

The Honda S2000

Model shown is S2000 GT

The Honda S2000's engine produces more power per litre than any other non-turbo production engine and sends the rev counter needle sweeping around to the 9,000rpm mark. Where conditions allow, the car will accelerate to 150mph. But the adrenaline-pumping performance of the amazing Honda S2000 roadster is also kind to the environment. Thanks to our latest advances in engine technology, the Honda S2000 meets the world's toughest emissions legislation.

Press the big red start button on the dashboard to fire up the engine and you'll soon know why the Honda S2000 is already regarded as a collector's item.

Prices from: £25,995 OTR

Annual Tax Liability from*	BIK % of P11D	22%	40%
2002/3	29%	£1,647	£2,994
