS ⁽²⁾, MyDS App is at your side before, during and after your drive ⁽³⁾.

DS ASSISTANCE - DRIVE WITH PEACE OF MIND

FREE FOR THREE YEARS⁽⁴⁾, AVAILABLE 24/7 IN CASE OF BREAKDOWN OR ACCIDENT
 So you can drive with complete peace of mind, we've made life easy by guaranteeing you'll stay mobile, no matter what happens.⁽⁵⁾ Accident, breakdown, lost keys or misfuelling are all covered by DS ASSISTANCE with free 24/7 support wherever you are in Europe, available by pushing the DS button in your car, via the MyDS App, or by calling 0800 877 8455 ⁽⁶⁾.

DS VALET - TAKE CONTROL OF YOUR TIME

As time is your most precious commodity, we've created DS VALET. Instead of taking your DS to a DS Workshop or maybe even during the purchase of your DS, this unique service provides you with a personal valet who will help you along the way.

DS RENT - SHORT-TERM DS HIRE

To drive a DS wherever you go, or use your travels to try something new from the DS collection, you can book one from your smartphone using MyDS App, or from your DS retailer.

DS CLUB PRIVILEGE ⁽⁷⁾ - SPECIAL ACCESS TO ONCE IN A LIFETIME EXPERIENCES

By driving a DS you've chosen to experience the best French expertise and sophistication has to offer. To give you an unforgettable experience, we've created DS CLUB PRIVILEGE. To become a member for five years, simply apply via MyDS App. Available straight from your smartphone, our world of privilege has been designed around you.
 DISCOVER THE WORLD OF DS THROUGH UNIQUE EVENTS AND ENJOY EXCLUSIVE BENEFITS:
 These can include private events such as exhibition previews, cookery courses with a celebrity chef, meeting experts in French savoir-faire, private sales of gourmet foods, getaways, shopping and other special activities.

⁽¹⁾ Subject to availability in the DS approved network.
⁽²⁾ Bluetooth® connection to a compatible smartphone required.
⁽³⁾ Requires compatible smartphone, internet connection and navigation. Data charges may apply.
⁽⁴⁾ From date of vehicle registration
⁽⁵⁾ For full Terms and Conditions visit DSautomobiles.co.uk
⁽⁶⁾ Free from a UK landline. From a mobile, charges may vary by network provider.
⁽⁷⁾ Register within 6 months of delivery of your vehicle.

CONNECTED SERVICES

DS CONNECT BOX

Advanced technology is firmly on your side in the event of an emergency with the DS Connect Box. By using geo-location technology, this innovative feature automatically alerts the emergency services in the event of an accident, pinpointing your location for a swift response. Or, in the event of a breakdown, press and hold the DS button to contact DS Assistance

DS CONNECT NAV

DS CONNECT NAV is a 3D connected navigation system with voice recognition. As well as guiding you to your destination, this system offers real-time traffic information via TomTom and even locates nearby petrol stations and car parks.

MIRROR SCREEN*

Access key functions from your smartphone easily and safely while at the wheel. Mirror Screen uses Apple CarPlay™ and Android Auto™ to connect compatible smartphones seamlessly to the car's touchscreen, allowing you to browse your music collection and audio books, access maps, compose and listen to SMS messages using voice controls and even access Apple's Siri at the touch of a button. Mirror Screen is the simple way to stay in touch while you're on the move. (Functionality may vary and is dependent on a compatible smartphone and apps).

SCAN MYDS APP

Access your digital DS handbook with your smartphone with the Scan MyDS App. Point your smartphone's camera at any part of your DS, and the app will display the relevant information from your handbook.

** Available depending on model*

ENGINES

FOR MORE INFORMATION, PLEASE VISIT DSAUTOMOBILES.CO.UK

Engines	Power (hp)	CONSUMPTION COMBINED MPG (L/100KM) MINIMUM TO MAXIMUM	CO ₂ EMISSIONS (G/KM)
PETROL			
PureTech 100 Manual	100	46.0 ^(6.1) - 52.0 ^(5.4)	113 - 105
PureTech 130 Automatic	130	42.2 ^(6.7) - 47.1 ^(6.0)	117 - 109
PureTech 155 Automatic	155	41.7 ^(6.8) - 45.7 ^(6.2)	128 - 121
DIESEL			
BlueHDi 100 Manual	100	54.4 ^(5.2) - 62.7 ^(4.5)	102 - 97

The fuel consumption you achieve, and CO₂ produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO₂ figures. These CO₂ figures, however, are based on the outgoing test cycle NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These figures are used to calculate tax for first registration. You should only compare fuel consumption and CO₂ figures with other vehicles tested using the same technical standard

The grouped figures shown above show the lowest and highest performing results for this model. Consult your dealer for information on specific examples.

DIMENSIONS

DRIVE YOUR DS

There are a range of finance and insurance products to help you get behind the wheel of your DS. Ask your local DS Retailer for detailed help and advice.

SERVICE PLANS & WARRANTY

DS SERVICE PLANS

To keep your DS performing at its best, it's important to Service your vehicle in line with our recommendations. By paying a fixed monthly amount, all of your Scheduled Services will be carried out by an Official DS Workshop. Alternatively, choose to pay the full amount upfront, whichever suits you best. The price of your DS Service Plan will depend on the number of miles you cover, as well as the length of your contract. Contact your local DS Retailer for a personal quote.

DS WARRANTY

Every DS has the benefit of a 3 year* warranty, plus a 12 year anti-perforation** warranty and a 3 year paint warranty. To extend your vehicle warranty to 4 or 5 years, ask your local DS Retailer about an extended warranty.

* 2 years unlimited warranty. No-fee customer option of 1 year Dealer provided warranty, only on cars supplied by the DS UK dealer network.

Note: Dealer provided warranty is limited to 60,000 miles.

** Against all internal to external perforation to bodywork or underbody.

DS DELIVERY VALET

YOUR TIME IS OUR PRIORITY

DS DELIVERY VALET allows you to benefit from the delivery of your new or used DS to the address of your choice and collection of your old vehicle.

PRICE: £195 inc. VAT

From January 2019 all models are Type Approved according to Worldwide Harmonised Light-Duty Vehicles Test Procedure (WLTP). WLTP is the new official test regime and replaces the New European Driving Cycle (NEDC). The CO₂ data has been converted from WLTP back to NEDC-equivalent values in accordance with current vehicle tax and Company Car Tax (CCT) legislation. Two values for CO₂ are shown per version, these are the 'Vehicle High' value and the 'Vehicle Low' value. For transparency and clarity, the 'Vehicle High' value has been used to calculate the first year taxation in the prices shown above. The actual CO₂ value of a version may vary according to optional equipment fitted but, other than in exceptional circumstances, will be between 'Vehicle High' and 'Vehicle Low'. For full information, including WLTP fuel consumption data, please see technical specification pages, or refer to your nearest DS retailer. 1. Vehicle High = High specifications vehicle fitted with maximum available options. 2. Vehicle Low = Standard specifications vehicle fitted with minimal options. All diesel engines are fitted with a Diesel Particulate Filter System. Insurance groups (1-50) are an indication only, please consult your insurance company for further details. *The Manufacturer's 'On The Road' Recommended Retail Price includes the following: Delivery to Dealer and Number Plates £583.33, V.A.T. £116.67, Government First Registration Fee £55 and Graduated Vehicle Excise Duty. Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

TECHNOLOGY

DS MATRIX LED VISION HEADLIGHTS

IN BRIEF

DS 3 CROSSBACK features the latest generation DS MATRIX LED VISION headlights, which adjust automatically to driving and road conditions. This intelligent lighting technology uses a camera mounted on the windscreen to monitor the road ahead and adjusts accordingly, for example switching automatically from full beam to dipped headlights to avoid dazzling other drivers. Three LED modules are used for dipped beam, supplemented with a MATRIX BEAM module for standard driving. This incorporates 15 identical but independent elements, illuminating and dimming progressively depending on road conditions.

The Matrix Beam module consists of independent segments, which come on and go out gradually, segment by segment, depending on the driving conditions detected by the camera at the top of the windscreen.

FOCUS ON THE ROAD CONDITIONS

When approaching a vehicle from behind that is travelling in the same direction, the light segments around the vehicle being followed will go out. This creates an unlit area so that the driver in front is not dazzled.

When overtaking a vehicle, the light segments around the vehicle in front will go out to prevent dazzle. The lights will return to standard levels as soon as the over-taken vehicle moves out of the lighting zone.

When entering an urban area, the light segments will gradually go out from the outside edge and move to dipped status.

When leaving an urban area, the light segments will come on gradually from the inside to the outside edge and move to main beam status.

When driving on a major road, Motorway mode will activate if the car travels at 68mph or faster for more than 5 seconds. This will create a cone of light with a raised beam and increased reach to improve visibility in higher speed situations. The function is active when lights are in automatic mode but can be turned off via the central screen.

FLUSH FITTING DOOR HANDLES

IN BRIEF

FLUSH FITTING DOOR HANDLES enhance the exterior styling of DS 3 CROSSBACK; beautifully concealed within the doors, they only appear when needed.

DETAILS

FLUSH FITTING DOOR HANDLES deploy, either via the key or automatically when approaching the vehicle (when paired with PROXIMITY KEYLESS ENTRY AND START*). FLUSH FITTING DOOR HANDLES represent style, technology and refined attention to detail to embody perfectly the core values of DS 3 CROSSBACK.

*Standard or optional equipment according to trim levels. For availability information, please refer to the equipment pages.

E-TENSE

ALL ELECTRIC RANGE

193-
232
MILES*

* The electric range you achieve in real life conditions will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Only compare fuel consumption and CO₂ figures with other cars tested to the same technical standard.

REGENERATIVE BRAKING

(B)

for Braking Mode can be selected on the gear selector, meaning your vehicle will use a higher level of regenerative braking and slow-up faster when your foot is off the accelerator. Regenerative braking slows the vehicle while harnessing the kinetic energy back into the battery, thus helping to maximise range. Around town, the range can be increased up to 20% with regenerative braking.

WHAT AFFECTS THE RANGE?

Driving style, driving speed, use of heating & air conditioning, acceleration or load are several factors that will affect the range of your car. Limiting the impact of the above factors will maximise range.

The predicted range gauge on our vehicles utilises recent driving history, as well as remaining battery charge and current driving conditions to estimate the range available.

CHARGING

ACCELERATED CHARGING

Install a home charging unit to access Accelerated charging at home.

7kW

7:30 HOURS

RAPID CHARGING

50kW RAPID chargers are most commonly found at motorway service stations. 100kW RAPID chargers are beginning to be installed across the country.

50kW

1 HOUR

100kW

30 MIN

Our approved charging partner Pod Point can assist with the installation of a home charging unit. They are fully approved under the government's Homecharge scheme, so if you have off-street parking, you could be eligible for a grant towards the cost of your charger. Speak to your DS Retailer about installing a home charging unit.

Take advantage of our BP Pulse subscription - offered exclusively to DS E-TENSE customers. BP Pulse offers the largest network of UK chargepoints, and for subscribers the electricity is free at the majority of charging locations.

CHARGING ON THE GO

Using your DS Connect Nav, you can plan breaks en-route for refreshments and recharging. With over 20,000 public charging points in the UK and over 100,000 around Europe, no journey is too far.

20,000+
charging points in the UK, and growing

MyDS APP

E-TENSE EXCLUSIVE FEATURES.

CONTROL YOUR ELECTRIC CAR FROM YOUR SMARTPHONE WITH THE MyDS APP.

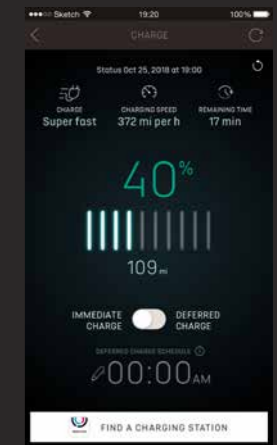

RANGE INFORMATION

With the MyDS smartphone app, you can see your car's current state of charge and approximate remaining range. When your car is plugged in, the speed and expected remaining charging time are also shown.

REMOTE CHARGING

With control of remote charging you can use the MyDS app to commence charging or initiate a programmed charge. A programmed charge enables you to use the most beneficial energy rates to replenish your battery.

REMOTE AIR CONDITIONING

This feature allows you to programme the heating or air conditioning of your car while it's still charging. Your car will be set to your preferred temperature when you get in, without diminishing the range available.

TECHNOLOGY

PROXIMITY KEYLESS ENTRY AND START

IN BRIEF

PROXIMITY KEYLESS ENTRY AND START accurately recognises your arrival at the car and conveniently deploys the FLUSH FITTING DOOR HANDLES to welcome you as you approach.

DETAILS

By keeping the vehicle key with you, you can enter the car and start/stop the engine with a simple push of the start/stop button on the dashboard.

When leaving the car, a simple touch on one of the front/rear door handles or on the rear tailgate's push button is enough to lock the vehicle.

Should you forget and leave the key inside, the car will prevent itself from being locked. Also, if you leave the vehicle while the engine is still running, a warning signal will ring to alert you.

The PROXIMITY KEYLESS ENTRY AND START gives you hands-free access through automated deployment of the FLUSH FITTING DOOR HANDLES and unlocking of the doors as you approach the car (in addition to the keyless entry and start function). Conversely, when you walk away from the car FLUSH FITTING DOOR HANDLES will retract and lock automatically.

HOW IT WORKS

At a distance of 3m, your DS 3 CROSSBACK detects the key, unfolds the door mirrors and illuminates the headlights in anticipation of your arrival .

When you are within 1.5m of the car, the FLUSH FITTING DOOR HANDLES deploy to reveal themselves and unlock your DS 3 CROSSBACK automatically.

When leaving the car the door handles will retract at a distance of 2m away from the car, accompanied by an audible and visual confirmation that your DS 3 CROSSBACK is locked.

DS DRIVE ASSIST

IN BRIEF

Travel long distances with peace of mind thanks to DS DRIVE ASSIST, the advanced driving aid that brings you a step closer to autonomous driving. This system combines the new Active Cruise Control Stop and Go and Lane Keeping Assist to manage driving in semi-autonomous mode, in specific conditions. DS DRIVE ASSIST helps manage steering and speed and is active at speeds between 40mph and 110mph.

DETAILS

A reference speed is entered into the Active Cruise Control Stop and Go (from 20 mph). At the same time Lane Keeping Assist is activated using a button on the right of the dashboard (from 40 mph).

The system then registers your DS 3 CROSSBACK's position on the road (in the centre, on the left or on the right, in line with your driving habits). From this point on, your DS 3 CROSSBACK will help control speed and steering.

This system is particularly well suited to major roads and motorways, provided that the white lines are clearly visible. The system will help to drive the car but does not replace the driver who must remain focused, vigilant and in control of the car at all times.

NOTES

To remain active, DS DRIVE ASSIST requires you to keep your hands on the steering wheel at all times even if you are not actively steering the car.

You can take back control at any time by:

- Applying torque to the steering wheel (to cancel Lane Keeping Assist).
- Braking (to cancel Active Cruise Control Stop and Go).
- Pressing the button to deactivate the function.

This feature does not reduce the need for absolute driver vigilance.

TECHNICAL SPECIFICATION

1 The performances are defined in standard condition (25°C, 1000mb).
 2 The performances measurements are realised on flat, straight road.
 3 The performances may vary according to the trim level and/or equipment.
 4 For automatic transmissions, elasticity measurements are realised in DRIVE position.

DS CARE FOR CAR AND DRIVER

*The delivery charge includes all miscellaneous charges, including the supply and fitment of registration plates etc.

£0.00

COMPREHENSIVE WARRANTY

Every new DS car offers the benefit of a three year¹ warranty package, plus a 12 year anti-perforation² warranty and a three year paint warranty. The E-Tense versions come with 8 years' or 100,000 miles battery warranty, whichever comes first, if the charging capacity of the batteries fall below 70%.

¹ Two years' unlimited mileage manufacturer's warranty. No-fee customer option of one year's Retailer provided warranty, only on cars sourced from DS AUTOMOBILES. Note: Retailer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles (excluding motorhomes and other converted vehicles).

² Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a DS franchised Retailer every two years from its fourth anniversary.

DS ASSISTANCE

In response to a free telephone call in the UK, DS Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for three years, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. You can also purchase additional DS Assistance via your local DS dealer at any time. DS Assistance applies to incidents covered by the new vehicle warranty, and non-vehicle faults, such as running out of fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/stolen, road traffic accidents and punctures / wheel changes.

The On the Road MRRP featured includes the following:
