SLIDE, GLIDE AND SWING WIDE.

A smarter 2nd row. This 2nd row is truly first class, thanks to X-Trail's flexible seating system. The 60/40 split seat slides forward for easy access and adjusts to give you a little more cargo space, more leg room or anywhere in between. The seats also recline, when it's time to just relax.

Optional 3rd row. Perfect when you need to transport the team or bring extra friends along. X-Trail's 50/50 split folding 3rd-row seat gives you added flexibility carrying passengers and their gear, and folds down to make a flat cargo floor for maximum carrying space.

The scenery outside may be rugged, but inside the X-Trail is anything but. Sit back and enjoy tasteful touches like an available Power Opening Panoramic Roof, available double-stitched leather interior, LED interior lighting and gloss black trim with metallic accents. All to create a stunning view – wherever you look.

GET A LITTLE DIRTY – WITH A CLEAN CONSCIENCE

What if you got excellent fuel economy in a roomy SUV that's lots of fun to drive?

With X-Trail, we got there by developing everything from exterior aerodynamics that whisper through the wind, to advanced engines, to a virtually gearless Xtronic transmission that maximises efficiency and performance.

Power to go. Powering the all-new X-Trail is an advanced 1.6-litre diesel engine, tuned to provide the performance of larger diesel powerplants, while offering enhanced fuel economy and lower CO₂ emissions. The engine also features Nissan's intelligent Stop/Start system, which shuts down the engine when it's not needed – at traffic lights, for example – to save fuel, then smoothly and quickly restarts as you pull away.

ENGINE	OUTPUT (PS)	TORQUE (NM)	CO ₂ * (g/km)	FUEL CONSUMPTION* (MPG)
dCi 130 2WD MT	130	320	129	57.6
dCi 130 2WD Xtronic	130	320	135	53.3
dCi 130 4WD MT	130	320	139	55.4

*Tentative pending final homologation.

Xtronic (Continuously Variable Transmission). In the newest version of our Xtronic gearbox, friction is reduced by up to 40% and the ratio coverage is increased to greater than that of some 8-speed automatics. A new Eco mode improves fuel economy at the touch of a button. All this, and performance so smooth, it's like riding a continuous wave of power.

ADVANCED TECHNOLOGY SUITE

INNOVATION THAT LOOKS OUT FOR YOU.

NISSAN SAFETY SHIELD PHILOSOPHY

What if you had the confidence you need for every part of your drive? Nissan Safety Shield is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

Forward Emergency Braking. If there's a risk of a collision with the vehicle in front, the system gives an audible and visible warning signal. If the driver does not react, automatic hard braking is activated to slow the vehicle.

Blind Spot Warning. If another vehicle is detected in your blind spot area, an indicator appears in the driver's or front passenger's doors and on the Advanced Drive-Assist Display.

Lane Departure Warning. If X-Trail detects that you're straying from your lane, the Lane Departure Warning system will give both a visual and audible alert.

Moving Object Detection. When the Around View Monitor is in use and detects something moving by the vehicle, it gives a visual and audible alert.

Tyre Pressure Monitoring System with Easy-Fill Tyre Alert. Lets you know when a tyre is low.

Driver Attention Alert. Always looking out for you, your X-Trail monitors your driving, and will give you a warning on the Advanced Drive-Assist Display if it thinks you are getting tired.

Traffic Sign Recognition. Knowledge is power. And to keep you well informed, X-Trail employs an advanced system that can actually read road signs.

High Beam Assist. If you're driving with the high beams on and the system detects oncoming traffic, it will automatically turn the high beams off.

ALL-MODE 4X4-I

Intuitive 4WD. With X-Trail's ALL-MODE 4x4-i, you've got a system that's capable on-road and off. You can choose full-time 2WD for maximum efficiency. Auto Mode constantly monitors conditions and adjusts the balance of power between front and rear wheels for best traction. Challenging conditions? 4WD Lock Mode is your choice.

CHASSIS CONTROL

Helping you respond. When you need to hit the brakes hard or suddenly manoeuvre around an obstacle, these standard technologies help you react safely to a potentially harmful situation.

Active Engine Braking. Whether you're slowing for a corner or coming to a stop, this system uses the Xtronic transmission to apply engine braking.

Active Trace Control. A turn for the better, this innovative technology helps improve control when you take a corner.

Active Ride Control. With Active Ride Control, X-Trail can automatically apply braking and adjust engine torque after you hit a bump to smooth out your ride.

Active Brake Limited Slip. To help provide better grip in slippery conditions, ABLs can apply braking to an individual wheel when it starts to spin.

Vehicle Dynamic Control helps you maintain your steered path.

Traction Control System helps reduce wheelspin in low-traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

Hill Start Assist helps prevent rollback when starting and driving away on an incline.

NISSAN AROUND VIEW MONITOR
IT'S GOT YOUR BACK.
AND THE REST OF YOU, TOO.

What if parallel parking was easier? A rear view is great when backing up – but when it comes to parking, it's nice to see more than just what's behind you. That's why X-Trail offers an Around View Monitor. Four cameras give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look. And since all obstacles aren't stationary (shopping trolleys, we're talking to you), Moving Object Detection keeps an eye around your X-Trail and can warn you about moving objects detected in your vicinity.

NEW NISSANCONNECT
WITH IN-VEHICLE APPS.

The New NissanConnect system is packed with smart features, and incredibly easy to use thanks to its 7" anti-glare touch-screen and enhanced interface. Offering a powerful combination of audio, navigation, and hands-free communication functions, as well as cutting-edge connectivity, the New NissanConnect system keeps you in touch with the outside world, while enhancing your driving experience. Navigate any city like a local, stay tuned to the latest news, keep in touch with your friends and play customised streamed music. Your X-Trail, an integral part of your connected lifestyle.

Besides popular applications like Google Search, Trip Advisor, Facebook, TuneIn Radio and Twitter, you can enjoy regular updates from an ever-evolving range of application services. More than just Apps, New NissanConnect keeps you in the loop with:

- POIs and traffic
- Music and social networks
- News and sports

The New NissanConnect transforms your vehicle into a connective device as essential as your smartphone, tablet and computer. Your New NissanConnect system is also more than a map. Intelligent functions support you, making driving safer and more convenient. Enhance your journey with intelligent driver assist features: Sharp Bend Warning, Over Speed Warning, Exit View, Lane Guidance and Dynamic Re-routing provide support in all kinds of traffic situations. The system also includes Bluetooth hands-free communication and audio functions, SD Card base map, meter integration, as well as Aux-in and USB slots.

Optional equipment. This price list features a selection from the full range of optional equipment, be they standard, dealer fit or factory options.

For further information and details of the full range, please contact your local Authorised Nissan Dealer.

Nissan's commitment to you includes all of the following benefits – some of which may be the reasons why you chose your new Nissan in the first place:

Three-year/60,000 miles manufacturer's warranty – Nissan's comprehensive warranty provides cover for your new Nissan from defects in materials or workmanship. Your vehicle is covered in all European Countries where Authorised Nissan Dealers are located. If your vehicle becomes inoperative due to a warrantable defect a towing service, when necessary, to the Authorised Nissan Dealer is covered. If a warrantable defect abroad takes more than six hours to repair, the Touring Assistance Programme will pay for a hotel room or rental car up to a certain maximum. The paint warranty covers painted body parts (excluding the underbody) for three years regardless of mileage driven. For further details please contact your local Authorised Nissan Dealer.

LEAF – Nissan LEAF offers a 5-year / 60,000 mile warranty on all EV dedicated components, including the lithium-ion battery, and a 3-year / 60,000 mile warranty on standard components. The Nissan LEAF lithium-ion battery state of health guarantee protects against battery capacity loss (less than 9 bars out of 12) as shown on LEAF's capacity gauge for a period of 5 years / 60,000 miles. For LEAF flex customers, the battery state of health guarantee applies for the duration of the battery lease.

NV200 Combi - New Vehicle Warranty is issued by Nissan International SA is valid for 3 years from the warranty start date or 60,000 miles, whichever comes first. In addition, for each new NV200 Combi sold by an authorised UK Nissan dealer, Nissan Motor (GB) Limited (NMGB) will issue an extension to the New Vehicle Warranty. This warranty extension will cover your vehicle from 60,000 miles up to 100,000 miles or 3 years from the warranty start date, whichever comes first. Please note that audio and navigation units will not be covered by the warranty extension.
