Exterior and Interior

Space, convenience and style

INTERIOR

3 rows, 7 seats, 64 configurations

With seating for 7 people, there's plenty of room for everyone in the Pathfinder (Sport and above). The split 2nd and 3rd row seats fold into 64 different configurations, giving you a full flat floor if needed. Even the front passenger seat folds flat to handle cargo up to 2.8m long - such as a ladder or canoe.

Great storage space

There are so many ways to load Pathfinder. You can fold down the seats (without removing them) for a flat load floor. Or you can use a cargo net with 12 trunk hooks. Valuables can be hidden in the 2nd row floor storage. And even with 7 seats in use, the Pathfinder has the largest load-space length behind third row seats in its class - leaving enough space to stow a cool box. So whatever you're carrying, there's always room for it in the Pathfinder.

Dual-Zone Climate Control

All Pathfinder's feature climate-control with individual temperature adjustment for the driver and front seat passenger. Rear seat passengers enjoy separate ventilation controls. Aventura models.

EXTERIOR

Auto-Headlamps

The headlamps on Aventura models are set to automatically operate when the ambient light falls below a certain level (i.e. at night time or when driving through a tunnel).

The heTailgate with Independent Glass Hatch

Standard on Sport and above, Pathfinder is fitted with an opening glass hatch - for easy access to the load area.

Authentic 4x4 styling

With a commanding chrome front grille and imposing flared wheel arches, the Pathfinder looks ready to take on anything and go anywhere.

Tough and contemporary

Built for all terrain, Pathfinder's wide stance and long wheelbase provide the strong foundations for a smooth ride with plenty of space inside. In spite of its chunky design, it has impressive aerodynamics with a drag coefficient of only 0.38.

NISSAN PATHFINDER Performance

More power, better handling

ENGINE

2.5-litre common rail diesel engine

With the 171HP dCi engine, Pathfinder can accelerate from 0 to 62mph in just 11.8 seconds and can achieve up to 28.8 mpg on the combined cycle. And with 403Nm of torque, you can haul 3000Kg of boat, trailer or cargo.

HANDLING

Maximum traction with ALL MODE 4x4 system

Mud, rain or snow; the Pathfinder's ALL MODE 4x4 electronic system offers maximum traction and instant response. Whatever the weather or surface, you have the confidence of knowing that the four-wheel drive will engage automatically when conditions demand it. For really tough terrain, engage low-ratio and enjoy controlled progress.

Dynamic performance

The Pathfinder enables you to go anywhere with confidence, both on and off road. All Pathfinders have ESP+ (Electronic Stability Program+) to keep you in control on slippery roads and during emergency manoeuvres. Its powerful engine has enough torque to handle the worst off-road conditions. And the independent suspension provides an exceptionally smooth ride.

Front and rear independent suspension

With independent suspension for each wheel, Pathfinder's suspension responds to uneven surfaces without transferring the shock to the other wheels. This creates a smoother ride for the passenger.

Hill Descent Control & Hill Start Assist

Pathfinder Sport and Aventura grades give you extra confidence on steep gradients. Available with automatic transmission Hill Descent Control limits your speed in low ratio without you touching the brakes, so you can concentrate on steering. Hill Start Assist stops the Pathfinder from rolling back downhill for three seconds when you move from brake to accelerator.

NISSAN PATHFINDER

Performance

	Fuel consumption (l/100 km)			CO2 Emission Combined (g/km)
	Urban cycle	Extra cycle	Combined cycle	
2.5 dCi 171 Automatic (5 Door (7 seats))	12.9	9.1	10.5	283

2.5 dCi 171 Manual (5 Door (7 seats))	12.0	8.5	9.8	264

Safety and Security

Protect yourself

PASSIVE SAFETY

Zone Body Construction

The Pathfinder's solid zone body construction provides maximum strength in case of collision. High-strength steel and cross-members reinforce the cabin, and strategically placed front and rear crumple zones help absorb crash energy. The Pathfinder's pipe-style steel side-door guard beams will also reduce injury in side impacts.

Airbags All-Round

In addition to driver and passenger airbags, Pathfinder features front side and curtain airbags providing added protection to all passengers.

Front seat active head restraints

Active headrests limit head movement if you're hit from behind. They move forward, then return to their normal position as the impact subsides. This helps reduce the risk of whiplash injuries for you and your front seat passenger.

ACTIVE SAFETY

High-Command Driving Position

Pathfinder's elevated driving position ensures a commanding view of the road ahead - enabling you to anticipate problems before they occur.

ESP+

Standard on every Pathfinder, the Electronic Stability Program+ system enhances stability to help you retain full control in difficult situations. By managing engine output and applying brakes individually at each wheel, ESP+ helps you corner safely on slippery roads. It also helps you maintain stability during rapid direction changes, such as swerving to avoid an obstacle.

Xenon headlamps

Fitted as standard on Aventura versions, Xenon headlamps are nearly as bright as daylight, so at night or during bad weather, visibility is exceptional. Xenon headlamps also make you more visible to other vehicles.

ABS + EBD

Braking hard normally increases the load on the front brakes, however, the Pathfinder's Electronic Brake force Distribution (EBD) balances the braking effort between the front and the back. This creates maximum braking efficiency. At the same time, ABS prevents the wheels locking, keeping you in full control of the vehicle.

Safety and Security

Protect yourself

Security System

Pathfinder features an advanced array of security devices including engine immobiliser, alarm, anti-hijack keyless entry and superlocking system. All combine to ensure that Pathfinder receives a Thatcham category 1 security rating.

NISSAN **PATHFINDER**

Grades & equipment

AVAILABLE GRADES

Grade : **TREK**

Trek is the entry 5-seat grade with standard specification including dual-zone climate control and 17" alloy wheels. Safety equipment includes front, side and curtain airbags and ESP+ as standard.

From £22,995

Grade : **SPORT**

The Sport grade has a third row of seats and provides plenty of room for up to seven passengers. Equipment for the Sport includes front fog lamps, roof rails and rear privacy glass. It also has opening glass on the rear hatch, which allows easy access to the cargo area.

From £25,595

Grade : **AVENTURA**

The Pathfinder Aventura offers the ultimate in luxury and capability. With sumptuous leather upholstery and special features including voice-activated DVD Satellite Navigation and a colour rear view camera to help you squeeze into the tightest of parking spaces.

From £28,595
