THE NEW MAZDA5 FURANO

# MORE FUN THAN FLYING

www.mazda.com

## THE BEST WAY TO TRAVEL

Going abroad with the family can be great, but getting there is often a different matter. Airports are stressful places: crowded car parks, mammoth check-in queues, patience-trying delays, lost luggage problems... But there is a simple way to avoid all this – the Mazda5 Furano. With this brand-new, special model, the UK's favourite sports car brand brings you sporty good looks, stylish practicality, total passenger comfort and driving pleasure for everyone. In fact, it's such fun on the move, you'll never want to fly again.

### EVERYTHING YOU COULD WANT

The Mazda5 Furano builds on the Mazda5 Sport to offer even more fun behind the wheel. Focused handling, great dynamics and a responsive 2.0 engine (the petrol engine produces 145ps, and the diesel engine 143ps) all combine for an exhilarating drive. It also offers even more sports style, with the addition of a front sports bumper, two-bar front sports grille, side skirts, rear underskirt and clear rear tail light lenses to give the car a powerful, muscular stance on the road. The smart three-row seating arrangement seats up to seven adults and is flexible and easy to use. And, besides great features such as climate control air conditioning, 6-CD autochanger and class-leading sliding rear doors on both sides, it comes with stylish black trim, free metallic or mica paint, tinted privacy glass, 17" alloy wheels and electric windows. So wherever you're headed, be it home or away, the Mazda5 Furano is the way to go.

### MAZDA5 FURANO TECHNICAL SPECIFICATION

## MAZDA5 FURANO: SEATING INSTRUCTIONS

Like all Mazda5 models, the Mazda5 Furano comfortably accommodates up to seven adults with a neat and flexible arrangement of seats that fold into multiple configurations. The diagrams below explain how it works. Figure 1 shows all seven seats in use. Figure 2 demonstrates how the clever Karakuri middle seat can fold flat to form an armrest. It can also turn sideways for easy, walk-through access to the rear seats, or be folded away entirely and the space used instead for a fold-out Karakuri box – just one of the 40 intelligent storage spaces in the car. And figures 3-5 show how the seats in the second and third rows fold individually, in any combination. When all the rear seats are down and at just one simple pull of a lever, there's a large, flat loading area at your disposal – ideal for transporting your golf clubs or mountain bike, family suitcases or flat-packed furniture.
