ALMERA 2005 MODEL YEAR

The optional Moon part leather seat trim, available on SX grade, brings a sense of extra luxury and quality to the whole interior, while the black trim details add to the contemporary feel.

REFRESHING VITALITY

## Mode

The subtly tasteful Mode trim on Almera S grade provides a non-reflective and distraction-free surround, which complements the neat and easily understood control layout and includes standard CD audio and air conditioning. The result is an environment that's pleasing to look at and easy to live with.

## Graphite

The Almera SE, SX, SVE and SXE combine modern elegant Graphite trim with N-FORM; an innovative system that provides an easy-to-read display with intuitive fingertip control. To add to the appeal of the cockpit's distinctive finish, the comprehensive specification includes features such as climate control and steering wheel audio functions, adding convenience and reassurance.

Look around the roomy interior of the 2005 Model Year Almera. It seems an even bigger space, thanks to the smart new fabric with its racy chequer highlights. Appropriately, it gives you the sense that you're sitting somewhere special. The Almera is desirably individual and should be much in demand. To make sure you catch one, speak to your Nissan dealer soon to check availability.

## GRADES

### S 3, 4, 5 door

#### SAFETY

- ABS with Brake Assist
- Electronic Brake force Distribution (EBD)
- Driver and passenger airbags
- Panoramic driver's door mirror

## NISSAN COMMITMENT

### Ownership

**The Nissan philosophy of continuous improvement means we have a different approach to building cars. To make sure that every Nissan meets the real-life needs of its owner, we ask current Nissan drivers what they think of their cars before we start designing. Then there's our tough testing programme. To maintain our excellent reputation for reliability, dependability and safety, we test every single component to destruction. Finally, as the car is assembled, every worker checks his own job as well as that of the person before, ensuring our renowned standards of build quality and attention to detail.**

### KEEPING THINGS LOCAL

Nissan is committed to keeping its European operations on a local basis. There is a design centre in the UK. Technology centres in the UK, Spain and Belgium. Manufacturing plants in the UK and Spain. Parts and vehicle distribution in the Netherlands. And our European headquarters in France. Because only through this structure can we continue to produce vehicles to suit the requirements of the people who'll actually drive them. And guarantee that somewhere, within our wide range of models available in Europe, there is one perfect for you.

### AFTER-SALES SUPPORT

Our rigorous testing programme gives us the confidence to offer a comprehensive range of after-sales guarantees. The Almera is covered by a 3-year or 60,000 miles warranty (whichever comes first), 3-year paint warranty and 12-year anti-corrosion warranty. For extra peace of mind, we also offer 12-months Nissan Roadside Assistance in partnership with the RAC.
