HANDLES LIKE AN XJ

IN RECENT YEARS it has become increasingly difficult to find the parts needed to repair the original Jaguar power steering box and it is now **virtually impossible** to find all the necessary components to convert models that were not originally equipped with power steering.

And of course, as time goes by the stock of available parts will inevitably diminish further still, so the problem can only **get worse**.

As one of the UK's leading suppliers of classic Jaguar parts **SNG Barratt** has long been committed to finding a viable solution to this problem.

Now, with the introduction of our comprehensive MK2 power rack and pinion kit - we can offer our customers the **DEFINITIVE ANSWER**

KIT CONTAINING ALL

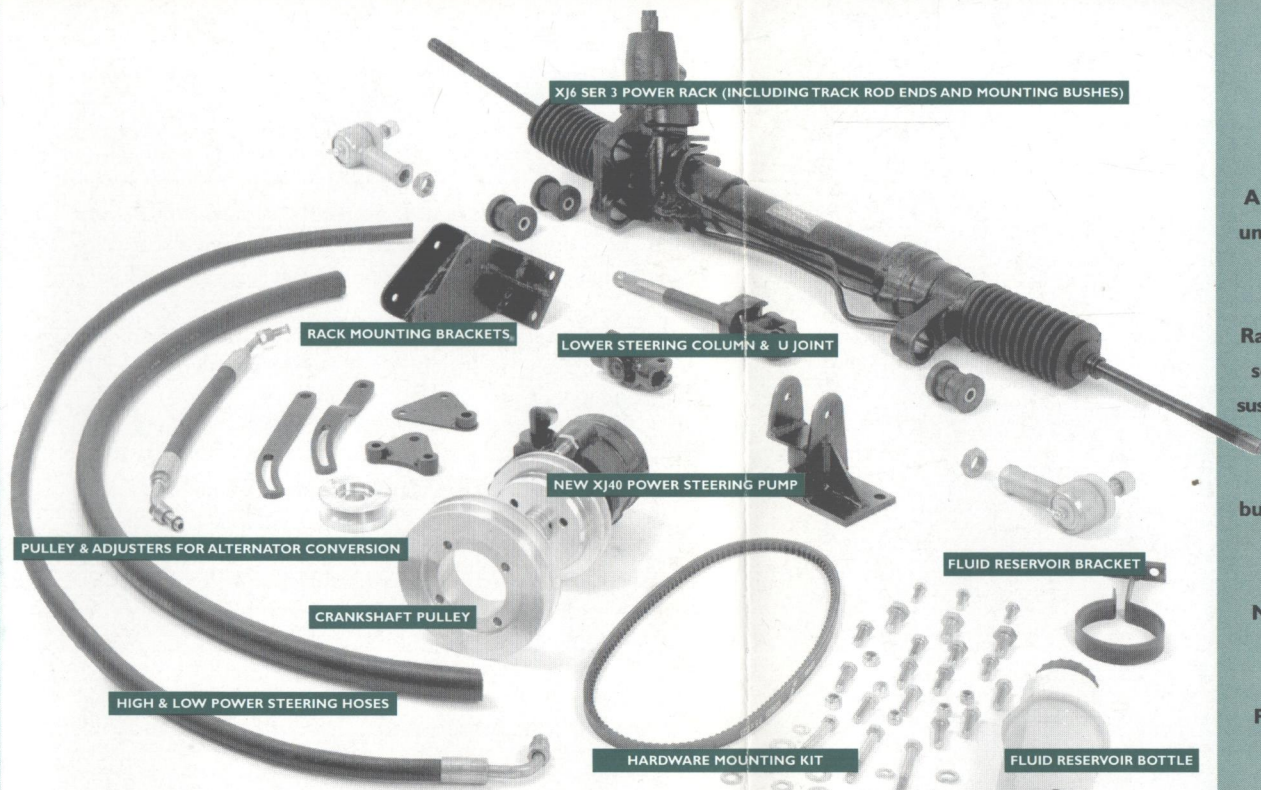

THE PARTS YOU NEED

TO FIT YOUR MK2

WITH AN XJ6 SERIES 3

STEERING RACK

SAFELY AND EASILY

SPECIFICALLY DEVELOPED for Mk2 enthusiasts, our new power rack and pinion steering kit is the most comprehensive of its kind.

Designed by MK2 specialists **Vicarage**, it contains all the parts necessary to fit an XJ6 Series 3 steering rack to your MK2, regardless of whether it was originally equipped with power steering.

What's more, as it encompasses many later model Jaguar parts, including an **XJ40 PAS pump**, you are assured of much greater reliability and superior performance.

If you are looking to upgrade the electrical system to cope with modern conveniences (high powered sound system, modern alarm system or improved lighting for example) special kits are available containing the extra items needed to fit an alternator.

And, we can of course supply the alternator itself should you require.

If you like the thought of your MK2 handling like an XJ call **SNG Barratt** on **01746 765432**

PLEASE NOTE - AS THE INSTALLATION OF THIS KIT AFFECTS A VITAL ASPECT OF SAFETY, IT SHOULD BE CARRIED OUT BY A SUITABLY QUALIFIED PERSON
