Mazda Credit and Insurance.

Deep inside us all, there's a uniquely human emotion just waiting for an invitation to 'come out and play'. It's a feeling of pure exuberance and exhilaration – the emotion of motion. With its perfect blend of style and versatility, the Mazda2 is definitely worth a second look.

Get the best of both worlds

A confident, dynamic supermini and a car with contemporary styling. With Mazda2, there is no choice – you have both.

The first thing you'll notice as you step inside the Mazda2 is its perfect combination of space and versatility. But get behind the wheel and venture out onto the open road, and you'll find Mazda2's superb driving dynamics will also raise an eyebrow or two.

Meet your alter ego

There'll always be a part of you that just wants to have fun. Thanks to Mazda2's desire for adventure, you've just met your match.

As well as the standard 5-speed manual transmission, Mazda2 boasts an Auto Shift Manual transmission (available on 1.4 S petrol and 1.4 Capella petrol only), allowing you to switch between manual mode and automated mode, even while driving, so you can enjoy an effortless drive without the need for a clutch pedal.

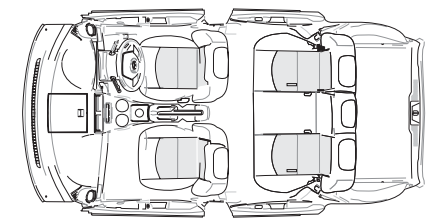

And you don't have to sacrifice the defined control of a manual transmission. The clutch operation is performed hydraulically by a computer-controlled clutch actuator and sophisticated state-of-the-art software. When in automatic mode, a sophisticated detection feature means that the transmission can recognise hills, winding roads or even if you are towing a load – and will select the most suitable gear accordingly*. Slip into manual mode and seize back control of the gears for those moments when you want to be more involved. Just a light touch of the gear selector is all it takes to change gear; simply push towards '+' to shift up and '-' to shift down. Not only does this innovative transmission deliver excellent performance, it won't increase your fuel consumption like a standard transmission can. In fact, when combined with the petrol engine, it will even improve fuel economy – you're the one in the driving seat, so you decide how you want to drive!

Space and versatility in equal measure

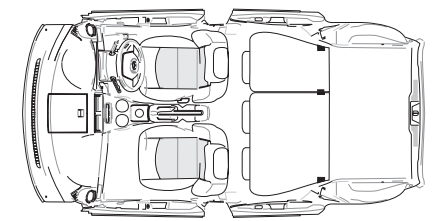

You would certainly need a wide-angle lens to do justice to the space in the Mazda2. Thanks to its amazing flexibility, you can use it to your best advantage.

For extra luggage capacity, simply fold down Mazda2's rear seats to achieve 1,044 litres of load space. The front passenger seat also folds flat* to help you carry longer objects. With three adjustable headrests on the rear seat, everyone will enjoy superior comfort. That's the beauty of Mazda2 – two can be company but five isn't a crowd.

In fact, with comfort like this, you may end up wishing your journey was twice as long.

We don't do safety by halves
