CTS SEDAN

INTRODUCING THE CADILLAC CTS SEDAN

A star graduate of Germany's notorious Nürburgring racetrack, the CTS Sedan leaves no doubt as to its performance intent.

Combining advanced technologies with lavish luxury and expressive design, the CTS Sedan is unmistakably Cadillac.

Sculpted by expert modelers and designers – rather than shaped by a computer – this is a car with spirit, not a soulless science project. Nor are the performance figures just a meaningless ego massage. There is substance behind the available 322 hp 3.6L Direct

Injection V6 power plant – a 157 cm wide track aids control, and options like all-wheel drive (AWD) take that control to a whole new level. The Cadillac CTS Sedan. A dynamic new presence in the staid world of luxury sedans.

ADAPTIVE FORWARD LIGHTING:

Turn night into day. High-Intensity Discharge (HID) headlamps with Adaptive Forward Lighting light corners when the sun goes down. The stacked headlamps swivel up to 15° in the direction of travel, thanks to intelligent sensors that read speed and steering angle.

ULTRAVIEW SUNROOF:

An optional UltraView sunroof with a power tilt-and-slide panel, express-open and power sunshade brings the open air to driver and passengers alike.

WHEELS:

Standard 18" aluminum wheels with a premium multi-coat painted finish come together with P235/50R18 tires, not to mention performance brake and cooling systems.

19" polished aluminum wheels with performance-oriented tires are also available.

REAR-VIEW CAMERA SYSTEM & ULTRASONIC PARK ASSIST SYSTEM:

Enjoy increased comfort and vehicle control with the CTS's standard rear-view camera, viewable on the glide up navigation screen. This camera perfectly complements the Ultrasonic Park Assist system, the two together offering greatly improved overall awareness.

STEERING WHEEL CONTROLS & ELECTROCHROMIC REAR-VIEW MIRROR:

Adjust cruise control and audio functions without taking your hands off the wheel, through ergonomic steering wheel controls. The concept of automation is taken further by a rear-view mirror featuring sensors to automatically dim and eliminate unwanted glare.

WELCOME TO THE FAST LANE

One touch of the accelerator and the extraordinarily powerful 3.6L Direct Injection V6 puts an adrenaline-pumping 237 kW / 322 hp at your command. And the standard CTS Sedan engine – a 3.0L V6 with 203 kW / 276 hp – provides more than enough power, combining punch with controlled acceleration under all conditions. Both power trains offer Direct Injection technology, as well as employing variable valve timing to optimize power and fuel efficiency, and reduce emissions.

RACETRACK-HONED CHASSIS:

The CTS Sedan's chassis enables the perfect balance of performance and luxury, and delivers an abundance of grip. The tuning and orchestration of its elements were tested and retested on one of the most challenging stretches of road on the planet – the Nürburgring Nordschleife.

LIMITED-SLIP DIFFERENTIAL:

In addition to the Nürburgring-tuned rear-wheel drive (RWD) platform, an AWD model is available featuring an advanced limited-slip differential. The system allows torque to be distributed as needed to individual wheels, ensuring that every last ounce of available grip is exploited.

HYDRA-MATIC GEARBOX:

Both RWD and AWD models feature Hydra-Matic 6-speed automatic transmission. This transmission features Driver Shift Control, inherited from the legendary Cadillac V-Series, delivering a manual feel but with lightning-fast, automatic shifting.

THE CTS SEDAN INCORPORATES SOME OF THE
INDUSTRY'S BEST LUXURY ATTRIBUTES,
ADVANCED TECHNOLOGIES AND ELECTRONICS.

HIGHLIGHTS OF STANDARD ,ELEGANCE' MODEL:

- High-performance 3.0L V6 engine (203 kW / 276 hp) with Direct Injection and variable valve timing
- Sport suspension
- Performance brake and cooling system
- 18" x 8" aluminum wheels with premium multi-coat painted finish
- P235/50 R18 V-rated tires
- Hydra-Matic 6-speed automatic transmission with Driver Shift Control performance shifting and Sport Mode
- Rake and telescopic steering column
- Leather interior
- Driver and front passenger seats with 8-way power seat adjuster and additional 2-way power lumbar control
- Memory package, including 2 ,presets' for power driver seat, outside mirrors, driver personalization features and power-adjustable pedals
- Air-conditioning with dual-zone automatic climate control and individual climate settings
- Bose® audio system with HDD-based navigation, CD player, 5.1 cabin surround, USB port, and integrated voice control
- Rear-view camera system
- Rear Parking Assist, ultrasonic with audible warning chimes

ADDITIONAL HIGHLIGHTS OF ,SPORT LUXURY' MODEL:

- High-performance 3.6L V6 engine (237 kW / 322 hp) with Direct Injection and variable valve timing
- Rear-wheel drive (RWD) including:
 - Sport performance suspension
 - 19" x 8.5" aluminum wheels with high-polished finish
 - P245/45 R19 Y-rated tires
 - Limited-slip differential
 - Steering-wheel-mounted paddle shift controls
- All-wheel drive (AWD) including:
 - Sport suspension
 - 18" x 8" aluminum wheels with high-polished finish
 - P235/50R18 V-rated tires
- Heated and ventilated front seats
- Power rake steering wheel and telescopic steering column
- Keyless access – passive entry / remote start / ignition

OPTIONAL EQUIPMENT FOR ,ELEGANCE' AND ,SPORT LUXURY' MODELS:

- Wood trim package:
 - Real sapele wood on
 - Instrument panel
 - Center console
 - Door trim
 - Steering wheel and shift knob
- Heated steering wheel when combined with ,Sport Luxury'
- Power UltraView double-sized sunroof with express-open and power sunshade

09 CTS SEDAN TECHNICAL INFORMATION

ENGINE:

3.0L V6 ,ELEGANCE':

- Variable valve timing and Direct Injection petrol engine
- Maximum power (kW): 203
- Maximum power (hp): 276
- Maximum torque (Nm): 302
- Top speed in km/h: 225
- Acceleration 0–100 km/h (s): 8.0
- Fuel consumption:
 - urban: 16 l / 100 km
 - extra-urban: 7.5 l / 100 km

10 CTS COUPE

CTS COUPE

THE CTS COUPE

PERFORMANCE. DESIGN. ATTITUDE.

The CTS Coupe is the ultimate expression of Cadillac's commitment to performance driving and uncompromising design. The latest and most dramatic of Cadillac's new series of designs to reach production, the CTS Coupe is virtually unchanged from the 2008 concept car, but more than delivers in the real world. Tested and tuned on one

of the most demanding and challenging stretches of road on the planet – the Nürburgring Nordschleife – the Coupe is a true driver's car.

The performance-oriented chassis helps keep the car planted right where you want it, and ensures that the CTS Coupe stands apart in a class of its own – a class that offers a unique mix of American character and European handling. It is a fearsome combination.

ADAPTIVE FORWARD LIGHTING:

Turn night into day. High-Intensity Discharge (HID) headlamps with Adaptive Forward Lighting light corners when the sun goes down. The stacked headlamps swivel up to 15° in the direction of travel, thanks to intelligent sensors that read speed and steering angle.

AUTO-TOUCH DOOR RELEASES:

Keyless, touchpad door releases are almost invisible and accentuate the CTS Coupe's clean lines. The personalized fob will unlock the CTS Coupe when you activate the touchpad or push the deck-lid button. The standard remote start system can turn on the engine from as far away as 60 meters.

WHEELS:

Standard 18" aluminum wheels with a premium multi-coat painted finish come together with P235/50R18 tires, not to mention performance brake and cooling systems.

19" polished aluminum wheels with performance-oriented tires are also available.

REAR-VIEW CAMERA SYSTEM & ULTRASONIC PARK ASSIST SYSTEM:

Enjoy increased comfort and vehicle control with the CTS's standard rear-view camera, viewable on the glide up navigation screen. This camera perfectly complements the Ultrasonic Park Assist system, the two together offering greatly improved overall awareness.

STEERING WHEEL CONTROLS & ELECTROCHROMIC REAR-VIEW MIRROR:

Adjust cruise control and audio functions without taking your hands off the wheel, through ergonomic steering wheel controls. The concept of automation is taken further by a rear-view mirror featuring sensors to automatically dim and eliminate unwanted glare.

WELCOME TO THE FAST LANE

One touch of the accelerator and the extraordinarily powerful 3.6L Direct Injection V6 puts an adrenaline-pumping 322 hp at your command. A wide-stance performance suspension brings sports car verve. Choose from rear-wheel and all-wheel drive. Both mount a Hydra-Matic 6-speed automatic transmission inherited from the legendary Cadillac V-Series. It features Driver Shift Control (DSC) – which lets you select clutchless manual operation. A quick tap of the shifter is then all you need for lightning fast, high-performance shifts. The 3.6L rear-wheel drive model also comes with steering wheel-mounted shift paddles for quick clutchless shifting with the Driver Shift Control.

RACETRACK-HONED CHASSIS:

The CTS Coupe's chassis enables the perfect balance of performance and luxury, and delivers an abundance of grip. The tuning and orchestration of its elements were tested and retested on one of the most challenging stretches of road on the planet – the Nürburgring Nordschleife.

LIMITED-SLIP DIFFERENTIAL:

In addition to the Nürburgring-tuned rear-wheel drive (RWD) platform, an AWD model is available featuring an advanced limited-slip differential. The system allows torque to be distributed as needed to individual wheels, ensuring that every last ounce of available grip is exploited.

HYDRA-MATIC GEARBOX:

Both RWD and AWD models feature Hydra-Matic 6-speed automatic transmission. This transmission features Driver Shift Control, inherited from the legendary Cadillac V-Series, delivering a manual feel but with lightning-fast, automatic shifting.

17 CTS SPORT WAGON

CTS SPORT WAGON

18 CTS SPORT WAGON EXTERIOR

PRACTICALLY A SPORTS CAR.
CTS SPORT WAGON

Welcome to a new standard in sport wagons – the CTS Sport Wagon. A performance-bred luxury vehicle that yields to no one. Sharing genes with the world-class CTS and CTS-V, the CTS Sport Wagon's performance credentials are beyond question.

In practical terms, it delivers just as you might expect – it has cargo space to burn. And this seamless combination of innovative utility and high performance is all set to the intoxicating tone of a powerful V6 engine. The dynamic appearance of the CTS

Sport Wagon shakes up a class traditionally known for conservative design. If you are looking for a sport wagon that will blend in at the local tennis club, you are looking at the wrong brochure.

ADAPTIVE FORWARD LIGHTING:

Turn night into day. High-Intensity Discharge (HID) headlamps with Adaptive Forward Lighting light corners when the sun goes down. The stacked headlamps swivel up to 15° in the direction of travel, thanks to intelligent sensors that read speed and steering angle.

ULTRAVIEW SUNROOF:

An optional UltraView sunroof with a power tilt-and-slide panel, express-open and power sunshade brings the open air to driver and passengers alike.

INTEGRATED ROOF RAILS:

Exclusive ‚hidden‘ roof rails with cross bows come standard with every CTS Sport Wagon and help to maintain a seamless exterior and uninterrupted profile, while enhancing cargo options.

WHEELS:

Standard 18” aluminum wheels with a premium multi-coat painted finish come together with P235/50R18 tires, not to mention performance brake and cooling systems.

19” polished aluminum wheels with performance-oriented tires are also available.

20 CTS SPORT WAGON
INTERIOR

CARGO ROOM:

The CTS Sport Wagon has cargo space to burn. Over 700 liters of lined cargo room awaits behind the rear seats. Fold the split rear seats flat and expand that area to nearly 1,500 liters.

POWER LIFTGATE:

A power liftgate with memory height position allows rear hatch opening height to be preset. Floor rails are fitted with attachment points for tie-downs.

WELCOME TO THE FAST LANE

There are not many sport wagons that deliver anywhere near 203 kW / 276 hp. And fewer still that can boast 237 kW / 322 hp. Welcome to the CTS Sport Wagon's 3.0L and 3.6L V6 power trains. A Direct Injection system leads to a great balance of performance and fuel economy – delivering fuel more precisely, it increases the efficiency of combustion, allowing less fuel to be consumed and fewer emissions to be created. The system also acts to reduce cold-start emissions by up to 25 percent. Along with Direct Injection technology, both engines also employ variable valve timing to further optimize power, fuel efficiency and lower emissions.

RACETRACK-HONED CHASSIS:

The CTS Sport Wagon chassis delivers performance, luxury and an abundance of grip. The tuning and orchestration of its elements were tested and retested on one of the most challenging stretches of road on the planet – the Nürburgring Nordschleife..

LIMITED-SLIP DIFFERENTIAL:

In addition to the Nürburgring-tuned rear-wheel drive (RWD) platform, an AWD model is available featuring an advanced limited-slip differential. The system allows torque to be distributed as needed to individual wheels, ensuring that every last ounce of available grip is exploited.

HYDRA-MATIC GEARBOX:

Both RWD and AWD models feature Hydra-Matic 6-speed automatic transmission. This transmission features Driver Shift Control, inherited from the legendary Cadillac V-Series, delivering a manual feel but with lightning-fast, automatic shifting.

THE CTS SPORT WAGON INCORPORATES SOME OF THE
INDUSTRY'S BEST LUXURY ATTRIBUTES,

„MAYBE THE
BEST AMERICAN CAR
EVER MADE“

High praise indeed for Cadillac's performance credentials from esteemed US automotive magazine, „Car and Driver“.

The Cadillac CTS was put several times on their prestigious „10 Best Cars“ list.

The reason? Performance.

Sure, our mixture of unapologetically expressive styling and modern luxury is important when competing in this segment, but, at the end of the day, it is all about sheer driving performance.

CTS
ADVANTAGES

NÜRBURGRING-TUNED CHASSIS:

Tested and retested on the Nürburgring Nordschleife – one of the most demanding and challenging stretches of road on the planet – the CTS chassis enables the perfect balance of performance and luxury while delivering grip by the truckload.

PERFORMANCE SUSPENSION SYSTEM:

All models feature an independent short/long arm front suspension system, with performance characteristics optimized by low-mass aluminum. Multi-link rear suspension with a fully isolated subframe contributes to a superior ride with excellent handling.

STABILITRAK:

By comparing driver steering input with vehicle response, the StabiliTrak electronic stability control system helps you maintain control by quickly applying ABS brakes to any wheel and adjusting the power through traction control to help correct oversteer or understeer.

NÜRBURGRING RACETRACK IN GERMANY

PRECISION LUXURY

INFOTAINMENT:

A 40 GB infotainment center incorporates a Bose® 5.1 audio system and navigation system as standard. Its LCD screen, which glides up out of the dash, delivers 800 x 480 pixel color resolution and even displays MP3 playlists through USB and auxiliary audio jacks.

The cabin blends modern design and technology with classic craftsmanship. Luxurious finishing touches include French-stitched leather seating surfaces, keyless start, and a heated steering wheel. Major aspects of the cabin are cut and sewn by hand. You will feel the luxury in everything you touch and feel, starting with the leather wrapped steering wheel. Master craftsmen expertly cut, sew and wrap the luxurious accents for a finely tailored interior. The Ebony interior features charcoal gray contrast stitching.

A full instrumentation driver information center and navigation screen displays vehicle running data, while ambient lighting uses LED spots and light tubes to bathe the interior in a sophisticated and calming glow.

Passenger safety is always the first and most important consideration in the Cadillac engineering process.

All CTS vehicles are painstakingly designed to provide a host of features to ensure that accidents are avoided in the first place and, crucially, to protect driver and passengers should impact occur.

SIX AIRBAGS:

Dual-stage frontal airbags and seat-mounted side airbags for the driver and front passenger. Head/curtain side-impact airbags mounted at the roof rail help protect both front and outboard rear passengers in the event of a side impact.

STRONG BODY UNIT:

Strategically engineered crumple zones surround all occupants. Both front and rear zones help absorb impact forces, and comprehensive use of high-strength steel helps to direct energy away from the passenger compartment.

TIRE PRESSURE MONITOR:

A sensor in each tire constantly monitors air pressure. Should there be a drop in pressure, the driver will receive an alert via the Driver Information Center.

THE UPGRADE FOR PERFORMANCE-ORIENTED CTS DRIVERS

The Touring Package is available in the 3.6L V6 Sport Luxury Rear-wheel Drive (RWD) versions and features Recaro 14-way adjustable performance seats and Midnight Sapele wood interior trim. The sueded steering wheel, shift knob and seat inserts give the cockpit an even sportier look, and more importantly: give you the increased grip and hold you need when you when you are driving fast on challenging roads. Metal pedals and the exclusive Dark Spinele grille finish round out the package. And on the exterior, a CTS Sedan or Sport Wagon equipped with the Touring Package signals its ambition with distinguished chrome door handles.

CADILLAC IS A STATEMENT. A DECLARATION OF INTENT.

Distinctive, expressive and highly original – the new range of Cadillacs are set to turn a lot of heads on the roads of Europe. If you are looking for 'ordinary', you have definitely come to the wrong place.

Spectacular from all angles, Cadillac's new design language is shaking up the reserved world of premium cars in all its segments, from sedans to crossovers and SUVs. And our passion for performance has led to a new generation of luxury vehicles – vehicles created for true driving enthusiasts.

Elegantly combining high-performance handling and road-holding with a thrilling abundance of efficient power, our cars, crossovers, and SUVs are tested and honed on racetracks around the world – including one of the most demanding and challenging stretches of road on the planet, the Nürburgring Nord-schleife.

So, if you are looking for distinction and performance, get in.

Welcome to Cadillac.

Cadillac®

CADILLAC SALES AND SERVICE SPECIALISTS

Whether you're at home or on the road, your Cadillac sales and service specialists are there to offer you truly personal assistance. Count on them to arrange service appointments, answer questions about your new Cadillac and ensure that you're always satisfied with your ownership experience. To find the Cadillac sales and service specialist closest to you, visit www.cadillaceurope.com.

WARRANTY

As a Cadillac owner, you should expect nothing less than premium service and protection, which is why your new Cadillac comes with a full 3-year or 100,000 km warranty (whichever comes first), plus a 6-year rust-through guarantee, all backed by an experienced Cadillac service team that will handle any issues with confidence and due care. For more details, ask your Cadillac sales and service specialist.

CADILLAC ROADSIDE ASSISTANCE

In the event of an emergency, help is only a phone call away. Contact Cadillac Roadside Assistance and they will come to you as quickly as possible - 24 hours a day, 365 days a year. If they can not get you back on the road straightaway, they will drive you to the nearest Cadillac sales and service specialist. Cadillac Roadside Assistance is yours free of charge for a period of 36 months from the date of registration. Ask your local Cadillac sales and service specialist for details.

PLEASE NOTE: The vehicle shown in this brochure is for illustration purposes only. European specifications may vary. Some illustrations feature special equipment that is not included in standard delivery. The information contained in this brochure was accurate at the time of going to press. We reserve the right to make changes in design and equipment. The colours printed in the brochure only approximate actual colours. Illustrated optional equipment is available at extra charge. Availability, technical features and equipment provided on our vehicles can vary from one market to another and may change without prior notice. Information on recycling design and End of Life Vehicles (ELV) can be found on the website www.cadillaceurope.com. For precise information on the equipment provided on our vehicles, please contact your local Cadillac sales and service specialist.
