INTERIOR

Compact size with interior roominess

How can such a compact car feel so spacious inside? The answer lies in the long wheelbase and minimised front and rear overhang. Wheels are positioned in each corner, creating space where it's needed – in the cabin. This longer wheelbase accommodates at least 4 adults comfortably. The generous height and width provide added head and shoulder room. The forward windscreen position also enhances the spacious feel.

Versatile space

Every available bit of space inside the Micra is used for intelligent storage. There's a hidden compartment under the front passenger seat for valuable items, plus cupholders and pockets on the front seat backs. Push the sliding rear bench seat back and there's as much legroom as cars in the next class. Pull it forward for an amazing 371 litres (VDA) of luggage space. The rear bench also split-folds so large loads can easily be stowed.

User friendly technology

Micra's automated technology on higher grades handles tasks so you can enjoy the driving: automatic headlights and wipers, automatic A/C, even an automatic one-touch up/down driver's window. Remote steering wheel switches allow you to control the CD audio system (including a 6-CD autochanger on Sport and Sport SR Upgrade) while keeping your hands on the wheel. A new oil level display and the smart combimeter show essential information clearly and includes a 9-function drive computer on higher grades.

Dynamic interior

The Micra's high seating position provides excellent visibility. On 3-door models, a seat recline lever makes it easy for everyone to exit and enter the car. Another lever on higher grades adjusts the driver's seat height. On Spirit, lumbar support in the seats keeps you comfortable even on longer trips. The Sport and Sport SR have their own special sport seats, drilled alloy pedals and an alloy gear knob. The Micra Activ limited edition exudes stylish fun with an understated grey and black interior with bold red highlights, or as an alternative, a discreet grey interior with silver touches. The new Active Luxury grade offers a refined yet up-to-date look in pearl grey leather and Alcantara, with a slim terracotta stripe on the seats, a leather steering wheel with copper stitching, and copper and silver highlights on the controls and in the glove box.

EXTERIOR

Electric tilt and slide sunroof

Micra offers a sunroof as option. Easy to use, the electric tilt and slide sunroof has a large opening for maximum sunshine.

SPORT SR Exterior styling

The SPORT SR is the Micra at its most sporty, with its streamlined roof spoiler, flared side sills, and highlighted fog lamps housing in the front bumper. Dark finish headlamps and alloy wheels and a bright exhaust tailpipe make it look even more exhilarating; and it is. To keep you in control, the Electronic Stability Program (ESP) is fitted as standard.

Exterior and Interior

Distinctive styling

Unmistakable style

Micra's unmistakable style now shouts even louder. Chunky front bumpers, a new front grille and a range of stylish colours give you even more presence on the street. The new Active Luxury grade is glamorous, sophisticated and irresistibly desirable with a classy pearl grey leather and Alcantara interior highlighted with a distinctive terracotta stripe and silver touches. Plus an exclusive porcelain exterior or ever-fashionable black (from December 2006).

Distinctive exterior styling

The new Active Luxury grade exudes style with a new exclusive porcelain grey exterior (or metallic black, if you prefer from December 2006). alloy wheels and a roof spoiler complete the sophisticated look. The Sport SR is the Micra at its most sporty, with its streamlined roof spoiler, flared side sills, and highlighted foglamp housing in the sports front bumper. Dark finish headlamps and alloy wheels and a bright exhaust tailpipe make it look even more exhilarating.

NISSAN MICRA Performance

Compact shouldn't mean boring

ENGINE

Petrol engines

The Micra petrol engines have 16 valves and drive-by-wire throttles, so they accelerate eagerly and cruise easily. There are three to choose from: 1.2 litre, 1.4 litre and a 1.6 litre. The choices offer a blend of performance and fuel economy to suit all types of driver requirements.

Diesel engines

Micra offers the latest common rail diesel technology. The smooth and quiet 1.5 litre direct injection diesel engine is both lively and enjoyable with power that builds up to 86PS.

HANDLING & BRAKING

Agility

The Micra is incredibly nimble. With its compact exterior and small turning circle, it's easy to park on congested city streets. The standard Electric Power Steering offers variable assistance and self-centring action finely tuned to the car's speed. It also features damping control to measure steering angular velocity and speed to improve stability. ABS keeps the wheels from locking -- keeping you in control of the car.

Braking beyond its class

Three standard braking systems work together to help you stop safely. Electronic Brake Force Distribution (EBD) ensures optimum braking on all wheels, depending on car load and road surface. Brake Assist measures the force a driver applies to the brake pedal. When the force exceeds a preset amount, Brake Assist applies the brakes fully. And ABS prevents the wheels from locking so you stay in control of the car.

Electronic Stability Program

The Electronic Stability Program available with the manual 1.6 petrol relies on electronic sensors to monitor wheel speed and steering angle. To help keep you in your intended direction on slippery roads and in emergency manoeuvres, the system reduces engine output and applies braking to individual wheels to correct under- and over-steer.

Safety and Security

It's all about you

PASSIVE SAFETY

Front & side airbags

The Micra features 4 airbags. The dual front airbags help protect you and your front passenger. The side airbags, housed in the seat, help protect your head and chest.

Seat belt design

Front seat belts with pretensioners automatically help tighten the belts when the air bags deploy. And if your body puts too much force on the belt, load limiters cause the belt to give a little bit. Both features help reduce injuries.

ISOFIX child safety seat

The ISOFIX child safety seat can be securely fitted into the anchorage points in the Micra. Children should always be carried in the rear - but if necessary, the passenger airbag cut-off switch lets you safely use a child seat in the front passenger seat.

Active headrests

The Micra's active headrests may save your neck. If a rear impact accident occurs, these headrests move forward to limit head movement. So there's less risk of serious neck injuries. As the impact subsides, a spring mechanism returns the headrest back to its normal position.

ACTIVE SAFETY

Safer braking

Three standard braking systems work together to help you stop safely. Electronic Brake Force Distribution (EBD) ensures optimum braking on all wheels, depending on car load and road surface. Brake Assist measures the force a driver applies to the brake pedal. When the force exceeds a preset amount, Brake Assist applies the brakes fully. And ABS prevents the wheels from locking so you stay in control of the car.

Electronic stability program

The Electronic Stability Program (ESP); standard on SPORT SR relies on a myriad of electronic sensors to measure wheel speed and steering angle. In order to help keep you in your intended direction on slippery roads and in emergency manoeuvres, the system reduces engine output and applies braking to individual wheels to correct under- and over-steer.

NISSAN MICRA

Grades & equipment

AVAILABLE GRADES

Grade : INITIA

The INITIA grade is the first in the exciting line up of Micras. And it's packed with 'big car' features that are standard throughout the range, including ABS, electric speed sensitive power steering, friendly lighting, battery save, minimum of 4 airbags and, of course, incredible roominess. Also has rear sliding seat with 60:40 slit, adjustable rear headrests and front active head rests. Single slot CD plus remote central locking with anti-hijack feature.

From £7,495

Grade : ACTIV

The Limited Edition ACTIV adds fresh, fun and exciting style highlights to this exuberant city-loving car. With two interior choices, Activ Red interior is an elegantly understated grey and black, accented with dramatic red touches (seat fabric, door panels and glove box interior). Delightful details like sporty sculpted seats and sleek black dashboard controls give the Activ a truly irresistible, irrepressible feel. Alternatively go for Activ Black interior with dark grey seats and door panels with silver touches to the dash.

From £8,645

Grade : SPIRITA

The SPIRITA grade is where drivers can really benefit from the Micra's friendly technology. Ingenious optional features like the Intelligent Key System, the automatic air conditioning and the rain sensing wipers make life easier, so you can enjoy driving the Micra even more.

From £8,795

Grade : ACTIVE LUXURY

The Micra ACTIVE LUXURY CLASSIC is glamorous and hot in the city with elegant yet vivacious styling inside, including pearly grey Alcantara® and soft nappa leather seats with a bold central terracotta stripe, copper hand-stitching around the leather steering wheel, and copper coloured flock lining inside the glovebox. It's all beautifully accentuated by exquisite satin chrome highlights for the door handles, air vents and combimeter. The Active Luxury grade also features automatic technology (AC, wipers, and lighting) and a 6 CD audio system with 6 speakers.

From £10,695

Grade : SPORT

You won't go unnoticed in the SPORT grade Micra. It makes a strong statement with its tinted headlamp covers, roof spoiler and specific interior.

From £9,895

Grade : SPORT SR

The Sport SR is the Micra at its most exciting. The powerful 1.6L engine gives you invigorating performance, while the sports chassis grips the road securely. It even looks exhilarating, with sport seats, drilled alloy pedals and an alloy gear knob.

From £10,695
