Five doors

and generous load space

The Datsun 120Y estate is a cut above its competitors in many respects. Unusually for an estate car of this size, it has five doors, including the wide lift-up tailgate, so there are no awkward problems about loading it—with either passengers or luggage. The 120Y has an impressive specification that includes a push-button radio as standard, together with tinted glass, reversing lights, clock and many other "extras" all included in the basic price. If you are looking for space in a budget price 40mpg economy car, the 120Y estate is the answer.
