Model Year 12

VENGA

Relax for 2,550 days.

Thanks to high production standards you may never need to use our warranty service.

THE KIA VENGA

CONFIDENCE NOW
COMES AS STANDARD

The Kia Venga is covered by our pioneering 7 year vehicle warranty consisting of 3 year/unlimited mileage and 4-7 year/100,000 mile full manufacturer's warranty including a 12 year/unlimited mileage anti-perforation warranty.

GLOBAL PLAYER

Kia Motors Corporation is the 4th largest automotive group in the world. If you are not already aware, we are the brand to watch. Kia is a major global player, having exported over 11 million cars to over 158 countries around the world. Our vehicles are continually surpassing our customers' expectations and our steadfast commitment to quality is increasing our popularity. Furthermore, with our ground-breaking worldwide growth and state-of-the-art dedicated European factory, Kia has a bright future.

Kia is actively involved with major sporting events around the world, sponsoring the renowned Australian Open as well as individuals such as tennis sensation Rafael Nadal. In the UK, Kia sponsors Surrey County Cricket Club and their iconic base in London is now known as The Kia Oval. The driving force behind our success is commitment to quality. With contemporary styling, access to the latest technologies and an excellent build quality, Kia cars are turning heads the world over. From the Picanto to the Sorento, Kia offers a full line-up of passenger cars, MPV's, Crossovers and SUV's that suit any lifestyle and are always exhilarating to drive.

For warranty coverage including terms and exclusions please contact your Kia dealer.

THE NEW-LOOK KIA VENGA

A UNIQUE EXPERIENCE OF SPACE

With its dynamic look and supreme versatility, the Kia Venga combines all the advantages of a family hatchback and a compact MPV, brought together in one stunningly crafted package. With Venga, Kia's Chief Designer, Peter Schreyer - renowned for the iconic Audi TT and the VW Beetle - has designed the perfect space. Venga's high roofline and its unusually long wheelbase contribute to its outstanding interior space and versatility, making it perfect for juggling the demands of our hectic lifestyles, wherever you go and whatever you throw at it.

The Venga range consists of 5 stunning models - Venga '1', '1 Air' adding air conditioning, Venga '2', Venga '3' and the range-topping Venga '3 Sat Nav'. Venga is available in a choice of four highly efficient 1.4 and 1.6 litre diesel and petrol engines with low CO₂ emissions from just 117 g/km (1.6 litre diesel model) which helps keep running costs low and is better for the environment too. As you'd expect from a Kia, Venga is brimming with cutting-edge features including Intelligent Stop and Go (ISG) technology which helps save up to 12% more fuel and is a standard feature on all 'EcoDynamics' petrol Venga models and the 1.6 litre diesel model too.

Long wheelbase and short overhangs, the perfect ingredients for a compact yet practical car.

DESIGN

BORN AND BRED IN EUROPE

The Kia Venga was designed and engineered at our European Design Centre in Frankfurt, Germany with an uncompromising attention to detail. Like the popular Kia cee'd and Sportage models, Venga is manufactured at our state-of-the-art factory in Zilina, Slovakia where our highly qualified technicians and more than 400 robots produce cars to a superior build quality.

The imposing Kia signature 'Tiger-Nose' grille with striking black high gloss and chrome surround creates an instant impact. Wrap-around black bezel headlights complemented by bold and distinctive tail lights create a dynamic overall look. Sleek flowing lines incorporating the aerodynamic rear spoiler provide greater stability and better fuel economy.

Venga's distinctive exterior appearance is complemented by stylish body coloured bumpers, door mirrors and handles which merge seamlessly into the bodywork. Venga '2' models upwards feature stylish integrated indicator lights within the electrically folding, adjustable and heated door mirrors.

The Kia face – distinctive
and typically Kia

FLEXIBILITY

MADE TO FIT

As you'd expect from an MPV, the Kia Venga is supremely versatile yet will still surprise you. Despite its compact outer dimensions, the 4,068 mm long Venga boasts an unusually long 2,615 mm wheelbase and class-leading width so it offers interior space comparable to that usually found in larger cars but within a footprint typical of a Supermini.

To increase boot space Venga offers several options. For transporting awkward loads, space is enhanced by 60:40 split-fold-and-dive rear seats, which fold flat into the floor creating a vast 1,486 litres of cargo bay. Or the flexible two-tier boot provides the opportunity to expand the luggage area by simply lowering the floor, extending the total volume of this area to 570 litres. Venga utilises the art of turning every possible millimetre into passenger or luggage space ensuring the range boasts best-in-class interior measurements in key areas including front and rear leg room and luggage space. Venga's rear seats slide and recline to maximise space. The luggage area also features helpful net hooks and a net to secure items whilst the parcel shelf keeps belongings away from prying eyes.

Versatile storage solutions mean there's space for almost anything and everything is close to hand. Deep front seatback pockets and front map pockets feature a handy bottle holder too and useful cup holders are located within the centre console. The roomy 15 litre glovebox can be used to store smaller items and on the Venga '3' models has the additional convenience of being cooled to ensure your drinks and snacks stay chilled however long your journey is.

Everything is close at hand with clever storage options throughout the cabin.

AGILE PERFORMANCE

FUEL EFFICIENT AND BALANCED

Venga is powered by the latest engine technology, designed to suit your driving style and to meet the highest environmental standards. Clean, quiet and highly fuel-efficient, the range is easy on the environment and on your pocket but economy does not come at the expense of performance. Venga's range of advanced technologies include a variable geometry turbocharger and second-generation Bosch fuel injection on CRDi diesel models. CVVT (Continuous Variable Valve Timing) technology plus electronic fuel injection boost performance on petrol engines.

Power is delivered by a choice of four technologically advanced engines: a 1.4 litre 89 bhp petrol engine with 5-speed manual transmission and a 1.6 litre 123 bhp petrol engine available in a choice of 6-speed manual transmission or 4-speed automatic transmission if you prefer.

Two CRDi diesel engines are available. A 1.4 litre 89 bhp engine with 6-speed manual transmission is available on Venga '1' and '2' grades. The Venga '3' and '3 Sat Nav' models are available in a 1.6 litre 114 bhp engine with 6-speed manual transmission. Responsive power steering, handling and suspension make for enhanced road handling, even in the most challenging conditions. Whichever model you choose, you can be certain of a safe, agile and highly responsive ride.

Venga offers excellent handling and performance.

NEW DIMENSION

A WORLD OF COMFORT AND LIGHT

Settle into any one of Venga's ergonomically crafted seats and the first thing you'll notice is an all-pervading sense of roominess. Venga boasts comfortable seating for five and a stylish interior with space to match. Its sleek, aerodynamic profile reduces fuel consumption and wind noise when travelling at speed.

To further amplify the sense of space, Venga '3' and Venga '3 Sat Nav' models feature a spectacular, sliding panoramic sunroof. Flooding the cabin with light, this sunroof extends to cover both front and rear passengers but can be screened in both areas if occupants prefer shade. The electric sunroof incorporates an anti-trap safety function, sliding open to fill the cabin with fresh air at the touch of a button.

Comfortable
seating for five.

Leather trimmed steering wheel ('2' upwards)

Audio system features RDS Radio, CD player and AUX/USB ports (standard) plus Bluetooth with Music Streaming ('2' upwards).

INTERIOR DESIGN AND COMFORT

EXCEPTIONAL FEATURES AS STANDARD

Driving the Venga is a unique experience. The elevated seating position gives you an enhanced feeling of control with superb all-round visibility. Large front side quarter windows aid parking alongside kerbs or in tight corners while the location of the large door mirrors allows the driver to keep an eye on traffic with only the merest diversion of the eyes from the road ahead.

To ensure you find the perfect driving position every time, the Venga has a driver's seat height adjust feature and a tilt and telescopic steering wheel with the convenience of steering wheel mounted audio controls which are also an important safety feature. Two individual front seat armrests ensure perfect seating comfort and the cabin's layout also ensures that everything is close at hand. Two convenient cup holders are located in the floor centre console between the front seats and there is even a space to put your telephone and connect it to the USB or auxiliary socket.

Front electric windows with driver's automatic up/down function are standard features whilst Venga '1 Air' and Venga '2' come with air conditioning to keep you comfortable however long the journey. Venga '2' boasts other luxurious and convenient features including a leather-trimmed steering wheel, rear electric windows and reversing sensors.

To create a luxurious feel, the range topping '3' and '3 Sat Nav' models offer part-leather seats with three-staged (off, low or high) heated front seats as well as a panoramic sunroof and automatic air conditioning for maximum comfort whatever the temperature. The '3' and '3 Sat Nav' models also boast the convenience of cruise control which allows the driver to maintain a constant speed during long journeys.

Clever interior design makes a Venga a very comfortable place to be.

Leather gearshift (Venga '2' upwards)

Front electric windows with automatic up/down function

CONNECTIVITY

A WEALTH OF USEFUL FEATURES

Wherever you're heading, Venga gets you there in style. All models feature a CD player with USB/AUX ports to listen to your favourite music via six high-quality speakers placed throughout the cabin. The handy onboard trip computer displays trip mileage, distance to empty, as well as instant and average fuel consumption providing precise information about your journey and driving.

On Venga '2' and '3' models you can plug in your iPod turning the Venga into your very own mobile concert venue. You can even utilise the Bluetooth® hands-free system which not only allows you to talk safely whilst you drive but is also set up to stream your favourite music wirelessly from your Bluetooth® enabled music player direct to Venga's 6-speaker system. In addition, these models feature bumper-mounted reversing sensors which help prevent collisions when reversing by identifying objects or obstructions and emitting an audible warning signal.

The range topping Venga '3 Sat Nav' takes connectivity to a new level. Standard features include a wide, 7" full European map touchscreen Satellite Navigation system integrated into the central dashboard fascia and designed to help you navigate your way more easily and safely. It is one of the largest satellite navigation screens currently available and provides access to a large selection of European maps and points-of-interest. Key features include motorway junction views, lane guidance, speed limit warnings, multi-route planning and tour planners. In addition there is a convenient 'Parking Location' function which can easily be accessed. Venga '3 Sat Nav' also boasts a sophisticated, advanced reversing camera system showing a full view of any obstacles to the rear of the car when reverse gear is selected via the satellite navigation screen.

Several models of Bluetooth® enabled 'phones are available. Kia cannot guarantee compatibility with all 'phones. Please check the compatibility of your mobile 'phone via www.kia.co.uk or by trialling your 'phone at a Kia dealer.

Set cruise control via the handy steering wheel buttons ('3' and '3 Sat Nav').

Easy parking with the advanced reversing camera system integrated into the Sat Nav screen ('3 Sat Nav').

The telescopic steering wheel tilts and adjusts to your height.

Perfect climate with air conditioning or automatic air conditioning (model dependent).

Find it quickly with the 7" touchscreen satellite navigation system ('3 Sat Nav').

ECODYNAMICS

INTELLIGENT THINKING

Venga utilises our innovative EcoDynamics technology, Kia's first showcase of our eco-friendly forward thinking which is available on all petrol manual Venga models and the 1.6 litre CRDi (diesel) Venga '3 EcoDynamics' model. Incorporating Intelligent Stop and Go (ISG) technology, this helps save up to 12% more fuel and reduces your carbon footprint – simply by cutting the vehicle's engine off when the car is stationary. When stopping, activate ISG simply by putting the car into neutral and removing your foot from the clutch. The engine will switch off, then switch on again instantly when you de-press the clutch and are ready to move off. ISG technology can also help reduce noise and exhaust emissions too. Low resistance tyres which are standard across Venga 'EcoDynamics' models increase overall efficiency and all models are fully compliant with Euro V emissions standards. Other innovative technologies featured as part of the EcoDynamics package include an Eco-shift indicator (on all manual models) to encourage an economical driving style. All elements work together to create what we call "EcoDynamics." Really clever stuff!

ISG technology significantly reduces fuel consumption and CO₂ emissions – which are just 117 g/km on the Venga 1.6 litre diesel model. Low CO₂ emissions help reduce your running costs by keeping the cost of your Road Tax and fuel consumption to a minimum and they are better for the environment too. The Venga '3' EcoDynamics model can cover 64.2 miles on a single gallon of fuel in the official combined cycle.

Reduce CO₂
with Intelligent
Stop and Go (ISG)
technology.

ISG does not operate in circumstances where there is risk of excessive strain on the vehicle's battery. These include cold weather conditions and where the engine temperature of the vehicle is not sufficient. Please consult your Kia dealer or the owners' handbook for further information.

PEACE-OF-MIND

VENGA SAFETY

Venga has been designed with your safety as an absolute priority. In the event of a collision, Venga provides outstanding protection thanks to a rigid body shell and carefully positioned side impact beams in the doors. These absorb any energy during a collision, dampening impact. All models have 6 airbags as standard to help protect all occupants. Active safety features include an Anti-lock Braking System (ABS) with a Brake Assist System (BAS) to ensure sufficient brake force is applied with maximum efficiency in an emergency situation and Electronic Stability Control (ESC) which detects instances in which the car could possibly go out of control. It is supported by Vehicle Stability Management (VSM), an electronic feature that helps you stabilise the vehicle when braking on uneven surfaces or in case of oversteer. Hill-start Assist Control (HAC) takes the effort out of even the steepest hill-start by ensuring the car does not roll backwards. Venga incorporates Emergency Stop Signalling so in the event of the driver stopping suddenly, the hazard lights start flashing to warn drivers following behind.

The front seats have active headrests too, so in the event of an impact, the headrests move forwards and upwards which helps prevent whiplash neck and head injuries. All five seats are fitted with 3-point seatbelts whilst ISOFIX child seat top tethers and anchor fixings are standard in the rear to protect any younger occupants on-board. Child safety rear door locks also help protect any children on-board.

In a rear collision front active head rests move upwards and forwards to protect your head and neck.

Silver painted metallic centre fascia (Venga '1' and '2' models).

Black high-gloss centre fascia (Venga '3' models).

Advanced reversing camera system (Venga '3 Sat Nav').

Black 'Madrid' cloth (Venga '1' and '1 Air').

Black 'Beat' cloth (Venga '2').

Black 'Bamboo' part cloth and leather upholstery (Venga '3' and '3 Sat Nav' models).

A WEALTH OF CHOICES

EXTERIOR COLOURS

Venga '1' and '1 Air' models come in a choice of four vibrant exterior colours – Arctic White (solid) and 3 metallic colours – Silver Storm, Phantom Black and Infra Red. Venga '2' adds a further metallic colour option called Space Blue, whilst the range-topping Venga '3' models add the choice of an additional metallic colour option called Sirius Silver.

INTERIOR TRIMS

To create a luxurious feel, premium materials are used throughout the Venga range. Two durable full cloth materials are available, either Black 'Madrid' cloth or Black 'Beat' cloth (model dependent). In addition, the range-topping Venga '3' and '3 Sat Nav' models are available in a Black 'Bamboo' part cloth and leather upholstery.

Remote central door and tailgate locking with fold-away key.

Enjoy choosing between 3 different interior upholsteries (model dependent).

ACCESSORY OPTIONAL EXTRAS

MAKE IT MORE YOU

If you want to make your Venga more tailored to your needs, here's a selection of extra options you can add:

Roof Rack - Steel

Easy to install and remove, designed specifically for your Venga, this is fully compatible with our range of travel accessories.

Wind Deflector

Reduces noise and water splashes in to your Venga. Set of 2 pieces for the front windows only.

Side Door Mouldings

An eye-catching, elegant finish that also helps protect your doors against those annoying bangs and scratches.

Rear Bumper Loading Protection Foil in Black

Black coloured and grained protection to shield against scratches when loading or unloading (also available in transparent).

Detachable Tow Bar

Horizontal detachable tow bar, discreet mounting location, when not in use the ball can be removed leaving the clean lines of your Venga.

Exterior Body Styling Kit

A perfect match. Enhanced design adds a subtle sportiness to your Venga. Available primed ready to paint.

Entry Guards

Stylish aluminium entry guards, matching the design elements of your Venga. Set of 2.

Mud Guard Kit

Delivers additional protection for vehicle body work against stones, mud and road salt. Black coloured parts including fixation material.

Ice /Sunscreen

Tailor-made screen protecting the windscreen and the 2 front side windows from ice or the car's interior from the sun.

Executive Roadside Kit

If you find yourself at the side of the road, this compact travel pack will help to ensure you stay safe from harm.

Kia Motors Corporation is committed to surpassing customer expectations through continuous automotive innovation. By offering our customers products and services that exceed expectations, we enable them to lead energetic lives. Kia's line-up of dynamically designed, high quality cars and world-class service offerings ensure that our customers are enthusiastic about coming back to Kia - again and again.

ENVIRONMENTALLY YOURS

Kia Motors takes great pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society. Kia Motors has set up an environmental research centre to spearhead the company's drive in the production of less polluting hybrid and fuel-cell vehicles, investing in eco-friendly cars for a greener tomorrow.

The concept of eco-friendly cars is followed through all cycles of a vehicle's life. From design through to recycling, Kia Motors creates innovative products, ensuring state-of-the-art Design for Recycling (DfR) guidelines. Wherever possible, recycled and recyclable materials are used in the production of Kia cars, all major plastic parts being chosen for ease of disassembly and stamped with a composition code.

Even at the end of a vehicle's life, one of Kia Motors' environmental targets is the eco-friendly take-back and treatment of End-of-Life Vehicles. Operating a rigid process, Kia Motors has selected partners across Europe that guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environmental protection. Kia Motors (UK) Ltd has appointed autogreen as our partner to manage the take-back, treatment and recycling of End-of-Life Vehicles in accordance with Directive 2000/53/EC. They can provide advice on whether or not your vehicle qualifies for free take-back and the location of your nearest take-back facility.

DYNAMIC EVOLUTION

Driven by innovation: A solar-powered car, a water-fuelled car, a self-navigating "smart" car. No longer are these figments of the imagination but one day could be parked in your garage. Kia researchers are working around the clock to create the ultimate driving solutions with the safest, easy-to-drive and environmentally friendly features. Kia's Namyang R&D Centre in Korea and our overseas research and design facilities in the USA, Japan and Germany are combining efforts to develop new vehicles that satisfy the diversified needs of each region of the world. By ushering in a new generation of cars that feature high impact-durability frames, on board "datainfotainment" systems and fuel efficient, lightweight and high-powered engines with reduced emissions and noise, Kia will spearhead automobile innovation in the 21st century.

COMPLETE PEACE-OF-MIND

At Kia, our quality promise extends beyond the factory floor. We want to ensure you always get the best service possible. Our pioneering 7 year warranty reflects this commitment. This warranty is also transferable so that if in the future you decide to sell your Kia Venga, the new owner will benefit from the remainder of the warranty provided the car is regularly maintained in accordance with the servicing schedule*.
