INTRODUCING NISSAN PRIMASTAR

CHOOSE A MOBILE BUSINESS SOLUTION THAT'S SIZED AROUND YOU. NISSAN PRIMASTAR MULTI-OPTION LCVS DELIVER ALL THE SPACE, COMFORT AND COST-EFFICIENCY YOU NEED TO DRIVE YOUR INTITATIVES FORWARD.

www.nissan.co.uk and www.nissan-lcv.co.uk

The PRIMASTAR range offers such an extensive choice that it's easy to create a vehicle that exactly suits your needs. The Van is available in two lengths and two heights, to match your daily cargo needs. The Good to Go conversion programme gives you further options with a six seat Crew van and Freezer or Chiller van.

BUILT AROUND YOU

The Minibus, also available in two lengths, takes loads plus workmates or passengers with ease. With a choice of engines, up to three grades and numerous options, you can see how PRIMASTAR is the ultimate made-to-measure business vehicle.

IMPRESSIVE DESIGN

6
LOOK & FEEL

ENHANCE YOUR STATUS

Driving a PRIMASTAR immediately conveys a powerful, positive impression. Its thoroughly modern design and attractive yet practical features, conveys a message of strength and efficiency to the outside world. With even greater attention to detail and quality, choosing PRIMASTAR proves your shrewd judgement.

The new front design incorporates combined headlamps and indicators that ensure you can see and be seen more easily – a benefit that also applies to the new rear lights. A larger rear bumper provides increased protection against every day knocks. With different paint treatments for the bumpers and body mouldings, the Van and Minibus have clearly individual identities that set them – and you – apart on the road and in the car park.

USER-FRIENDLY TECHNOLOGY

THE COMFORT ZONE

Inside, PRIMASTAR feels more like a car than a van. The high quality trim is smart and inviting, again with three distinct finishes for the Van, and Minibus. Even more impressive is the level of equipment available to make driving easy and more comfortable.

The dashboard design features extra, practical storage spaces and a new range of audio systems featuring Bluetooth® for hands-free phone use, remote controls and convenient auxiliary input for your iPod and MP3 players.

Driver-friendly technology available for PRIMASTAR includes automatic wipers with speed adaptive function, automatic lighting with friendly lighting function, rear parking sensors, air conditioning, cruise control. You can also have a 3-button key, which lets you lock and unlock the front and cargo doors separately

Climate control replaced by Manual air conditioning in UK

[REQUEST A TEST DRIVE](#)

HIGHER EFFICIENCY

PRIMASTAR's wide range of engines ensure easy load hauling ability, quiet cruising and responsive acceleration. All versions are equipped with a 6 speed manual gearbox and as an option you can specify the 6 speed semi-automatic transmission which helps to reduce wear on your transmission as well as giving you an easier drive in congested stop-start conditions.

LOWER ENVIRONMENTAL IMPACT

With long maintenance intervals for lower running costs, and improved environmental responsibility, the new engine range makes driving PRIMASTAR feel even better.

2 TYPES OF TRANSMISSION
115HP

AGILE AND TOUGH

Accidents and incidents happen suddenly and without warning. Fortunately, PRIMASTAR is designed to respond rapidly and decisively to your control. With all-wheel disc brakes, EBD (Electronic Brake force Distribution) and standard ABS and EBA (Emergency Brake Assistance), PRIMASTAR has one of the shortest stopping distances in its class. The optional ESP (Electronic Stability Program) further supplements PRIMASTAR's agile handling during routine driving and in the event of emergencies.

ABS & EBA EBD ESP

The tough reinforced cabin structure provides maximum protection in case of accident, whereas seatbelts with pretensioners and load limiters combined with airbags for driver and optionally for passenger, complete the safety equipment of PRIMASTAR. In addition, the passenger airbag can be deactivated if you need to carry a child seat. The rain sensor provides extra safety where specified. Set the wiper switch to the rain sensor function and they'll be activated automatically whenever they're needed, while the speed adaptive feature will vary their frequency according to PRIMASTAR's road speed. This improves visibility and leaves you free to concentrate. And as an extra precaution, the doors lock automatically when you reach 5mph.

14
TECHNOLOGY & PERFORMANCE

A TRUSTED WORKER

With its renowned Nissan reliability, it might seem that all you have to do with PRIMASTAR is keep it clean. You can certainly drive a long way between service appointments, with up to 18,000 between services.

The latest PRIMASTAR has a 3-year, 100,000 mile warranty, 6-year paint warranty and 12-year anti-corrosion warranty, PRIMASTAR is designed for easy repair – keeping your maintenance and insurance costs low. So it's just as well that this dependable, desirable vehicle is protected by an alarm system and immobiliser.

LOW COST OF OWNERSHIP LONG SERVICE INTERVALS

15
COST MANAGEMENT

[REQUEST A TEST DRIVE](#)

Load space is understandably one of the vital considerations when you're choosing a van. PRIMASTAR takes an impressive amount of cargo: up to 1,240kg payload for the SWB van in either height, with 5m³ of usable volume, up to 7.1m³ for the taller version.

VAN L1H1
The shorter PRIMASTAR
can load 2 Euro-pallets

EASY TO LOAD, HARD TO FILL

PRIMASTAR helps you make the most of all that space. With 1m wide sliding side doors available on both sides and a low floor, it's easy to load the 2.4m long cargo deck (2.8m long in the LWB version). To make sure your loads are properly secure, there plenty of anchorage points on the floor and all points are reinforced for extra strength.

VAN L2H2
The bigger PRIMASTAR
was designed to load up to

TAKE ON MORE

Long loads can be awkward to carry – unless, of course, you have a long wheelbase PRIMASTAR. 2.8m internal length and a 1,200kg payload means you can accommodate carpets, timber, pipes – whatever the day's challenging load might be. That's 5.9m³ of usable space or a vast 8.4m³ for the taller van.

With the long version PRIMASTAR, in either height, you can specify rear doors that open 250°, folding flat right against the sides of the van to give you totally unimpeded loading access.

2,800MM LONG
LOAD FLOOR

MINIBUS: YOU WIN AGAIN

The Minibus is available in two lengths. The standard version (L1) seats nine people with nearly 0.45m for loads, or if you fold down the rear seat, six people with over 1.5m of load space length. Choose the long wheelbase version (L2), and those cargo lengths increase to nearly 1.2m and over 1.9m respectively, while the load volume goes up from 1.2m³ to 4m³. And you can completely remove the third row and fold the second row for maximum load carrying when you need it. The load space incorporates four anchorage points, ready for attaching an optional cargo net.

With the PRIMASTAR Minibus you win both ways, with space to carry your workmates and their tools or your sports team and their kit. Entry and exit is easy with sliding doors on both sides. The Minibus is well appointed and comfortable; all seats have headrests and 3-point seatbelts and with optional air conditioning, you can maintain your preferred temperature throughout your journey. Yet it's still practical and durable enough to withstand the knocks that inevitably come from carrying equipment everyday.

PRIMASTAR is also available as a 6 seat Crew van with a secure load space separated from the cabin by a full bulkhead.

REQUEST A TEST DRIVE

REDUCE YOUR WORK LOAD

With an exceptional choice of driver-friendly equipment available, PRIMASTAR leaves you free to concentrate on the road and on your business.

21
STYLE & ACCESSORIES

SPEED LIMITER AND CRUISE CONTROL

This feature on SE+ models helps you comply with the law, avoid speeding tickets and make light work of long journeys, by maintaining any speed you choose above 20 mph. Press the + or - buttons on the steering wheel to set your chosen speed (displayed on the dashboard). PRIMASTAR stays at this speed and won't exceed it, unless you push hard on the accelerator. Using the accelerator or the brake immediately overrides the system, making sure you always retain full control.

THREE-BUTTON KEY

This remote central locking key lets you lock and unlock doors selectively. You can choose to lock or unlock the front doors only, or the loading area separately, including side and rear doors. For optimum convenience, you can also lock or unlock all doors at a time.

RAIN SENSING AND SPEED ADAPTIVE WIPERS

The wipers are automatically activated by rain on the windscreen, and adapt to the amount of rain and to PRIMASTAR's speed. Below 3mph, the wipers revert to the next lowest setting, e.g. from continuous to intermittent. This is especially helpful in stop-start city driving, leaving you free to keep your hands on the wheel.

AUTOMATIC LIGHTING

As long as the engine is running (and you've switched on the function), dipped headlights will switch on automatically when the sensor detects that the ambient light requires them. Another innovation that reduces your workload, particularly when conditions are deteriorating.

FRIENDLY LIGHTING

This feature is really helpful if you're making deliveries at night. When the engine's turned off, pull the headlamp stalk briefly to the flash setting, and the headlights will stay on for 30 seconds. You can pull the stalk up to four times, giving you as long as 2 minutes – usually plenty of time to find your way.

22
FEATURES & OPTIONS

REDUCE YOUR WORK LOAD

REAR PARKING SENSOR

On all PRIMASTAR SE and SE+ models, this feature means you can be confident that you won't damage your PRIMASTAR or any person or object behind it. Operating automatically when you engage reverse, the system emits a beep which becomes more frequent the closer you are to the object behind. When the beep is continuous, it's time to stop! The sensors are specially designed for PRIMASTAR's low loading sill and can be turned off if you're towing a trailer.

AIR CONDITIONING

The manual air conditioning system is an option on SE models and is standard on SE+ versions, helping you to enjoy a comfortable drive.

ONE TOUCH POWER WINDOWS

The electric windows will raise or lower with only one firm touch of the button – useful at barriers as your hand can go straight back to the steering wheel.

REINFORCED ANTITHEFT SYSTEM

To safeguard your goods, tools and personal items, PRIMASTAR offers a well-designed security system with protected keyholes and reinforced door locks. The security encoded key makes it virtually impossible to unlock the vehicle using any other key, and the optional built-in alarm will sound if any attempt is made to force a way in.

AUDIO RANGE

The audio range includes CD radio with an aux input jack for your MP3 player as standard equipment on all models. To make your life easier the remote audio controls allow you to operate the audio system without taking your hands off the wheel.

AUTOMATIC DOOR LOCK WHILE DRIVING

To keep you and your loads secure, all the doors lock automatically when PRIMASTAR goes above 8km/hr.

BLUETOOTH®

Bluetooth® is a practical, convenient way to link your mobile phone wirelessly to PRIMASTAR's audio system, so you can stay in touch at all times. You can take and make calls hands free*, and browse your phonebook contacts via the audio system's display. Bluetooth® can also play music from your compatible MP3 player or MP3 phone via streaming audio.

*For greater safety, we recommend you stop to make phone calls.

AUDIO AND PHONE REMOTE CONTROL

For extra convenience and safety you can control the main functions of the audio system, such as volume, source and track selection, using this steering column-mounted switch. If you have a Bluetooth®-enabled phone, you can use the same switch to start and stop calls. All without taking your hands from the steering wheel.

TACHOGRAPH

To help you comply with legislation, an advanced digital tachograph is available as an option separate smart card readers for two drivers and the ability to use a company smart card to transfer data between the tachograph and a PC. The comprehensive information display includes driver activity, time and distance, and the integrated printer can produce reports for instant checking.

THE PERFECT FIT

PRIMASTAR's many features and options have been designed with real business needs in mind. So if you have special requirements it's most likely that PRIMASTAR can satisfy them.

TUBULAR BULKHEAD

COAT HANGER
This useful coat hanger is ideally located on the bulkhead.

GLAZED BULKHEAD

BULKHEADS
A tubular bulkhead is standard on E grade vans and provides protection for the driver from sliding loads, while still allowing access from the front passenger seats to the load space. For your safety and the security of your goods SE and SE+ models have a full steel bulkhead for optimum load protection and increased comfort for everyday use by effectively reducing noise.

SOLID BULKHEAD

EXTRA ELECTRICAL CAPACITY
If you frequently use electrical accessories such as a portable navigation system, a phone kit or a DVD player for your children, it's worth having the peace of mind of PRIMASTAR's 'heavy duty' system. It provides either 85Ah or 95Ah for high-demand situations.

SECOND BATTERY RACK
If you frequently need a power supply when the engine's not running (for example, if you want to run a refrigeration unit) a second battery rack is available to house an independent power supply. This option provides the rack only, allowing you to choose the battery based on your particular application.

TWO SLIDING DOORS
Sliding doors help you access your loads more easily. They are available for both sides of the PRIMASTAR Van and are offered for the standard and long wheelbase Minibus, greatly increasing your passengers' comfort and your loading options.

ADDITIONAL ANCHORAGE POINTS
Two anchorage points on the load space floor help keep your cargo safe and secure, complementing the anchorage points on the body sides. The hooks have been designed to withstand loads of up to 625kg.

12 V MULTI-PURPOSE SOCKET
A 12V socket is conveniently located on the central dashboard so you can recharge your mobile phone, your PDA or your laptop (using the special adapters required by your device). In the Minibus, passengers can benefit from a second 12V socket located on the side wall between the second and third row of seats.

HEATING SYSTEM
The heating system now distributes warm air directly to your feet and can supply considerably more heat to the rear of the vehicle. This is particularly useful for keeping all the passengers comfortable and happy in your PRIMASTAR Minibus.

MINIBUS GRADES

The Primastar Minibus is the stylish way to transport up to eight passengers. With the responsiveness of a car and a highly effective braking system of all round disc brakes with ABS and EBD, driver or passenger, everybody can enjoy the ride of the Primastar Minibus. With the availability of several optional extras, it's easy to make the most of the Primastar Minibus, whatever your business; whatever your needs.

SE GRADE

NISSAN VAN INSURANCE

Did you know you can insure your van through Nissan Insurance?

With Nissan Van Insurance, you can be sure that you'll get the right cover at a great price. You'll also be dealing with people who really understand the way your business works. We know you want to save money, so our premiums are price-matched against the UK's leading insurers to give you great value.

Benefits include:

- Fully comprehensive cover available for virtually any type of business use
- 24/7 accident recovery helpline
- Discounts for branded vans and fixtures such as ladder holders
- Windscreen cover included as standard
- All repairs carried out in a Nissan dealership/Nissan approved repair centre
- All repairs carried out using Nissan Genuine Parts
- Like-for-like replacement provided if your vehicle is written off in the first 12 months

Call for a quote today on **0800 011 3528** and find out just how much money you could save with Nissan Van Insurance.

All quotes are based on individual circumstances and are subject to insurer's underwriting criteria. Terms and conditions apply, Nissan Insurance is arranged and administered by Equity Insurance Brokers Limited, which is authorised and regulated by the Financial Services Authority. Registered Office: Library House, New Road, Brentwood, Essex CM 14 4GD. Registered in England No. 258414. Nissan Motor (GB) Limited is authorised and regulated by the Financial Services Authority.

FURTHER INFORMATION

Price Protection Plan. Order a new Nissan for delivery no more than 4 weeks in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new vehicle. Nissan Motor (GB) is not liable for price adjustments caused by Government changes in the rate of VAT or by any other applicable legislation or regulation or Vehicle Excise Duty.

Navara - Three year/60,000 miles manufacturer's warranty - Nissan's comprehensive warranty provides cover for your new Nissan from defects in materials or workmanship. Your vehicle is covered in all European Countries where Authorised Nissan Dealers are located. If your vehicle becomes inoperative due to warrantable defects, a towing service, when necessary, to the Authorised Dealer is covered. If a warrantable defect abroad takes more than six hours to repair, the Touring Assistance Programme will pay for a hotel or rental car to a certain maximum. The paint warranty covers painted body parts (excluding the underbody) for three years regardless of mileage driven. For further details please contact your local Authorised Nissan Dealer.

LCV model (including NV200, Primastar, NV400 and Cabstar) - New Vehicle Warranty is issued by Nissan International SA is valid for 3 years from the warranty start date or 60,000 miles, whichever comes first. In addition, for each new LCV model (including NV200, Primastar, NV400 and Cabstar) sold by an authorised UK Nissan dealer, Nissan Motor (GB) Limited (NMGB) will issue an extension to the New Vehicle Warranty. This warranty extension will cover your vehicle from 60,000 miles up to 100,000 miles or 3 years from the warranty start date, whichever comes first. Please note that audio and navigation units will not be covered by the warranty extension.

Special build conversions may be subject to extended delivery.

The conversions in this price list are from Nissan Motor GB-appointed converters and have warranty terms in line with the Nissan Pan European Warranty. The converter is responsible for all aspects of the conversion.

Nissan European Roadside Assistance is provided for the first three years of your van's life. Please see www.nissan-aftersales.co.uk for full details including terms and conditions.

Recyclability - we take our environmental responsibilities very seriously - innovation today comes with a deep respect for the environment. Our engines are now much more unobtrusive and their emissions have been considerably reduced. All our vehicles are designed with recycling in mind.

All prices in this list are quoted in pounds sterling. Value Added Tax (VAT) has been calculated at 20%. Accessory prices are subject to change, please see your nearest dealership for the most up to date prices.

While all reasonable effort has been made to ensure the accuracy of the information provided, due to Nissan's policy of continuous product improvement, all particulars contained are subject to constant revision and Nissan reserves the right to change, alter or modify among other things, specifications, colours and prices of models without notice at any time. Accordingly you should consult your local Nissan Dealer for the exact introduction dates of all models and for the most up-to-date information.

YOU + NISSAN

CARE

You care about the car you drive. So do we. That's why we're making a commitment to providing the best customer service in the market.

Find out more nissan.co.uk/care

Nissan cares for you because you care about your Nissan.
That's why we'll make the following commitment:

YOU care about staying on the road when your Nissan is in for service or repair.

YOU care about quality enough to have your Nissan serviced at a Nissan dealership.

YOU care about getting the best value for money when it comes to service and repair.

YOU care about having your problems resolved quickly.

YOU care about getting the right Nissan model, engine & gear box to test drive.

NISSAN will keep you mobile free of charge.

NISSAN says thanks by giving you continuous Nissan roadside assistance for free.

NISSAN will price match like for like competitor written quotes within 10 miles of your local dealer.

NISSAN will propose how to resolve any problem within 2 working days.

NISSAN will guarantee that's what you'll get when you pre-book your test drive either online or through our customer service centre.
