## Inspiration

You enjoy the freedom to be out and about. With family or friends. At work or at play. To suit your lifestyle. You are a keen driver, who likes the feel of the open road. Nothing to hold you back; green lights all the way. The pure joy of driving which feels so natural.

But it's not just a responsive vehicle that you need. You also want style. A spacious interior and comfort are a must, as well as the ability to perform a variety of tasks. Enter the Mazda MPV (Multi-Purpose Vehicle) – a car for which the phrase MPV was invented.

The Mazda MPV seats up to seven and still has plenty of room in the back for luggage. Just climb on board and enjoy the space, the comfort, and the journey – even on the longest trips.

But that's not all the Mazda MPV has to offer. It also has real power under the skin for spirited performance whilst on the move.

Mazda MPV

MOVING YOU IN NEW WAYS.

The Mazda MPV offers an abundance of space, seats that can be configured to meet a wide variety of transporting needs and an exceptional level of insulation from road noise to maximise your riding comfort. But it also has style.

Its clean dynamic lines are complemented by sporty bumpers and 5-spoke alloy wheels. Beauty is much more than skin deep however – something you will appreciate as soon as you get behind the wheel. It will move you in many different ways. Whether cornering or on the straight, once you're on the road you'll find that the Mazda MPV delivers on its promise: real driving enjoyment.

Driving dynamics

SPIRITED DRIVING.

The best thing about expectations is when they are exceeded and the Mazda MPV does this superbly. With its spacious interior, looks, handling and quality it delivers a superlative overall driving experience.

An all new range of state-of-the-art engines, combined with an optimised chassis and direct-link steering system, deliver the perfect combination of power and control. The result: high directional stability, agile handling and excellent acceleration. A spirited performance all round.

The Mazda MPV is more than simply a people mover. Its responsive nature will rekindle the enjoyment of that quiet country road or open stretch of highway

But don't just take our word for it. See your local Mazda dealer for a test drive. You won't regret it.

Flexibility

EXCEPTION THAT DEFIES THE RULE.

So what distinguishes the exceptional Mazda MPV from the ordinary? Simple. A streamlined outer body with real capacity inside and with the Mazda MPV, that's exactly what you get.

With plenty of room for seven people, you will always be able to travel in comfort and style, even over longer journeys. So what about your luggage? Again, no problem. With all seven seats in place there is still almost 300 litres of luggage space and, with just the third row seats removed, there is a full 866 litre capacity. You couldn't ask for more flexibility. Indeed the whole interior concept of the Mazda MPV is designed around intelligent use of space.

The individual rear seats can be positioned in a variety of ways, giving an almost limitless number of seating combinations. Being individual they can be moved or removed separately so you can pack in bulkier items such as sporting equipment – and probably most of the team as well!

With a level load surface of up to 2.14 metres and more than 2,500 litres\* of stowage space, there's virtually no task that the Mazda MPV can't handle.

\*Maximum value according to factory data (non-binding).

Engines

LIFE IN THE FAST LANE.

Do you love a spirited drive and look for ways of freeing yourself from the daily grind? If so, then the Mazda MPV is your kind of car. Like you, it has spirit. With two powerful and refined MZR engines to choose from – an all-new 2.3 litre petrol engine and 2.0 litre common-rail diesel – the Mazda MPV give you responsive performance and the freedom to enjoy the open road.

The 2.3 litre MZR petrol engine loves to rev, yet it is especially quiet and low in vibration. The result is a 141 ps powerplant that has exceptionally smooth operation and economical fuel consumption. The 2.3 MZR engine already meets the Euro IV emissions standards required for new cars registered from 2006 onwards.

The all-new 2.0 litre MZR-CD common-rail diesel with 136 ps provides even better fuel economy but without sacrificing on road performance. Its second generation common rail injection system produces an injection pressure 30% higher than 'conventional' systems. The result is an enormous 310 Nm of torque delivered over a wide rev range, including at higher revs. The result is superb driving characteristics, making this all-new engine anything but ordinary.

Whether you prefer petrol or diesel, you have the choice of two exceptional engines: outstanding performance; maximum refinement; the perfect ride. Most importantly, they help make driving fun, so that even after longer journeys you'll still feel perfectly calm and relaxed. Ready to start again.

Safety

ALL ROUND PROTECTION.

Traction Control System (TCS) available on Mazda MPV 2.3 only  
ABS with EBD standard on all models

When it comes to safety, the new Mazda MPV doesn't fool around. Protecting you and your passengers is the utmost priority. Especially in difficult situations. As such, our designers have worked hard to ensure that our sophisticated safety features – whether active or passive – are carefully thought-through and class leading.

Driver, front passenger and side airbags provide effective, all round protection. Furthermore, both outer seats in the second row are equipped with ISOFIX child seat anchorages to ensure even the smallest passengers enjoy maximum protection.

Mazda's Triple-H impact energy absorption system, with three H-formed body re-inforcements, has been specifically developed to strengthen the passenger cell and provide maximum protection no matter what direction the impact comes from. The front side doors have an integrated protective side moulding and the sliding rear doors feature a bespoke locking mechanism to hold the doors open on inclines, yet allow them to close easily when required.

The new multi-reflector head and tail lamps not only provide excellent illumination for night driving, they make quite a statement too.

Standard Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD) provide a high level of active safety by ensuring that braking power is best distributed depending on vehicle load and driving conditions. The Traction Control System (TCS)\* prevents the driving wheels from spinning enabling the driver to remain in control of the vehicle, even in slippery conditions.

Quality

PERFECT IN EVERY DETAIL.

It's always important striving to make good ideas even better.

That's why we place such tremendous importance on detail – perfecting the development and manufacture of our vehicles.

Perfection in manufacture is achieved by painstaking workmanship using the highest quality materials. We want a Mazda to offer you that little bit more comfort and style than you are used to. Every time. Inside and out. Guaranteed.

Indeed the Mazda MPV comes with a three year/60,000 mile warranty\*, as well as a six year unlimited mileage anti-perforation warranty and a three year Mazda European roadside assistance package.

Fulfilling technical, service and quality requirements is a manufacturer's duty; setting standards is our choice.

\*There is no mileage limit during the first year of warranty

Carbon-effect detailing

Ventilation for rear seat passengers

Independent controls for rear seat passengers

Interior

GREAT IDEAS.

Numerous bottle holders are located around the interior

Seatback assist handles aid access for rear seat passengers

Illuminated vanity mirrors

For those who enjoy quality and style, the Mazda MPV is the choice of the connoisseur. And with its sporty carbon-effect instrument panel and suede-type black seat upholstery, the Mazda MPV cannot fail to attract attention. The two-tone environment colour lends a further sporty touch to an already sporty Mazda MPV. Your ears will be equally impressed, thanks to the Mazda modular audio system with CD player, 8 speakers and steering wheel mounted controls.

The Mazda MPV's interior ventilation system has been designed to ensure the comfort of everybody travelling in the car. Its air conditioning features independent controls for both the front and rear, while rear seat passengers benefit from the additional air vents located in the ceiling lining and floor area.
