

HONDA
The Power of Dreams

Accord

Saloon & Tourer
Type S

SALOON

A car of equal parts;
POWER and
INTELLIGENCE

The Honda Accord Type S has a potent new diesel engine designed to give you more power and a more rewarding driving experience. Our most powerful diesel engine ever, the 2.2 i-DTEC delivers 180PS for an exhilarating drive, and as an all aluminium lightweight engine it also offers impressive fuel consumption and CO₂ emissions figures. The Accord Type S is proof that a car can combine performance, economy and refinement in one stunning design.

TOURER

**A perfect balance of
STYLE and
PERFORMANCE**

With its proud stance and impressive looks, the Type S sits together with the ES GT and EX GT grades to make up the sportier side of the model line up. Both the Type S Saloon and Tourer have bold 18" alloy wheels and GT aero kit which adds to the muscular styling of the Accord, to deliver a real road presence and sporty look. Prominent wheel arches and HID wraparound headlights that improve visibility, complete an exterior that reflects the thrilling offering under the bonnet.

† **Fuel Consumption.** The figures for the fuel consumption and CO₂ emissions are to give you an indication of the cars performance. Following legislation by the VCA (Vehicle Certification Agency), all car manufactures generate these statistics through the same industry standard test. This allows comparison across all manufactures and models. The tests use a base grade version of the model and do not take into account optional wheels, tyres and other factors that on a rolling road and there is no additional weight in the car other than the driver (no passengers or cargo) and it does not account for individual driving style, which can mean a difference to the figures achievable in the real world.

* **Maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient at sea level. At altitudes in excess of 1500 metres, engine output may drop with a reduction in towing capability. Extra weight, such as additional passengers or luggage, should also be deducted from the maximum towing weight.

These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturer reserves the right to vary their specifications, including colours, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sale and Warranty given by the Distributor or Dealer, copies of which may be obtained from them on request. This publicity material applies to the UK only Trade Descriptions Act (1968). Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer, especially if your model selection is dependent upon one of the features advertised.
