The new Audi A6 Saloon and Avant

The new Audi A6 Saloon and Avant are two of the most desirable models in the prestige market. With the latest edition, we've made some substantial enhancements, bringing increased power, better fuel economy and reduced emissions. We've also added new colour and wheel choices, more energy-efficient LED tail lights as standard and a revised suspension for greater comfort. But one thing hasn't changed: the Le Mans-winning TDI® and FSI® technology that made the previous generation such a success.

There are also some new, even more practical features inside. The MMI Multi-Media Interface, for example, has been upgraded to the third generation, offering a large-capacity hard disk to store more information than ever before. So the images produced by the Satellite Navigation system now look far smoother and more realistic, thanks to textured surfaces and high-speed 3D modelling.

Of course, that's just the beginning. Discover every component of Vorsprung durch Technik for yourself over the following pages.

Engines

Petrol

There are three kinds available on this model – the FSI engine, the turbo-charged TFSI engine and the new supercharged TFSI engine. You'll find FSI® technology at work in the new supercharged 3.0 TFSI engine we've introduced to the A6 range, delivering increased power and torque, as well as enhanced fuel efficiency. And with their reduced CO₂ levels, all but the V10 engine in the S6 are already compliant with proposed EU 5 emissions standards.

Diesel

All diesel engines from Audi are known as TDI® – Turbo Direct Injection. This impressive technology was originally pioneered by Audi in 1989, marking a departure from the noisy, fuel-thirsty diesel engines of the past. Like its FSI® petrol counterpart, the TDI® diesel engine is designed for power and performance, with low fuel consumption and CO₂ emissions. For instance, the new 2.0 TDI engine emits just 139g/km of CO₂, making it one of the cleanest engines in its class, and we've also refined our V6 engines to make them more efficient than ever before. The working principle of TDI® is based upon precision and compression. A turbo-charger supplies fresh air to the engine, ensuring optimum filling of the cylinder. Immediately after compression, an injector then delivers fuel into the combustion chambers at a very high pressure. It's what enables you to get the most in terms of performance and economy from every drop of fuel that enters the tank, and it's the reason why every single TDI® engine in the A6 range already complies with the stringent EU 5 emissions limits scheduled for 2010.

quattro

Permanent four-wheel-drive

It's the technology that has given Audi the edge on the racetrack ever since it was first introduced over 25 years ago – a technology that delivers ultimate control whilst enhancing the athletic characteristics which make the A6 so thrilling to drive. It's called quattro permanent four-wheel-drive. The principle is simple: in the same way that four brakes ensure better deceleration, four permanently-driven wheels deliver better

acceleration and road-holding, pushing or pulling the car as needed, for a driving experience that's both dynamic and safe. In the A6 and S6, asymmetric-dynamic torque distribution continuously distributes drive power between the front and rear axles depending on weather conditions, road surface and gradient, which increases flexibility for an enhanced, more dynamic drive.

Standard model equipment

All A6 models have the following items of standard equipment

Wheels, tyres and suspension

17" 'Structure' design alloy wheels
Four-link front suspension
Spare wheel – full-size alloy*

Audio and communication

MMI Radio Plus
Single CD player

Safety and security

Active front head restraints
Anti-lock Braking System (ABS) with EBD
Anti-Slip Regulation (ASR) traction control
Brake light – third brakelight in rear window
Brake system: disc brakes at front and rear, ventilated at front
Central locking with radio remote-control
Driver and front passenger two-stage airbags with front passenger airbag deactivation
Dynamic suspension system
Electric child locks for rear doors and windows
Electromechanical Parking Brake
Electronic Differential Lock (EDL) traction control
Exit lights and active reflectors on all doors
Front fog-light
ISOFIX child-seat mounting (front-left and outer-rear seats)
Light and rain sensors including coming/leaving home function
Rear fog-light
servotronic steering – power steering with speed-dependent control
Side airbags for driver and front passenger
Sideguard head airbag system to protect front and outer

rear passengers in a side collision
Side-impact protection in all doors
Thatcham Category 1 alarm and immobiliser
Warning triangle

Seats

3-point seat belts for all seats with front belt-force limiters
Split-folding rear seats
Upholstery – Meridian cloth

*A6 Avant 2.0 TDIe has the Tyre Mobility System in lieu of the full size spare wheel.

Interior equipment

12V power socket in luggage compartment (Avant models only)

12V power socket in rear centre console

4-spoke leather multi-function steering wheel (adjustable for reach and rake)

Aluminium fascia and door trim inlays

Ashtrays, illuminated, at the front of the centre console and in the rear doors

Centre armrests, front and rear, with storage compartment

Coat hooks with cushioned action, two recessed in roof area

Compartment for glasses in front roof module

Cruise control

Cup holder within the centre console storage compartment and a second cup holder beneath the front centre armrest

Driver's Information System (DIS)

Dual-zone electronic climate control

Electric front and rear windows

Floor mats in front and rear

Heated rear window

Heat-insulating glass

Illuminated vanity mirrors

Load area comprising rail system, lashing points and folding load-area floor (Avant models only)

Luggage compartment cover (Avant models only)

Reading lights – two at front and two at rear

Scuff plates with metal inlays

Tool kit in luggage compartment

Exterior equipment

Body-coloured door mirrors, handles and bumpers

Electrically adjustable and heated door mirrors

Halogen headlights with manual range adjustment

Rear window wash/wipe (Avant models only)

Roof rails in aluminium (Avant models only)

Windscreen-washer jets, heated

S6 model equipment in addition to A6 standard model equipment

The Audi S6 is confident, imposing and supremely sporty. Whether you opt for Saloon or Avant, this model features one incredibly potent engine – the 5.2 V10 FSI. The first ever V10 from Audi, this 435PS powerhouse has been developed with technical input from Lamborghini. The performance speaks for itself – a 0-62 mph sprint in the Saloon takes just 5.2 seconds, with a mere tenth-of-a-second's difference in the Avant – a fair compromise considering the latter's cavernous 1,660-litre load-capacity. Channelling all that power and maximising both handling and agility, the latest generation of quattro® permanent four-wheel-drive, modified aluminium-based Sports suspension and 19" alloy wheels are also included as standard. Yet even with such impressive performance credentials, the Audi S6 doesn't flaunt its capabilities.

The exterior design is confident yet subtle, including features such as flared front wheel arches, aluminium-look wing mirrors and an integrated rear spoiler. Inside, sports styling and carefully-crafted luxury come together in the laterally-supportive leather/Alcantara Sports seats, multi-function leather Sports steering wheel and sleek carbon fibre inlays in the door panelling, dashboard and centre console. Comfortable, refined – but without compromising the raw sportiness that gives the Audi S6 its unique appeal.

Wheels, tyres and suspension

9J x 19 5-arm 'S' design alloy wheels with 265/35 R19 tyres
Full-size spare wheel

Audio and communication

6-disc CD changer
HDD Satellite
Navigation system
MMI 3G Multi Media Interface with 7" high resolution screen

Interior equipment

Carbon Atlas inlays
Coloured instrument inserts with white needles
Driver's Information System (DIS), in colour
Interior lighting package
Leather trimmed 3-spoke multi-function steering wheel with 'S6' logo, contrasting stitching and gear-change shift paddles in aluminium look
'S' gear knob in leather and aluminium
Storage pack (for details see page 47)

Exterior equipment

80-litre fuel tank
Aluminium-look wing mirrors
Black-painted brake callipers featuring the S6 logo at front (15" brake discs at front, 13" at rear)
LED daytime-running lights integrated in the bumper
Dual-branch oval exhaust system (4 tailpipes)
'S' grille (platinum grey): double vertically-oriented chrome struts, S6 badge
'S' rear spoiler
'S' specific bumpers
'S' specific Sports chassis with latest-generation

quattro® four-wheel-drive, incorporating a 60/40 rear-biased torque-split
S6 door-sill trim in aluminium look
V10 badge on wheel arch
Xenon Plus headlights including headlight washers

Seats

Leather/Alcantara 'S' Sports seats – electrically adjustable with electric lumbar support
Split-folding rear seats

S6 quattro – Saloon

Recommended On-The-Road (OTR) retail prices include: delivery charge, half a tank of fuel, number plates at £575.00 (inc. VAT) and Road Fund Licence (which may vary depending on model/transmission – see page 60 for details) and first registration fee at £55.00.

RRP – Recommended Retail Price.

Transmissions

multitronic®

Audi offers a variety of different transmission options to suit your requirements and driving style. In addition to the classic manual gearbox are two innovative automatic and semi-automatic transmission options. To help you come to an informed decision, each of these is described in detail opposite.

Translating a driver's preferences and intentions into road performance, the multitronic® transmission system entertains no compromises – whether in terms of dynamism, convenience or economy. multitronic® automatic transmission is available on models without quattro® permanent four-wheel-drive. A continuously variable transmission, multitronic® can transmit up to 310 Nm of torque and permits an exceptionally wide range of gear ratios. The result is smooth, powerful acceleration and a high level of driving comfort. And thanks to its lightweight design and a number of advanced electronic control systems that monitor gradient, road conditions and the way the driver is using the accelerator pedal, multitronic® also plays an instrumental role in reducing fuel consumption.

tiptronic®

The 6-speed tiptronic® transmission system is a form of automatic transmission available on Audi models with quattro® permanent four-wheel-drive. The technology converts high-torque engine power into both sporty performance and operating convenience, with crisp, fast gear changes, reduced weight and an optimised gearshift strategy. More spontaneous gear changes are a particular benefit, especially when down-shifting. Both in the 'D' (Drive) and 'S' (Sport) programme, the advanced electronics used in tiptronic® respond efficiently to every driver input, helping to prevent unwanted upshifts when cornering.

1910	2490	100/85	750	2100	2100	546	80	15.3 (18.5)	31.0 (9.1)	22.4 (12.6)

³Vehicle's unladen weight without driver (calculated in accordance with the current version of Directive 80/1268/EEC). The fitting of additional equipment may increase the vehicle's unladen weight and drag coefficient, whereupon the potential carrying capacity and top speed will be correspondingly reduced.

⁴The engine's power output always goes down with increasing altitude. At 1000m above sea level, and for every additional 1000m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle).

1760	2340	100/85	750	1800	2000	546	80	31.7 (8.9)	52.3 (5.4)	42.2 (6.7)
1785	2365	100/85	750	1900	2100	546	80	30.4 (9.3)	48.7 (5.8)	39.8 (7.1)

²Vehicle's unladen weight without driver (calculated in accordance with the current version of Directive 80/1268/EEC). The fitting of additional equipment may increase the vehicle's unladen weight and drag coefficient, whereupon the potential carrying capacity and top speed will be correspondingly reduced.

³The engine's power output always goes down with increasing altitude. At 1000m above sea level, and for every additional 1000m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle).

CO₂ data and information

CO₂ emissions-based Vehicle Excise Duty

Vehicle Excise Duty (Road Fund Licence) is based upon the amount of Carbon Dioxide (CO₂) a vehicle emits, measured in grams per kilometre (g/km). The DVLA has created seven categories:

Petrol and Diesel engines	
A – up to 100g/km	£0.00
B – 101 to 120g/km	£35.00
C – 121 to 150g/km	£120.00
D – 151 to 165g/km	£145.00
E – 166 to 185g/km	£170.00
F – 186 to 225g/km	£210.00
G – 226g/km or above	£400.00

CO₂ emission figures

The CO₂ emission figures quoted in the technical data section on pages 50-57 are based on a fully laden vehicle, including the driver, and the heaviest possible options configuration. Actual CO₂ emissions may be lower depending on options selected.

Servicing

Servicing tailored to your needs

Prior to the 2000 model year, almost all Audi models followed a traditional fixed Service Schedule similar to that of other major car manufacturers: a Lubrication Service every 10,000 miles and an Inspection Service every 12 months or 20,000 miles – whichever occurred sooner. Since then, Audi has introduced a more flexible maintenance system that works in accordance with how, where and how much an individual uses their car.

The two Servicing Regimes available are the conventional 'Inspection Service Regime' and the flexible 'LongLife Service Regime'. When you purchase a new car, we will recommend one of these regimes to you depending on your own individual driving style and journey-type. The tables below should give you an indication of which regime might be more appropriate for you.

With the LongLife Service Regime, on-board sensors continuously monitor the condition of the engine oil in terms of temperature, level and oil degradation. The monitoring system also checks mileage, brake-pad wear and battery condition. Using this information, the car's on-board

computer calculates its own maintenance interval, providing you with ample warning of a due Service via the 'distance to Service' display.

In practice, this means that every Audi gets the maintenance it needs, when it needs it. For companies and private owners alike, there are many advantages to the LongLife Service Regime. Longer service intervals mean lower maintenance costs, and thus lower whole-life costs. According to company car mileage monitored at Audi since the introduction of LongLife, petrol engines are typically achieving an average of at least 17,500 miles and diesel engines around 20,000 miles between services.

One of the factors that makes this kind of servicing regime possible is the advanced engineering and technology that goes into Audi engines. Furthermore, Audi use high-grade long-life oils such as Castrol SLX LongLife III, which are designed to withstand ageing and high loads without deterioration. Compared to conventional oils, these advanced-formulation oils also give exceptional levels of engine protection, are kinder to the environment and deliver average fuel savings of 2.7%.

Inspection Service Regime

	Vehicle usage:
Mileage	Less than 10,000* miles per annum.
Type of Journey	Mainly city/town centre driving. Short journeys.
Conditions	Frequent cold starts. High engine loading – e.g. frequent hill climbs, vehicle fully loaded, towing.
Driving style	Uneconomical – e.g. heavy acceleration, heavy braking, constant changes in speed, constant use of high revs, 'sporty' driving.
	Service intervals:
Oil-change Service	Every 10,000* miles/1 year
Interval Service	Every 20,000* miles/2 years
Interval Service Inspection	Every 40,000* miles/4 years

LongLife Service Regime

	Vehicle usage:
Mileage	More than 30 miles per day.
Type of Journey	Motorway and main road driving. Mainly longer distance journeys. Constant speeds.
Conditions	Normal engine loading – e.g. with little or no towing, with little or no hill climbs. Normal vehicle loading.
Driving style	Moderate acceleration, moderate braking, engine revs mainly below 3000.
	Service intervals:
Interval Service	Flexible to a maximum 20,000* miles/2 years
Interval Service Inspection	Every 40,000* miles/4 years

*Mileages are approximate as the Service Indicator system uses kilometres as its distance measurement.

Service by Design

At Audi, we believe our customers have the right to expect excellent service each and every time they make contact with us. To ensure that this happens, we have agreed a set of service standards with our Audi Centre network that governs the way they do business with you. These standards apply to both Sales and Aftersales, and we actively monitor our Centres to ensure that you receive the highest level of customer service. These service standards will ensure a consistent, stress-free experience whenever you are in contact with anyone representing the Audi brand.

Every Audi Centre will be open during the following hours:

Sales: 9am-6pm Monday to Friday
9am-5pm Saturday

Service: 8am-6pm Monday to Friday
8.30am-1pm Saturday

Sunday opening at local discretion.

Test drives

Whilst we cannot always have the desired demonstrator car ready immediately, we will confirm arrangements for a test drive within two working days (subject to status).

New Car delivery

Once we have confirmed a delivery date with you, we will keep you informed of progress. In the unlikely event of a delay, we will provide you with a courtesy car to minimise inconvenience and keep you mobile.

Delivery to any location within the UK

To maximise your Audi experience right from the first day of ownership, we will deliver your car to your preferred location – whether that's home or your place of work (subject to reasonable notice).

Every attention to detail

Your ownership experience starts with half a tank of fuel.

Quotation response

We are committed to answering any quotation request within 1 working day.

Training

We run a continuous training development programme for all our staff so that we consistently deliver a high-quality, professional service.

Formal complaints procedure

We have a complaints procedure designed to ensure any negative issue you raise with us is dealt with properly.

Courtesy cars

When your car is off the road, perhaps due to a scheduled service or MOT, we will offer you an Audi Courtesy Vehicle until yours is ready. We'll even collect from and deliver to your chosen location, keeping hassle to an absolute minimum.

All our courtesy cars are insured and fuelled

Upon collection or delivery, your courtesy car will have a minimum of a quarter of a tank of fuel; all we ask is that you replace any fuel used before returning it to us. On presentation of your driving licence, we will also insure the car free of charge.

Service bookings

If you do not require a courtesy car, we will service your Audi within a maximum of 5 working days. If you do choose to take a courtesy car, we will promise to service your vehicle within a maximum of 10 working days.

Cleaning

When your car comes to our workshop, we will wash and vacuum it at no extra cost.

No hidden charges

You will be consulted before we carry out any necessary work on your vehicle, and anything charged for will be itemised on your bill. No extra work will be undertaken without your permission.

A personal service

All work will be done by a named Audi technician, to whom you can personally direct questions or requests should you need to.

Environmental commitment

We promise to dispose of all non-biodegradable materials from your vehicle in a responsible manner.

Pricing information

Pricing

Prices and specifications given are correct at the time of printing. Always check details with your Audi Centre, as Audi policies are continually developing.

We reserve the right to change prices or specifications at any time.

All prices are subject to VAT, currently charged at 17.5%.

Delivery charges and numberplates are not included in the vehicle price.

Delivery charge	£469.36
Numberplates	£20.00
VAT	£85.64
Total	£575.00

Audi Roadside Assistance

Your new car comes complete with free roadside assistance and recovery across the UK provided by RAC Motoring Services. Your 24 months' free cover can be extended for a further year free-of-charge, provided that your vehicle is serviced and, if necessary, repaired by an Authorised Audi Centre or Audi-Authorised Repairer in accordance with the manufacturer's instructions.

Audi Customer Care

Every new Audi benefits from the comprehensive Audi Customer Care Package, which comprises:

- ▶ A 3-year Audi warranty, which covers you for unlimited mileage in the first 2 years of ownership, with a full mechanical and electrical warranty which covers you for up to 60,000 miles in the 3rd year
- ▶ A 3-year paint warranty
- ▶ A 12-year anti-corrosion warranty
- ▶ Up to 3 years' UK roadside assistance and recovery.

This package, together with Audi variable Service intervals, offers a combination unmatched by any other major manufacturer. Contact your Audi Centre for full details.

Audi Tax-Free Sales

If you are entitled to purchase a vehicle free of VAT, normally through Military or Diplomatic privilege, please contact your local Audi Centre for full details.

Should you have any difficulty obtaining the information you require, please call Freephone 0800 585878.

Audi Finance

Audi Finance specialise in providing funding solutions for Audi drivers. Whether your Audi is for private or business use, there are a range of funding options to choose from.

Below is our full range of finance products.

- ▶ Solutions – a Personal Contract Plan
- ▶ Hire Purchase
- ▶ Lease Purchase
- ▶ Finance Lease
- ▶ Contract Hire

With all our finance products, you can choose one of our fixed-cost maintenance plans, which are designed to help you budget accurately.

No matter what Audi model you choose, your local Audi Centre can provide you with a personalised quote which could fit your budget and motoring needs.

Audi Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Audi Insurance

Competitive comprehensive motor insurance designed specially for Audi drivers. All new Audi models come with complimentary seven-day cover upon request – we'll email a cover note directly to your Audi Centre, enabling them to tax your car easily. This way, you can drive straight out of the showroom. Taking out an annual policy is easy and can begin as soon as your free seven-day cover expires.

For more information, contact your local Audi Centre. Alternatively, call 0800 051 3146 for a quote and to receive 7 days' complimentary cover for your new Audi.

Audi Insurance is underwritten and administered by Zurich Insurance Company.
