

Audi

The new A6 allroad
Pricing and Specification Guide

A User's Guide

This guide has been designed to help you tailor and price your chosen Audi model quickly and logically. At the back of this guide, there is a fold-out configurator which you can fill out as you go along. Here you will also find information on CO₂ emissions-based taxation and the other services offered by Audi, including Finance and Insurance. Alternatively, you can go to audi.co.uk and configure your Audi online.

The A6 allroad

The new Audi A6 allroad is capable of everything its name suggests. Fit for all roads – city or country, asphalt or dirt – this is a model that inspires spontaneity, adventure and sheer off-road enjoyment. Enabling it to do this are a number of impressive all-terrain credentials: a choice of two advanced TDI® engines, rugged alloy wheels and adaptive air suspension, giving up to 18.5cm ground-clearance. quattro permanent four-wheel-drive and the ESP 8.0 Electronic Stability Programme, with its special off-road mode, provide

optimum traction on even the most unpredictable terrain. In addition, sturdy bumpers, widened mudguards and a protective stainless-steel under-body make the new A6 allroad one of the toughest, safest on-road/off-road hybrids there is. And with its steely demeanour, flared wheel arches and imposing single-frame grille, this commanding new model exudes as much confidence as it imparts.

Standard equipment

12V power socket in luggage area

4-corner air suspension with 5 modes (dynamic, automatic, comfort, allroad and lift)

4-spoke, leather covered multi-function steering wheel, with audio and basic MMI controls (with paddle-shift gear change on tiptronic models)

80-litre fuel tank

8J x 17 '7-arm Rotor' design alloy wheels with 225/55 R17 Y tyres

Active front head restraints

Air vents with aluminium trim, 4 vents on the dashboard, 2 for the rear between the front seats, illuminated controls

Airbags, full-size, for driver and front passenger

Aluminium Axial fascia and door trim inlays

Aluminium look in interior, on door handles and MMI control knob and gear lever

Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)

Anti-Slip Regulation (ASR) traction control, prevents the driven wheels from spinning by reducing engine speed

Anti-theft alarm with tow-away protection including interior monitoring (Thatcham Category 1 approved)

Ashtrays at the front of the centre console, illuminated and in the rear doors

Automatic air conditioning plus, separate air distribution for driver and front passenger with digital temperature display, automatic air recirculation via air quality sensor, combined pollutant and pollen filter and air humidity sensor

Body coloured door mirrors and handles

Brake light at high level in rear window

Brake system: disc brakes at front and rear, ventilated at front (and rear on 4.2 model)

Bumpers in contrasting colour

CD player located in glove compartment

Central locking with radio remote control

Centre armrests front and rear. Front hinged with storage compartment

Centre console with ashtray, storage compartments and MMI terminal

Child locks, electric for rear doors and windows

Cigarette lighters at the front and rear

Coat hooks, cushioned action, 2 recessed in rear roof area

Compartment for glasses in front roof module

Cruise control

Cup holder in centre console and 2 integrated into the centre of the rear seat

Driver and front passenger two-stage airbags with front passenger airbag deactivation

Driver's Information System (DIS) with monochrome display

Electric front and rear windows

Electrically adjustable and heated large door mirrors

Electromechanical parking brake

Electronic Differential Lock (EDL) traction control

Electronic Stability Programme (ESP) – networks the ABS, EBD, ASR and EDL systems and ensures greater stability at all speeds by braking individual wheels as required and overriding the engine-management system

Exhaust pipes – twin, down-turned

Exit lights and active reflectors on all doors

Floor mats front and rear

Front fog lights, ellipsoidal, integrated into front apron

Glove box on the passenger's side, lockable

Halogen headlights in clear glass with electric adjustment

Head restraints for all 5 seats

Headlight-cleaning system

Heated rear window

Heat-insulating glass (green-tinted)

High-gloss pack with aluminium-look window and door handle trims with gloss black B-pillar

Illuminated vanity mirrors integrated into front sun visors

Immobiliser, electronic

ISOFIX child-seat mounting (front-left and outer-rear seats)

Light sensor for automatic activation of headlights

Load area concept comprising rail system, lashing points and folding load-area floor

Luggage cover

MMI with 10 loudspeakers, a 6.5" monochrome screen in dashboard and a DSP sound system (160 Watt total output)

monoPur upholstery (seat centres in cloth, side bolsters in leather-look material)

Partition net

quattro® permanent four-wheel drive

Standard equipment

Continued

Rain sensor for automatic activation of front wipers

Reading lights – 2 at front and 2 at rear

Rear fog light in luggage compartment lid-insert above numberplate

Rear window wash/wipe

Roof rails in aluminium double-bar design

Scuff plates in metal inlay with allroad and quattro logo

Seatbelts, 3-point for all seats with front belt-force limiters

servotronic steering – power steering with speed-dependent control

Side airbags for driver and front passenger

Sideguard head airbag system to protect front and outer rear passengers in a side collision

Side-impact protection in all doors

Spare wheel – collapsible with electric compressor

Split-folding rear seats

Steering column – safety, with manual height and reach adjustment

Tool kit in luggage compartment

Towing lugs at front and rear

Twin catalytic converters

Underbody protection in stainless steel

Visible Vehicle Identification Number (VIN)

Warning triangle

Windscreen-washer jets, heated

quattro®

Permanent four-wheel-drive

A car that delivers as much pulling power as the A6 allroad needs a harness in place – a technology that delivers safety and control whilst enhancing the sporty characteristics which make it so thrilling to drive. That's why the latest generation of quattro® permanent four-wheel-drive comes as standard on all models. The principle is simple: in the same way that four brakes ensure better deceleration, four permanently-driven

wheels deliver better acceleration and road-holding. In the A6 allroad, drive power is continuously distributed between the front and rear axles depending on weather conditions, road surface and gradient. And what better technology to feature on this sporty model than the one that has given Audi the edge on the racetrack ever since it was first introduced over 25 years ago.

Engines

Diesel

All diesel engines from Audi are known as TDI®. This impressive technology was originally pioneered by Audi in 1989, marking a departure from the noisy, fuel-thirsty diesel engines of the past. The TDI® diesel engine is designed for power and performance, with low fuel consumption and CO₂ emissions. The working principle of the TDI® engine is based upon precision and compression. A turbo-charger supplies fresh air to the engine, ensuring optimum filling of the cylinder. Immediately after compression, an injector then delivers fuel into the combustion chambers at high pressure. The result – you get the most in terms of performance and economy, from every drop of fuel that enters the tank.

Transmission

tiptronic

The 6-speed tiptronic transmission system is a form of automatic transmission available on Audi models with quattro permanent four-wheel-drive. The technology converts high-torque engine power into both sporty performance and operating convenience, with crisp, fast gear changes, reduced weight and an optimised gearshift strategy. More spontaneous gear changes are a particular benefit, especially when down-shifting. Both in the 'D' (Drive) and 'S' (Sport) programme, the advanced electronics used in tiptronic respond efficiently to every driver input, helping to prevent unwanted upshifts when cornering.

Audi exclusive

In a car made from Vorsprung durch Technik, exclusivity comes as standard. In the Audi A6 allroad it's present in everything, from the distinctive single-frame front grille to the stylish tail lights. But for that extra element of exclusivity, customise your Audi according to your

own unique taste with options from Audi exclusive. Whether you want Fine Nappa leather seats, a part-wood steering wheel or even customised seatbelts in your chosen model, Audi exclusive offers an impressive number of options to make it your own.

 If another combination is requested, this can be accommodated but may extend delivery time.

CO₂ data and information

CO₂ emissions-based Vehicle Excise Duty

Vehicle Excise Duty (Road Fund Licence) is based upon the type of fuel a vehicle uses and the amount of carbon dioxide (CO₂) it emits, measured in grams per kilometre (g/km). The DVLA has created six categories for petrol engines and six categories for diesel engines.

CO₂ emission figures

The CO₂ emission figures quoted in the technical data section on page 15 are based on a fully laden vehicle, including the driver, and the heaviest possible options configuration. Actual CO₂ emissions may be lower depending on options selected.

	Petrol engines	Diesel engines
A – up to 100 g/km	£0.00	£0.00
B – 101 to 120 g/km	£40.00	£50.00
C – 121 to 150 g/km	£100.00	£110.00
D – 151 to 165 g/km	£125.00	£135.00
E – 166 to 185 g/km	£150.00	£160.00
F – 186 g/km to 225 g/km	£190.00	£195.00
G – Over 226 g/km	£210.00	£215.00

Servicing

Servicing tailored to your needs

Prior to the 2000 model year, almost all Audi models followed a traditional fixed Service Schedule similar to that of other major car manufacturers: a Lubrication Service every 10,000 miles and an Inspection Service every 12 months or 20,000 miles – whichever occurred sooner. Since then, Audi has introduced a more flexible maintenance system that works in accordance with how, where and how much an individual uses their car.

The two Servicing Regimes available are the conventional 'Inspection Service Regime' and the flexible 'LongLife Service Regime'. When you purchase a new car, we will recommend one of these regimes to you depending on your own individual driving style and journey-type. The tables below should give you an indication of which regime might be more appropriate for you.

With the LongLife Service Regime, on-board sensors continuously monitor the condition of the engine oil in terms of temperature, level and oil degradation. The monitoring system also checks mileage, brake-pad wear and battery condition. Using this information, the car's on-board

Inspection Service Regime

Vehicle usage:	
Mileage	Less than 10,000* miles per annum.
Type of Journey	Mainly city/town centre driving. Short journeys.
Conditions	Frequent cold starts. High engine loading – e.g. frequent hill climbs, vehicle fully loaded, towing.
Driving style	Uneconomical – e.g. heavy acceleration, heavy braking, constant changes in speed, constant use of high revs, 'sporty' driving.

Service intervals:	
Oil-change Service	Every 10,000* miles / 1 year
Interval Service	Every 20,000* miles / 2 years
Interval Service Inspection	Every 40,000* miles / 4 years

computer calculates its own maintenance interval, providing you with ample warning of a due Service via the 'distance to Service' display.

In practice, this means that every Audi gets the maintenance it needs, when it needs it. For companies and private owners alike, there are many advantages to the LongLife Service Regime. Longer service intervals mean lower maintenance costs, and thus lower whole-life costs. According to company car mileage monitored at Audi since the introduction of LongLife, petrol engines are typically achieving an average of at least 17,500 miles and diesel engines around 20,000 miles between services.

One of the factors that makes this kind of servicing regime possible is the advanced engineering and technology that goes into Audi engines. Furthermore, Audi use high-grade long-life oils such as Castrol SLX LongLife III, which are designed to withstand ageing and high loads without deterioration. Compared to conventional oils, these advanced-formulation oils also give exceptional levels of engine protection, are kinder to the environment and deliver average fuel savings of 2.7%.

LongLife Service Regime

Vehicle usage:	
Mileage	More than 30 miles per day.
Type of Journey	Motorway and main road driving. Mainly longer distance journeys. Constant speeds.
Conditions	Normal engine loading – e.g. with little or no towing, with little or no hill climbs. Normal vehicle loading.
Driving style	Moderate acceleration, moderate braking, engine revs mainly below 3000.

Service intervals:	
Interval Service	Flexible to a maximum 20,000* miles / 2 years
Interval Service Inspection	Every 40,000* miles / 4 years

*Mileages are approximate as the Service Indicator system uses kilometres as its distance measurement.

Service by Design

At Audi, we believe our customers have the right to expect excellent service each and every time they make contact with us. To ensure that this happens, we have agreed a set of service standards with our Audi Centre network that governs the way they do business with you. These standards apply to both Sales and Aftersales, and we actively monitor our Centres to ensure that you receive the highest level of customer service. These service standards will ensure a consistent, stress-free experience whenever you are in contact with anyone representing the Audi brand.

Every Audi Centre will be open during the following hours:

Sales: 9am-6pm Monday to Friday
9am-5pm Saturday

Service: 8am-6pm Monday to Friday
8.30am-1pm Saturday

Sunday opening at local discretion.

Test drives

Whilst we cannot always have the desired demonstrator car ready immediately, we will confirm arrangements for a test drive within two working days (subject to status).

New Car delivery

Once we have confirmed a delivery date with you, we will keep you informed of progress. In the unlikely event of a delay, we will provide you with a courtesy car to minimise inconvenience and keep you mobile.

Delivery to any location within the UK

To maximise your Audi experience right from the first day of ownership, we will deliver your car to your preferred location – whether that's home or your place of work (subject to reasonable notice).

Every attention to detail

Your ownership experience starts with half a tank of fuel.

Quotation response

We are committed to answering any quotation request within 1 working day.

Training

We run a continuous training development programme for all our staff so that we consistently deliver a high-quality, professional service.

Formal complaints procedure

We have a complaints procedure designed to ensure any negative issue you raise with us is dealt with properly.

Courtesy cars

When your car is off the road, perhaps due to a scheduled service or MOT, we will offer you an Audi Courtesy Vehicle until yours is ready. We'll even collect from and deliver to your chosen location, keeping hassle to an absolute minimum.

All our courtesy cars are insured and fuelled

Upon collection or delivery, your courtesy car will have a minimum of a quarter of a tank of fuel; all we ask is that you replace any fuel used before returning it to us. On presentation of your driving licence, we will also insure the car free of charge.

Service bookings

If you do not require a courtesy car, we will service your Audi within a maximum of 5 working days. If you do choose to take a courtesy car, we will promise to service your vehicle within a maximum of 10 working days.

Cleaning

When your car comes to our workshop, we will wash and vacuum it at no extra cost.

No hidden charges

You will be consulted before we carry out any necessary work on your vehicle, and anything charged for will be itemised on your bill. No extra work will be undertaken without your permission.

A personal service

All work will be done by a named Audi technician, to whom you can personally direct questions or requests should you need to.

Environmental commitment

We promise to dispose of all non-biodegradable materials from your vehicle in a responsible manner.

Pricing information

Pricing

Prices and specifications given are correct at the time of printing. Always check details with your Audi Centre, as Audi policies are continually developing. We reserve the right to change prices or specifications at any time.

All prices are subject to VAT, currently charged at 17.5%.

Delivery charges and numberplates are not included in the vehicle price.

<u>Delivery charge</u>	<u>£471.06</u>
<u>Numberplates</u>	<u>£20.00</u>
<u>VAT</u>	<u>£85.94</u>
<u>Total</u>	<u>£577.00</u>

Audi Roadside Assistance

Your new car comes complete with free roadside assistance and recovery across the UK provided by RAC Motoring Services. Your 24 months' free cover can be extended for a further year free-of-charge, provided that your vehicle is serviced and, if necessary, repaired by an Authorised Audi Centre or Audi-Authorised Repairer in accordance with the manufacturer's instructions.

Audi Customer Care

Every new Audi benefits from the comprehensive Audi Customer Care Package, which comprises:

- A 3-year Audi warranty, which covers you for unlimited mileage in the first 2 years of ownership, with a full mechanical and electrical warranty which covers you for up to 60,000 miles in the 3rd year
- A 3-year paint warranty
- A 12-year anti-corrosion warranty
- Up to 3 years' UK roadside assistance and recovery.

This package, together with Audi variable Service intervals, offers a combination unmatched by any other major manufacturer. Contact your Audi Centre for full details.

Audi Tax-Free Sales

If you are entitled to purchase a vehicle free of VAT, normally through Military or Diplomatic privilege, please contact your local Audi Centre for full details.

Should you have any difficulty obtaining the information you require, please call Freephone 0800 585878.

Audi Finance

Audi Finance specialise in providing funding solutions for Audi drivers. Whether your Audi is for private or business use, there are a range of funding options to choose from.

Below is our full range of finance products.

- New Solutions – a Personal Contract Plan
- Hire Purchase
- Lease Purchase
- Finance Lease
- Contract Hire

With all our finance products, you can choose one of our fixed-cost maintenance plans, which are designed to help you budget accurately.

No matter what Audi model you choose, your local Audi Centre can provide you with a personalised quote which could fit your budget and motoring needs.

Audi Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Audi Insurance

Motor insurance specially tailored to your Audi is available from Audi Insurance. For a no-obligation quote, please ring Linkline on 0845 6016014.
