SPEED UP THE PACE

LIVEN THINGS UP. With Nissan's Dynamic Control System, you're streets ahead. Three driving modes - SPORT, NORMAL and ECO - and a multi-mode display screen complete with real time updates set you up for countless city moves.

- Air conditioning: In ECO mode, the air conditioning reduces its energy and fuel consumption.
- Acceleration: Throttle response* varies across drive modes to adapt to your needs.
- Steering: Reaction in SPORT mode is firmer for a sharper response.

CVT gearbox: Gear shift mapping change depending on the Drive mode (SPORT or ECO) on XTRONIC CVT and XTRONIC M-CVT.

COMBINE YOUR POWERS

CONFIDENCE WITH A CONSCIENCE.

JUKE is powered by Nissan's ultra modern 1.6L direct injection turbo engine (DIG-T), fusing urban priorities; fast acceleration, ultra-responsive performance and low fuel consumption – the best of all worlds.

HIGH-PRESSURE FUEL PUMP. It works to significantly improve power output and torque.

VALVE-TIMING CONTROL. Maximum injection efficiency is ensured by a twin VTC system for higher response at low and medium speeds.

CLEANER EXHAUST. Stratified combustion during warm-up and optimised ignition timing activates the catalytic converter quickly for cleaner exhaust gas.

FUEL EFFICIENCY. Nissan has cut internal friction and reduced the weight of valves and moving parts to save fuel.

ALL MODE
TORQUE VECTORING SYSTEM
4x4-i

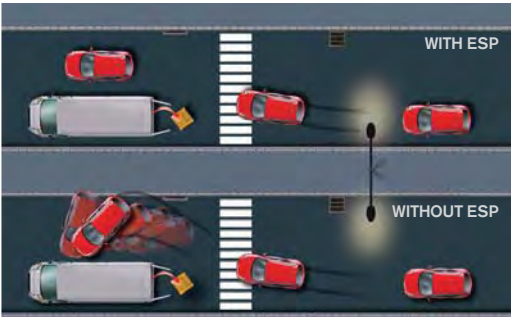

DARE TO DEVIATE

READ MY MIND. The Torque Vectoring System splits torque sent to the rear wheels from side-to-side, increasing torque to the outer wheel to deliver responsive & agile handling. Constantly processing information and anticipating the driver's intention, it's almost as if JUKE is reading your mind.

INCREASE YOUR COMFORT. With ALL MODE 4x4-i and a sophisticated rear multi link suspension system to further improve your handling and ride comfort.

TAKE THE RIGHT PATH. Super-responsive; JUKE provides a safe and confident driving experience. In addition, the ALL MODE 4x4-i system automatically distributes torque with up to 50% going to the rear wheels to maximize traction anytime and in any condition.

EQUIPPED FOR MAXIMUM SAFETY.
 With 6 airbags, ESP and a high seating position for improved visibility, JUKE increases that feeling of safety.

23/02/2011: EURO NCAP (the European New Car Assessment Programme) announced that JUKE has been awarded the maximum five-star rating.
