## **Audi Accessories**

Choosing an Audi isn't just a matter of deciding on the model you want, it's about creating a car that suits you perfectly. To help you do that, we've developed a range of accessories you can add to your Audi, enabling you to customise it down to the last detail.

Just like any Audi model, our accessories are professionally crafted and extensively tested. Intense heat, high humidity, strong sunlight – these are just some of the conditions they need to be able to endure. We even subject our alloy wheels to an accelerated salt spray test to ensure they won't corrode over time, all to ensure they meet our demanding standards.

Only when our products have passed all these tests and more can they be called Audi Genuine accessories. They're all available from your Audi Centre and the full range is available to view at [audi.co.uk/accessories](https://www.audi.co.uk/accessories)

# Packages

Whatever your lifestyle, you'll find a wide choice of accessories to help you make the most of your Audi. To make things convenient, we've grouped items together that complement each other perfectly. So whether you're off on a road trip, have a growing family, or just want to give your car a personal finishing touch, there's an Audi accessories package to suit you.

## Sport and design

A set of alloy wheels can dramatically affect the way your Audi looks, underlining its style and power out on the road. What's more by reducing weight and dissipating brake heat, they can also influence the way it feels when you're behind the wheel.
