Exterior and Interior

Make a powerful impression

INTERIOR

From functional to luxurious

Dress it up, dress it down - The Patrol can be whatever you want it to be. Choose an interior with sumptuous leather, climate control and electronic adjustable heated seats. Or keep true to the 4x4 spirit of Patrol; pure and simple off road practicality.

Seat up to seven in comfort and style

The long wheelbase 5-door Patrol is extremely spacious, comfortable and generously equipped, with an elegantly designed dashboard layout that combines both form and function. Whether you're looking for a 4x4 workhorse or something altogether more luxurious, Patrol brushes aside every challenge. Tough as always. More comfortable than ever.

A dashboard that combines looks and logic

Beauty meets brains in the Patrol's superbly finished new dashboard. Its ergonomic layout makes all controls easy to see and use, from the climate control system with neat rotary knobs, to the CD audio, or the DVD-based navigation system (available on the Aventura). The Aventura grade even includes an electronic compass and external temperature gauge.

Space wherever you go

The Patrol is rugged and tough, but it always gives you an easy ride. There's an abundance of space: the Aventura grade offers seven seats in three rows, whilst the S grade has two rows. Both offer a second row sliding seat to give you the choice of more legroom or more load space. There's up to 2,226 litres of load space; plenty of room for all your outdoor equipment, with a fitted luggage net to help keep it in place.

EXTERIOR

An imposing exterior

The Patrol has been called the King of the Off-Road. And it looks the part: Its broad-shouldered, powerful lines seem to radiate strength and durability.

A rear view that mirrors refinement

Thanks to a full redesign, the rear of the Patrol is as attractive and refined as the front, with an integrated rear bumper, bigger rear combination lamps, a new lockable moulded spare wheel cover (standard on the Aventura grade), and a new rear licence plate finisher. The folks behind you on the road will know the Patrol means business.

New elements that add luxury to utility

According to grade, you can equip your Patrol with attractive and useful elements such as new 17" alloy wheels, headlamp washers, rear-side privacy glass and electric sunroof. They add a touch of extra luxury to your driving experience.

NISSAN PATROL Performance

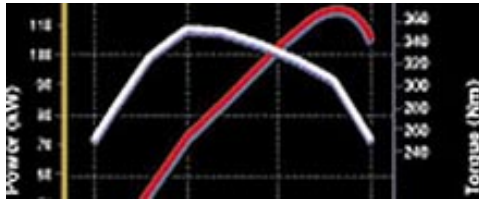

The 4 x 4 express

ENGINE

3.0 diesel engine

Powerful yet highly efficient, the Patrol's 16-valve engine uses pilot injection to reduce noise and emissions while delivering 160 PS. The engine's variable geometry turbo (VGT) provides for even more efficiency. Producing 380 Nm of torque at 2000 rpm. Just what an off-road monster needs.

Torque and towing power

The 3.0 diesel engine produces 380 Nm of torque at just 2,000 rpm, 160 PS at 3600 rpm. So you can scramble over rough ground or pull a good size caravan without breaking a sweat. With over 80% of its torque available across the entire rev range, the Patrol will tow anything up to 3,500 kg with ease (2,500 kg with automatic transmission). Guess who's towing the boat to the cabin?

HANDLING

Tough yet comfortable

The Patrol's rigid axles can handle the most extreme off-road terrain, but you will also get a smooth ride on the motorway, thanks to multi-link coil suspension.

Total comfort for drivers and passengers

The Patrol guarantees your riding comfort whether you're behind the wheel negotiating rugged slopes, or sitting in the ergonomic seats enjoying the scenery. Drivers and passengers alike will appreciate the Patrol's on- and off-road solidity and stability. And features like standard air conditioning ensure that everyone enjoys the atmosphere.

Command respect

From the smoothest asphalt to the rockiest road, the rugged Patrol will prove unstoppable, with excellent off-road capability, a commanding seating position and large-window visibility.

NISSAN PATROL

Performance

	Fuel consumption (l/100 km)			CO2 Emission Combined (g/km)
	Urban cycle	Extra cycle	Combined cycle	
3.0 Di 4x4 4-auto (5 door LWB)	13.9	9.1	10.8	287
3.0 Di 4x4 5-manual (5 door LWB)	14.3	8.8	10.8	288

Safety and Security

Reassurance

PASSIVE SAFETY

Airbag protection

Every Patrol comes equipped with driver and passenger front airbags. The Aventura grade also has front side airbags for extra protection.

Seat belt pretensioners

All Patrols feature front seatbelt pretensioners with load limiters.

ACTIVE SAFETY

ABS braking system

The Patrol's 3 channel, 5 sensor ABS operates on or off-road in two-wheel and four-wheel drive modes (ABS is disconnected when the differential lock is engaged). So even in emergency braking, the wheels are prevented from locking, ensuring you stay in command.

High driving position

When you're travelling on uncertain ground, it's best to have a commanding view of the road ahead. Based on a high eye point, with plenty of headroom for drivers of all sizes, the Patrol's driving position has you sitting high, giving you a clear view over the bonnet.
