NISSAN **TERRANO**

Exterior and Interior

Rugged yet comfortable

INTERIOR

Large, versatile interior

The Terrano offers a generous, versatile load space that's equally suited to demanding workdays and relaxing leisure trips. Depending on your trip, you can comfortably seat 7 people. For maximum load-space you can fold down the third row, or remove it completely using the easy release mechanism. With plenty of room to stretch out, you'll feel liberated even if you're still in the heart of town.

2 body types and 2 grades

With a choice of a spacious 5-door 7-seat model or a sporty 3-door 5-seat version, plus two grades, there's a Terrano for you – whatever your needs.

EXTERIOR

All terrain styling

The Terrano confirms its credentials as a multi-role all-terrain vehicle with an appropriately rugged style. High ground clearance and tough bodywork make it easy to tackle wilderness tracks and unfinished roads, whilst short overhangs allow you to negotiate steep climbs with ease.

4x4 refinement

Terrano has all the refinements you can ask for. Co-ordinated exterior styling that looks suitably rugged. 17" alloy wheels, aluminium side steps and full body-coloured metallic paint scheme, plus indispensable comforts like air conditioning. Everything you need to make your adventures comfortable as well as exciting.

Rear-side privacy glass & heated door mirrors

Rear-side privacy glass helps cut down on glare, making it more comfortable for passengers in bright sunlight. Heated door mirrors are also standard on every model, so they stay clear of snow when you're hitting the slopes.

NISSAN TERRANO Performance

The authentic experience

ENGINE

A diesel with speed and power

Featuring direct injection, a variable turbocharger, 4 valves per cylinder and M Fire technology, the Terrano's engines give you swifter acceleration. You'll also enjoy quieter, more relaxed cruising and lower fuel consumption – along with the power of 343 Nm maximum torque at just 2000 rpm.

On-road performance

The Terrano performs as well on tarmac as it does on rough terrain. With the 3.0Di engine, it can reach a top speed of 105 mph (170 km/h). Plus it can accelerate from 0 to 100 km in 13.3 seconds – a performance that few other off road vehicles can match.

HANDLING

Independent suspension

Yes, the Terrano's live rear axle can handle extreme off road terrain. But you also get a smooth ride and easy handling on the road. Thanks to independent front suspension with anti-roll bar, each wheel responds to bumps without transferring the shock to the other wheels.

Power assisted steering

The Terrano's so relaxing to drive thanks to its tilt steering wheel - positioned just where you want it - and power steering that reacts progressively to your input, dependent on the speed you're travelling at.

NISSAN TERRANO

Performance

	Fuel consumption (l/100 km)			CO2 Emission Combined (g/km)
	Urban cycle	Extra cycle	Combined cycle	
2.7 TD 5 speed manual (3 door)	11.8	8.6	9.8	260
3.0 Di 5 speed manual (3 door)	11.3	7.4	8.8	232

NISSAN **TERRANO**

Safety and Security

For thrill seekers who value safety

PASSIVE SAFETY

4 airbags as standard

In addition to the driver and passenger airbags, all Terranos are fitted with 14-litre capacity front side airbags - providing reassuring extra head and thorax protection when needed.

Seatbelt pretensioners

Seat belts with pretensioners automatically help tighten the belts when the air bags deploy. And if your body puts too much force on the belt, load limiters cause the belt to give a little bit. Both features help reduce injuries.

Front seat active headrests

Active headrests effectively limit head movement and, therefore, the chance of sustaining whiplash injuries if you're hit from behind. They move forward, then return to their normal position as the impact subsides.

ACTIVE SAFETY

Electronic Brake-force Distribution (EBD) and ABS

Braking hard normally increases the load on the front brakes. Electronic Brake-force Distribution (EBD) balances the braking effort between the front and the back of the Terrano for maximum braking efficiency. At the same time, ABS prevents the wheels locking under braking, keeping you in control of the car.

Sturdy, reliable ladder-frame chassis

The Terrano's heavy-duty ladder-frame chassis has full-length MIG-welded rails which provide minimum flex, rugged strength and a solid ride.

NISSAN **TERRANO**

Grades & equipment

AVAILABLE GRADES

Grade : SE

The entry grade SE offers the perfect blend of rugged 4x4, extensive equipment and outstanding value - whilst 17" alloys and side-steps give it an imposing off road look.

From £18,945

Grade : SVE

The SVE features the full array of luxury equipment - from its resilient yet elegant black leather upholstery, with heated front seats, to a 6CD autochanger and electric sunroof.

From £22,345
