1.2 DIG-S	72	98	147	119	CVT
1.5 DCI	66	90	200	95	5 MANUAL

*SUBJECT TO FINAL HOMOLOGATION

ON THE SPOT

DISTINCTLY ENERGETIC. Sportier and more agile with a low roofline, flared wheel arches and a sleek front grill intercepting its swept-back headlamps, the New Note's sharpened silhouette proves to be much more dynamic.

NISSAN SAFETY SHIELD ANTICIPATE THE UNEXPECTED. Appearing for the first time in New Note, Nissan's Safety Shield technologies bring you and your passengers outstanding protection. Using vision captured by the Around-View Monitor (AVM) camera, three advanced safety systems work together to warn you of any potential dangers.

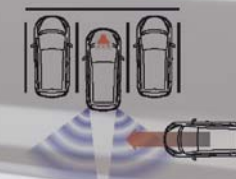

SIMPLY VISIONARY. You can count on your Safety Shield technologies whatever the weather. The rear view camera even includes a self cleaning function, to keep the lens crystal clear and functioning at all times.

BLIND SPOT WARNING. What you can't see, the Blind Spot Warning System can. If there's a vehicle in the blind spot area on either side of Note, a discreet light will illuminate in the wing mirror to let you know. If you're indicating to change lanes and a vehicle is dangerously close, that same light will start flashing and you'll hear a warning signal too.

LANE DEPARTURE WARNING. The Lane Departure Warning System will warn you if you start drifting out of your lane. It can detect the faintest of road markings and unless you're indicating, it will quickly remind you to stay in lane. Cleverly, it automatically adjusts its sensitivity on rural roads to allow for the different driving style required.

MOVING OBJECT DETECTION. Meet your digital co-pilot. The Moving Object Detection function lets you know if anything is approaching the path of your reversing Note. While conventional parking aids warn you of objects in the way, it gives you an audible and visual alert should anything or anyone be moving behind the car, like a small child for example. Very reassuring.

NissanConnect Ease your daily journey and enjoy a seamless urban experience thanks to the enhanced connectivity of Note's integrated navigation, communication and audio entertainment system. New Connect also features Google send to car services, which will help to simplify your journey.

AROUND VIEW MONITOR – 360° VISION
Nissan's advanced Around View Monitor delivers a bird's eye view of your car and its surroundings directly to your 5.8" touch screen. It makes reversing and parallel parking much simpler and stress-free.

M = METALLIC - S = SOLID

COLOURS & TRIMS
