

RANGE ROVER SPORT

ABOVE AND BEYOND

NOW IT'S TIME TO CHOOSE...

The all-new Range Rover Sport offers an exclusive range of options that allow you to personalise your vehicle. The following pages take you through a logical series of steps to make it a true expression of your individuality. You have several choices: from selecting your engine and model to exterior and interior colours, wheels, finishes and those detailed touches that define your style.

If you'd like to bring your options to life, go to our online configurator at landrover.co.uk

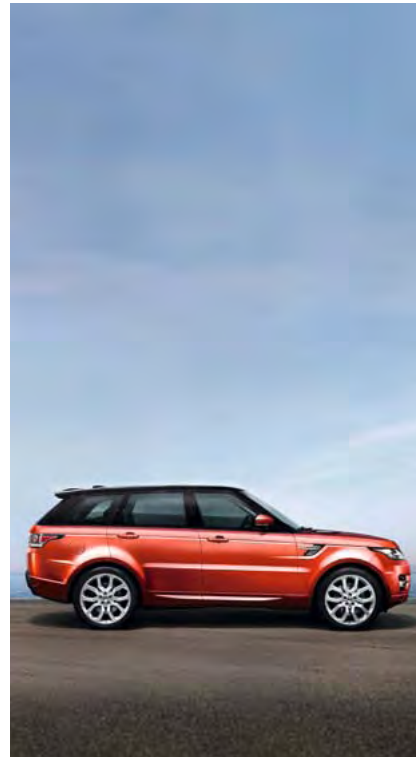

Step 1

Hybrid

The world's first Diesel Hybrid SUV.

Choose your engine

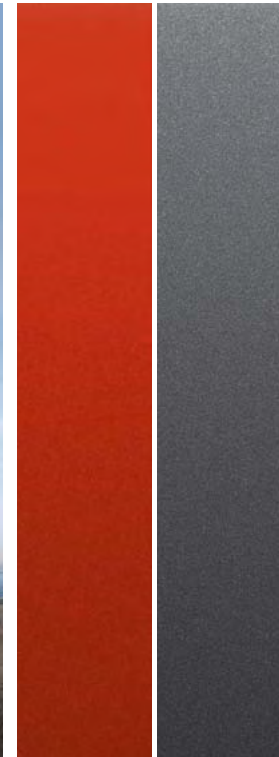

You can select from a powerful range of petrol or diesel engines including the new hybrid diesel engine.

Step 2

Choose your model

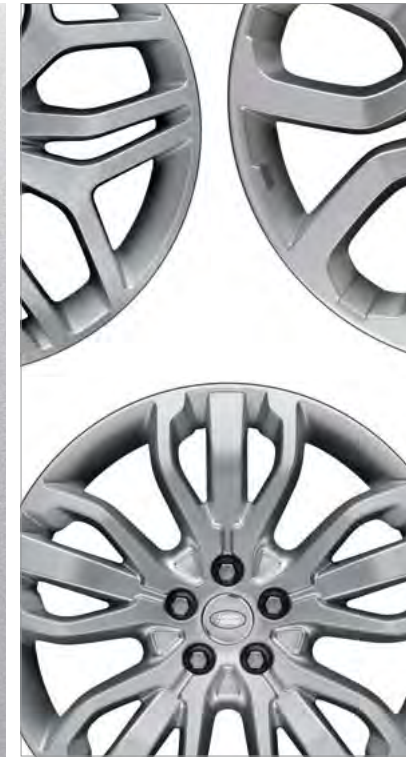

Compare the standard features on each model.

Step 3

Choose your colour

There's a wide range on offer to enable you to express yourself.

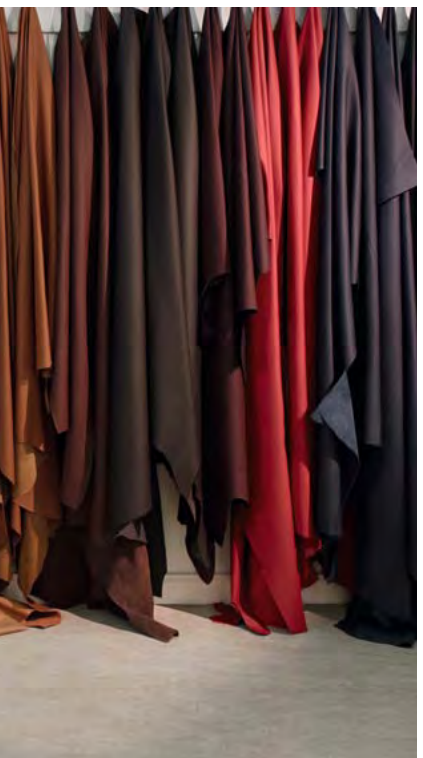

Step 4

Choose your wheels

There's a range of styles, each one designed to complement the bold exterior.

RANGE ROVER SPORT HYBRID

All-new Range Rover Sport Hybrid* is the first diesel SUV of its kind in the world. It has been designed and engineered to deliver class-leading capability and versatility. By fully integrating the hybrid technologies into the chassis, nothing has been lost in ground clearance, approach and departure angles or the 850mm wading depth. The vehicle truly is 100% Hybrid, 100% Land Rover.

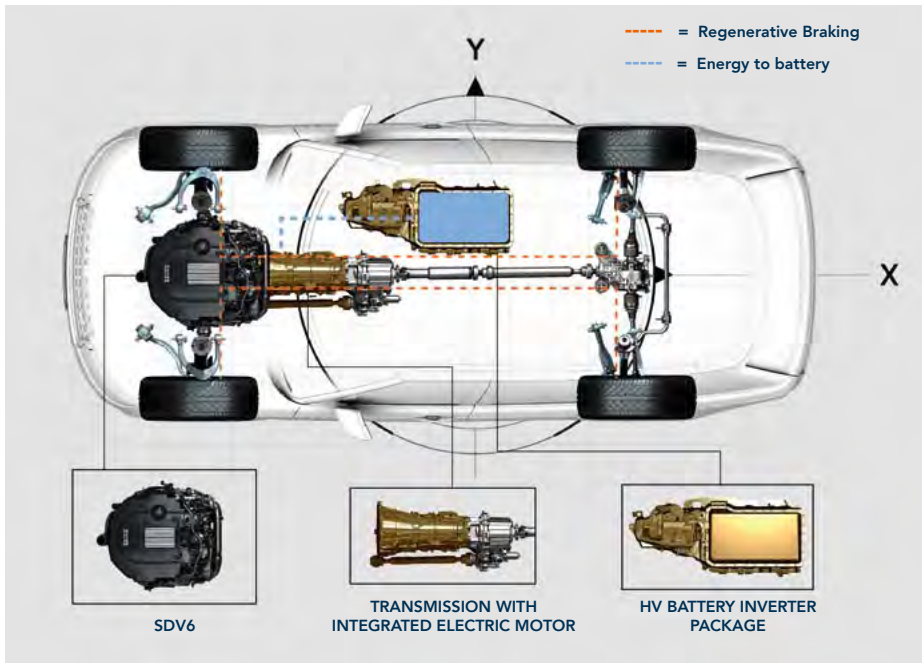

All-new Range Rover Sport Hybrid has been tested on the most demanding terrains, rigs and under the same extremes as every Land Rover. Whilst nothing has been lost in the responsiveness of the drive, hybrid technologies deliver impressive efficiencies. The 3.0L SDV6 Diesel engine with a 35kW electric motor generates an impressive 700Nm of torque resulting in the same performance as the SDV8 Diesel but with 15% lower (30g/km less) CO₂ emissions when compared to the SDV6 engine at 169g/km.

*Please contact your local Land Rover Dealership regarding SDV6 Hybrid engine availability.

[Build & Price](#)

Innovative engineering ensures the transmission of energy between battery and engine is seamless. This energy is created by the Regenerative Braking process, which captures and stores kinetic energy in the battery, normally lost through braking. This is then used to power the electric motor and ensures that torque is instantly available on demand so the vehicle maintains unrivalled breadth of capability.

RANGE ROVER SPORT HYBRID

Select from four Hybrid driving modes to tailor the vehicle's performance to your requirements giving the most dynamic model in Land Rover's portfolio an extra dimension.

EV On Mode: Optimises hybrid battery power and is whisper quiet whilst travelling around town or peaceful villages.

EV Off Mode: Enables the vehicle's default setting where the hybrid system selects the most efficient combination of diesel and electric power to meet the power and torque required.

Sport Mode: Gives full access to the vehicle's comparable SDV8 performance. The throttle response becomes more immediate with torque triggered from less pedal pressure, ideal for overtaking when it is safe to do so.

Auto Stop/Start: Increases charging opportunities as this option means the engine runs continuously, inhibiting the Stop/Start system.

Attention to detail is at the very heart of Land Rover. That's why even the alloy wheels on all-new Range Rover Sport Hybrid have been designed for increased efficiency. The design features spokes that are aerodynamically shaped so, as they move through the air, they require less power to keep them moving.

To finish, the vehicle is specified with a unique Hybrid badge that is located on the side vent.

DRIVELINE, ENGINE PERFORMANCE AND FUEL ECONOMY

The improved range of petrol and diesel engines, along with the new hybrid engine, use the very latest powertrains. The 3.0 litre SDV6 diesel features Intelligent Stop/Start technology that automatically shuts down the engine at rest and starts again as soon as you lift your foot off the brake. In fact, coupled with lightweight all-aluminium technology and an eight-speed transmission, these engines deliver greatly improved fuel efficiency and lower CO₂ emissions. However, nothing has been lost in performance. For instance, the 5.0 litre V8 Supercharged goes from 0-60mph in just 5.0 seconds.

*Please contact your local Land Rover Dealership regarding SDV6 Hybrid engine availability. [†]When combined with electric motor.

Fuel consumption figures: the results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitable differences between individual vehicles of the same model. The vehicle may also incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. Low fuel warning at 9 litres approximately.

KEY FEATURES

Terrain Response® 2

Next generation Terrain Response® 2 is designed to monitor driving conditions and automatically optimises the vehicle's settings to suit the terrain. This gives you the ultimate in ride comfort on all surfaces including grass/gravel/snow, mud/ruts, sand and rock. And even if it is not in auto mode, it will let you know if you should select low range and off-road ride height.

Eight-speed Automatic Transmission with CommandShift® 2

All petrol and diesel engines in the all-new Range Rover Sport are paired with the advanced electronically controlled eight-speed automatic gearbox which has been tuned by Land Rover engineers to combine silky smooth shifting with exceptionally rapid responses and outstanding fuel economy. With eight closely-spaced ratios, gear changes are almost imperceptible, with each shift completed in just 200 milliseconds.

Electric Power Assisted Steering (EPAS)

The Electric Power Assisted Steering (EPAS) system helps to deliver accurate, consistent steering and agile cornering. Power assistance is speed-sensitive so the steering is light and responsive at lower speeds and firmer at higher speeds.

Dynamic Response

Dynamic Response transforms vehicle handling through hydraulic roll and yaw control, optimising on road performance and passenger comfort. The system works in addition to Adaptive Dynamics which monitors the vehicle's movements over 500 times a second, reacting to driver or road inputs virtually instantaneously, helping to give greater control and minimising body roll for a composed ride.

Electronic Air Suspension

The all-new Range Rover Sport features a next-generation four corner air suspension system which delivers class-leading comfort and capabilities both on and off-road. The air suspension system automatically switches between two ride heights when the off-road setting is selected. Maximum ground clearance is increased by 65mm above normal ride height at speeds less than 30mph.

Torque Vectoring

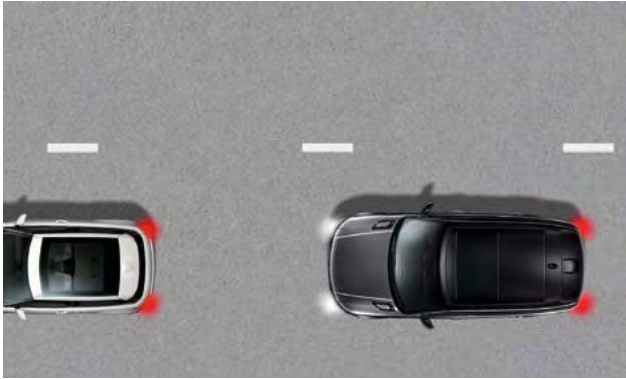

Torque Vectoring uses the electronic differential and vehicle's brake system to constantly balance the distribution of engine torque between the four wheels when cornering, resulting in improved grip, steering and reduced understeer whilst maintaining a consistent speed.

KEY FEATURES

Adaptive Cruise Control with Queue Assist, Intelligent Emergency Braking and Active Seat Belts

Adaptive Cruise Control (ACC) is an improved cruise control system that helps maintain a pre-set gap from the vehicle in front, even if it changes speed. Queue Assist extends the ACC functionality. It is designed to allow the vehicle to come to a stop when it reaches a traffic queue.

Intelligent Emergency Braking uses radar to detect vehicles travelling in the same direction and automatically reduces impact speed if it calculates that a frontal collision is unavoidable.

Traffic Sign Recognition with Lane Departure Warning

Traffic Sign Recognition uses the forward-looking camera to recognise speed limit signs and display the information in the instrument cluster.

Lane Departure Warning uses a forward-looking camera mounted in front of the rear view mirror to monitor lane markings on both sides of the vehicle. It gives a discrete warning in the form of a vibration through the steering wheel when the vehicle drifts out of its lane, triggering the indicators. (System operational at certain speeds).

Blind Spot Monitor with Closing Vehicle Sensing

Using sensors mounted on the sides and the rear bumper, these systems are designed to see what you might miss. When a vehicle enters a blind spot, a warning light will show in the corresponding door mirror.

Closing Vehicle Sensing scans a zone much further behind the vehicle, to help detect vehicles which are closing quickly from behind and which could cause a threat during a lane change manoeuvre.

Also available with Reverse Traffic Detection.

InControl™

Land Rover InControl™ uses in-vehicle mobile technology to safely and securely connect your world, your Land Rover and your services. Use the smartphone app to check the status of your vehicle wherever you are and have the reassurance of emergency help if required from SOS Emergency Call and Optimised Land Rover Assistance. If your vehicle is stolen, InControl Secure enables it to be tracked aiding recovery.

Available March 2014.

Park Assist

The all-new Range Rover Sport has been designed and engineered to meet the needs of today. Parking is made simpler with the aid of Parallel Parking, a feature which can be further enhanced with the addition of Parallel Exit, Perpendicular Parking and 360° Park Distance Control. Whether you're manoeuvring around tight corners or negotiating traffic, the vehicle is agile.

Full Thin Film Transistor (TFT) Instrument Panel

The 12.3 inch virtual instrument panel uses state-of-the-art, high-resolution display technology and the latest colour graphics for clear communication of the main vehicle functions and data. With elegant virtual dials resembling 3D chrome it can be tailored to display only information that is relevant to the current driving situation.

KEY FEATURES

Interior Mood Lighting

New levels of ambient refinement and personalisation have been reached with the option of customer configurable lighting. Using a combination of coloured LEDs, this feature allows occupants to vary the shade, changing the ambience of the cabin to suit their mood. There are ten colours in total to suit every taste and mood, ranging from Spark Blue through to Ice White and Racing Red.

Dual View Touch-Screen

Dual View technology enables driver and front passenger to view completely independent display content via the Touch-screen, so the passenger can watch TV while the driver follows navigational instructions. Supplied with one pair of WhiteFire® wireless digital headphones.

Wade Sensing™

Using sensors in the wing mirrors when the vehicle is wading, it alerts the driver if the water is too deep. The feature is particularly useful when visibility is poor or when driving at night. This feature provides real-time pictorial wading information, including the depth of the water in relation to the vehicle, as well as maximum wading capability of the vehicle.

Audio

The Meridian™ audio technology gives you stunning sound quality. The top of the range system features Meridian Signature Reference Audio with 23 speakers including subwoofer and 3D surround sound.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under license.

Rear Seat Entertainment

The Rear Seat Entertainment System provides entertainment for rear passengers, with a choice of two eight-inch integrated or 10.2-inch video screens, two pairs of WhiteFire® wireless digital headphones, one USB in the second row and a dedicated remote control.

It includes 'Journey Status', a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination.

Climate Control and Park Heat

Choose three-zone climate control to benefit from separate controls for driver, front passenger and rear seats. The optional four-zone climate control helps give more control to rear passengers. Remote Park Heat with Timed Climate enables you to pre-heat or cool the vehicle with remote control and seven-day timer.

ACCESSORIES

Style

20 Inch Five Split-Spoke Gloss Black Finish – 'Style 18'
VPLWW0090 £2,640.00 (set of four)

Rim only. Centre caps available separately.

Side Protection Tubes
VPLWP0154 £822.00

Manufactured from stainless steel with a highly polished finish, this product helps protect the vehicle in off-road conditions. Its rugged off-road appearance complements the vehicle's exterior design.

Illuminated Rear Loadspace Treadplate Finisher
VPLWS0211PVJ – Ebony £360.00
VPLWS0211AAM – Espresso £360.00

Manufactured from stainless steel with a bright finish, protecting the loadspace trim when loading or unloading. Providing a premium finish to the loadspace with subtle illumination.

Noble Plated Mirror Caps
VPLGB0073 £168.00

Noble Plated Mirror Caps complement the Range Rover Sport's exterior styling cues.

Styled Valve Caps
LR027664 – Black Jack - £26.40
LR027666 – Union Jack - £20.00
LR027560 – Land Rover - £20.00
LR027663 – Range Rover - £20.00

Exclusive range of styled valve caps providing choice of Land Rover, Range Rover branded caps or Union Jack designs. Provide a subtle styling enhancement.

Stainless Steel Front Undershield
VPLWP0162 £420.00

The off-road inspired styled undershield features a premium bright polished finish for the front of the vehicle.

Prices correct to 30th June 2014. All prices subject to change. Please contact your dealership for the latest pricing. Prices include VAT but exclude dealership fitting costs.

ACCESSORIES

Touring

Roof Rails*
VPLWR0104 – Black Finish £480.00 VPLWR0103 – Silver Finish £480.00

Roof Rails facilitate easy fitment of cross bars. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics.

Roof Rail Ditch Finishers required for fitment with Roof Rails – £198.00
(VPLWR0108 – Black / VPLWR0109 – Silver)

*Roof Rails and Cross Bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted.

Cross Bars*
VPLGR0081 £342.00

T-track design utilises the full length of the bars, providing space to mount multiple accessories. Aerodynamic profile minimises drag and noise. Roof rails not included.

Luggage Box*
VPLVR0062 £535.00

The gloss black finish Luggage Box opens from both sides and includes power-grip mounting for easy and quick fixing to the roof bars. Lockable for security. Volume 410 litres. Maximum payload 75kg**.

Premium Seatback Stowage
VPLVS0182 £168.00

Manufactured from the same premium leather offered on the vehicle complemented with soft touch interior lining and magnetic button clasps.

Electric Cool Bag
VUP100140L £190.00

Powered by the 12 volt auxiliary socket. Thermostatically controlled temperature. Easy clean interior surface. Height 380mm, length 380mm, width 220mm. Volume 14 litres.

iPad Holder
iPad 1 Holder - VPLVS0164 £166.00 iPad 2 Holder - VPLVS0165 £166.00

Provides secure mounting for your iPad. Rear seat facing, attaches to the head restraint posts. iPad® is a registered trademark of Apple Inc., registered in the US and other countries.

Prices correct to 30th June 2014. All prices subject to change. Please contact your dealership for the latest pricing. Prices include VAT but exclude dealership fitting costs.

ACCESSORIES

Sporting

Electrically Deployable Tow Bar
VPLWT0111 £1,596.00

The Electrically Deployable Tow Bar is stowed discreetly behind the bumper, providing a clean attractive finish. It is designed to deploy/stow in 12 seconds. Approved for up to 3,500kg trailer load.

Tow Bar Mounted Bike Carrier
VPLVR0066 – Two Bike Carrier* £521.00

Tow bar mounted bike carrier available for two, three or four bikes. Featuring LED lighting, licence plate mount, a quick release design for ease of use and lockable for security. Maximum load capacity 60kg (on the four bike carrier).

Tow Bar Mounted Bike Carrier can be used with either Multi-Height Tow Bar and Armature – Part No: VPLWT0112 or Electrically Deployable Tow Bar – Part No: VPLWT0111

Fixed Side Step
VPLGP0114 £804.00

The Fixed Side Steps aid entry and exit to the vehicle and improve access to the roof. Design features include Range Rover branding and exterior bright work to complement vehicle styling cues. Not compatible with Wade Sensing.

Loadspace Liner Tray
VPLWS0224 £186.00

This liner provides superior protection to the loadspace floor and side wall carpets from dirty or wet equipment.

*Heat Shield required – VPLWR0124.

Door Sill Outer Treadplate
VPLWS0207 £216.00

An aluminium enhancement for the outer door sills featuring a laser etched 'Sport' motif.

Load Retention Net
VUB503130 £100.00

Utilises loadspace tie-down points. Includes floor net and two ratchet straps. Strap length approximately 2 metres.

Prices correct to 30th June 2014. All prices subject to change. Please contact your dealership for the latest pricing. Prices include VAT but exclude dealership fitting costs.

ACCESSORIES

Outdoor

Deployable Side Steps
VPLWP0191 and
VPLWP0192 £1,864.80
VPLWP0177 £138.00

VPLWP0173 £26.40
VPLWP0178 / VPLWP0179* £130.80
VPLWP0167 £60.00

These smart, practical steps make it easier to get in and out of the vehicle. Neatly stowed under the sills, the Side Steps automatically deploy as soon as the door is opened, or when activated by the key fob. They stow automatically when the door is closed.

*5+2 Seating equipped vehicles.

Front Mudflaps
VPLWP0167 £60.00
Rear Mudflaps
VPLWP0166 £60.00

Mudflaps reduce spray and help protect the paintwork. Supplied as a pair.

Loadspace Mat – Rubber
VPLWS0225 £162.00

Range Rover branded rubber mat helps to protect the rear loadspace carpet from general dirt. Rubber mat extension for protection of the back of the rear seats when folded down also available – Part No: VPLWS0223

Luggage Divider – Full Height
VPLWS0235 £312.00

The Luggage Divider is designed to prevent cargo from entering the passenger compartment. It incorporates a useful integral ski hatch that allows longer items to be carried where a suitable rear seat option is fitted.

Rubber floor mats
VPLWS0189 £120.00

Rubber footwell mats for front and second row occupants help provide protection from general dirt.

Loadspace Retention Kit
VPLG50171 £138.00

Pack of attachments that fix into the loadspace rails via a quick lock/quick release system to provide a flexible solution for retaining items. The attachment pack includes a retractable strap with inertia reel, telescopic rod and stowage bag.

Prices correct to 30th June 2014. All prices subject to change. Please contact your dealership for the latest pricing. Prices include VAT but exclude dealership fitting costs.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and dealers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Dealer within one month or 1,600 kilometres/1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Dealer who will be pleased to advise you on current specifications and any query you may have.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Dealer. Distributors and dealerships are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.
