FINANCE

NISSAN HIRE PURCHASE

THE TRADITIONAL WAY TO BUY YOUR NISSAN

Hire Purchase enables you to spread the cost of buying your Nissan over a period of time. The repayments are fixed, so you will always know exactly how much you will be spending, enabling you to plan your budget with confidence.

Simply choose how much deposit you wish to pay upfront and the amount of time you need to repay the loan. The interest charged is calculated at the beginning of the agreement and is fixed, so is therefore unaffected by any future changes in Interest Rates.

All you have to do is decide on the Nissan you want, choose a repayment period and agree a deposit level to suit your needs. Once all the repayments have been made, you will own the vehicle, subject to a nominal Option to Purchase Fee.

NISSAN PREFERENCES

THE FLEXIBLE WAY TO BUY YOUR NISSAN

Preferences offers you the freedom to drive away the car of your choice every two or three years (subject to status). Nissan Finance will guarantee the value of your car at the end of your agreement. To do this we agree the maximum

annual mileage and repayment period. The guaranteed future value of the car is then calculated. This figure becomes your Optional Final Payment.

The amount you pay is the price of your new Nissan, minus your deposit and Optional Final Payment, plus any interest and fees. This makes driving your new car more affordable. Lower fixed monthly payments will help you stick to your monthly budget or could even mean that you are able to upgrade to a higher specification car.

At the end of your agreement you have the choice of the following options:

1. Simply part-exchange your car at any authorised dealership where your dealer will value your car. If your car is worth more than the Optional Final Payment, you can use the difference as a deposit for your next new Nissan.
2. Keep the car, to do this, simply pay the Optional Final Payment as outlined in your agreement. Nissan Finance can help you finance this value if needed.
3. Hand the Vehicle back. You can simply hand the vehicle back to Nissan Finance with nothing more to pay (subject to mileage and condition). Excess mileage charges apply.

NISSAN LEASE PURCHASE

HIRE PURCHASE WITH ADDED FLEXIBILITY TO SUIT YOUR NEEDS

Lease Purchase enables you to pay a deposit to suit your budget, then repay the remaining balance over an agreed period.

After the contract is finished, you take ownership of the vehicle. Monthly payments can be reduced by deferring a proportion of the balance, a 'balloon' payment, at the end of the agreement.

NISSAN CONTRACT HIRE

GREAT VALUE, HASSLE FREE FINANCE

This straightforward business user finance package is designed to give you peace of mind. With fixed monthly rentals and no disposal risk (subject to mileage and condition), it removes financial uncertainty and the administrative burden, so you can concentrate on running your business.

You pay a number of rentals in advance (typically 3) followed by a fixed number of monthly payments over an agreed contract period. At the end of the term, simply hand back the vehicle with nothing to pay (subject to mileage and condition).

NISSAN FINANCE LEASE

FLEXIBLE AND VAT EFFICIENT

Finance Lease combines many of the benefits of Contract Hire and Lease Purchase. Many companies choose Finance Lease to avoid a large capital outlay and defer a lump sum 'balloon' payment to lower monthly payments.

A Finance Lease is a VAT efficient method of financing a vehicle that is usually accessed by VAT-registered companies. Up to 50% of the VAT payments can be reclaimed on cars and 100% on LCV's.

VAT is payable on the rentals, so an LCV on a Finance Lease may require a smaller initial deposit, thus improving cash flow. Finance Lease is ideal for companies who want to take advantage of the end of contract flexibility.
