ACCESSORIES

## UNMISTAKABLY DODGE. UNIQUELY YOURS.

There's no doubting the individual presence of the Dodge Caliber. They say it's anything but cute. It's also anything but ordinary. The briefest glimpse tells you this is a car full of promise. The first drive tells you it delivers, in spades.

From its imposing, hardcore grille to its muscular haunches, Caliber re-writes the rule that says a family car has to look mediocre. Bold, athletic and purposeful, Caliber is exactly why the Dodge brothers started their car company.

### GENUINE DODGE ACCESSORIES

Now Genuine Dodge Accessories let you tailor your Caliber to meet your individual needs. How about a roof box packed for a rock concert, an iPod® Adapter to take you there or better still, state-of-the-art satellite navigation with traffic information to ensure your seat at the front? Whatever your weekends and weekdays demand, let Dodge put the fun back into driving with a range of Genuine Accessories engineered to our exacting standards and your tastes.

## YOU CAN LOOK BUT DON'T TOUCH.

Admit it, you love them looking. That's what first attracted you to Caliber, knowing that people won't be able to stop those sneaky admiring glances. But why stop there? Our custom-made exterior styling accessories finish your Caliber off in style as well as raising the odd eye-brow. Go on, those wheels will have them gawping at the gym, swooning at the swimming pool and drooling at the dog track. Just remind them, they can look all they like, but you're untouchable.
