THE NEXT GENERATION

You're looking at the stunning all-new Mazda3 – the next-generation Mazda that combines expressive design with inspired engineering. An aggressive 5-point grille, sculpted bonnet and prominent air vents hint at the power within. Flared wheel arches and a low waistline provide a clue to the highly tuned chassis. But it's only when you're behind the wheel that you can really begin to appreciate the depth of this car's talents. The steering is that little bit more precise. The engine more eager to rev. The handling better balanced. The brakes more responsive. These come together to create a true driver's car – an all-new Mazda3 that will stimulate your senses like never before.

INSTANT ATTRACTION

The instant you set eyes on it you can see that this is something different: something new. Beneath the striking design, the strengthened bodyshell provides an immensely stable platform for the advanced engines that make it so enjoyable to drive whilst providing excellent ride comfort for all. The aerodynamic all-new Mazda3 flows effortlessly through corner after corner, improving your fuel economy and minimising emissions, while inviting you to fully explore its breadth of dynamic abilities.

ADVANCED INNOVATION

The all-new Mazda3 features new advanced technologies to make both your drive and ownership experience even more enjoyable. All models feature class-leading aerodynamics and minimal weight gains, despite the generous specification and first-class safety equipment. Less air resistance means less engine power is needed to travel and doesn't use as much energy or fuel. State-of-the-art diesel powertrains provide a powerful and economical performance to keep money away from the pumps and in your pocket. Sustainable technology in the Mazda3 2.0 Sport in the form of our advanced i-stop smart idling stop system, which effectively places the engine on stand-by when idling and restarts it again in an instant to save you time and money, through lower annual road tax or benefit-in-kind taxation.

RESISTANCE IS FUTILE

Mazda is different – and proudly so. We're always seeking new and innovative ways to improve our cars. We make the steering just that little bit more precise; more controlled. The handling better balanced. The brakes more responsive. Around town, the light-touch foot pedals and instant acceleration provide nimble and sure-footed handling; the advanced suspension soaking up bumps with ease. On the motorway, road and wind noise is a thing of the past, whilst the high-quality engine note provides direct, sporty feedback. Just as you should expect.

COME ON IN

The dynamic lines distinguishing the all-new Mazda3's exterior continue inside, with soft-touch materials adding tactile pleasure to the intuitive layout. The new Multi Information Display, featuring fuel consumption, vehicle maintenance and audio information, is ideally positioned so you don't need to divert your eyes from the road ahead. An integrated full colour satellite navigation system and automatic dual-zone climate control air conditioning hint at the quality specification available. The premium Bose® Centerpoint® surround sound audio system plays your favourite music with all the power and clarity of a live performance. For safety and convenience, your mobile phone or MP3 player can be connected through Bluetooth® technology for hands-free control. And the advanced keyless entry enables you to open the car without even pressing a button, while a push-button start provides that extra sporty touch.

WISHFUL THINKING

What would you wish for from your next car? What's really important to you? A sophisticated Dynamic Stability Control system with Traction Control that could help prevent an accident? Headlights that point in the direction you're driving, better illuminating the way ahead? Hazard warning lights that flash automatically under heavy braking; plus LED tail-lights that are faster and brighter, so following drivers get ample warning when you need to stop in a hurry? Maybe six airbags and active front head rests as standard to protect you and your occupants in the unlikely event of an accident? Or how about i-stop sustainable technology in the shape of ultra-efficient powertrains in a car that doesn't waste fuel whilst sitting in traffic, giving you better fuel economy and emitting less CO₂? Wish no more. It's all here. And it's called the all-new Mazda3.

Warranty Plus – 3-Year Cover

Every Mazda is designed and built to the highest standards of performance, comfort and reliability. For your further reassurance, Mazda also provides a full 3-year / 60,000' mile warranty cover, including Mazda European Assistance, 3-year paintwork warranty and a 12-year anti-perforation warranty. There is no mileage limit during the first year of the warranty.

Mazda Momentum – New Vehicle Extended Warranty

At any time during the manufacturer's warranty period, you may purchase a Mazda Momentum extended warranty package. Three options are available. Your Mazda dealer will be pleased to provide you with details.

Mazda Financial Services*

Mazda Financial Services offers a variety of finance and payment protection schemes to suit the needs of both private and business customers. With our wide range of plans and services, no-one is more committed to delivering complete motoring confidence and total peace of mind than Mazda and Mazda Financial Services.

Mazda Contract Hire**

As a Mazda corporate customer, you'll find that Mazda vehicles are designed to fulfil the diverse needs of a modern company. Our corporate service offers attractive purchase prices, low running costs and market-driven residual values, resulting in extremely competitive ownership costs. To find out more about the benefits of Mazda Contract Hire, please speak to your Mazda dealer.

Digital Service Record

The Mazda Digital Service Record (DSR) system provides increased security against counterfeit service documents and odometer tampering, and makes it easy to keep the service history up-to-date. Stored on a central database, the DSR replaces the traditional paper service book and ensures a secure, accurate and permanent service history for the life of the vehicle.
